Pure Enrichment PEAIRPLG

Pure Enrichment PureZone Air Purifier

Model: PEAIRPLG

Brand: Pure Enrichment

INTRODUCTION

The Pure Enrichment PureZone Air Purifier is designed to improve air quality in your home. Featuring a 4-stage filtration system and UV-C light, it effectively captures and eliminates various airborne particles and microorganisms.

Key Features:

- **4-Stage Air Purification:** Includes a Washable Pre-Filter, Activated Carbon Filter, H13 True HEPA Filter, and UV-C Light for comprehensive air cleaning.
- **Deep Clean Your Air:** Captures 99.97% of dust and allergens, and eliminates up to 99.9% of viruses and bacteria.
- **3 Fan Speeds & Quiet Operation:** Offers low, medium, and high fan settings with a quiet operation level as low as 30dB.
- **Energy-Efficient & Easy to Use:** Features 2, 4, or 8-hour timer settings and a filter reset indicator.

SETUP

1. Unpacking and Filter Preparation

Carefully remove the air purifier from its packaging. Before first use, locate the filter compartment, typically at the bottom or back of the unit. Remove the protective plastic wrapping from the filter(s) and re-install them securely.

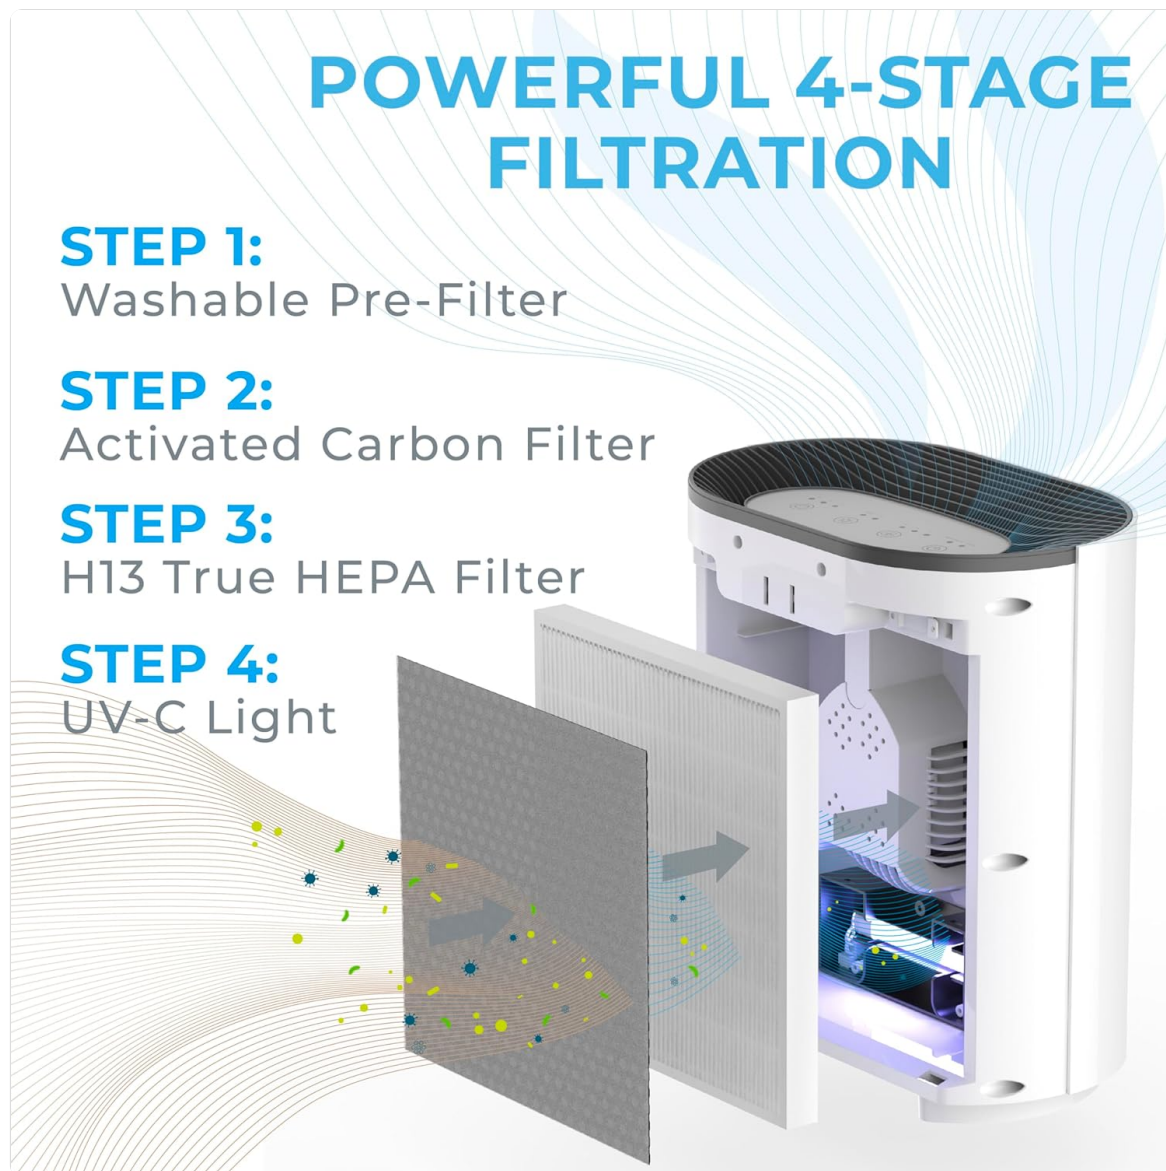

Image: Diagram illustrating the 4-stage filtration system components.

2. Placement

Place the air purifier on a firm, level surface. Ensure there is adequate space around the unit (at least 6 inches) for proper airflow. Avoid placing it directly against walls or furniture. For optimal performance, place it in the room where air purification is most needed.

Bedroom

Office

FRESHER AIR IN ANY SPACE

ROOM SIZE	TIME TO CLEAN AIR	ACH*
93 sq. ft.	12.5 minutes	4.8 ACH
300 sq. ft.	40 minutes	1.3 ACH

*Air changes per hour

OPERATING INSTRUCTIONS

The control panel is located on the top of the unit, providing easy access to all functions.

BETTER SLEEP EVERY NIGHT

Use sleep mode to dim the control panel while quietly purifying the air all night long.

Image: Close-up of the PureZone Air Purifier's control panel with buttons for power, fan speed, UV-C light, sleep mode, and timer settings.

1. Power On/Off

- Press the **Power Button** (🔌) to turn the unit on or off.

2. Fan Speed Adjustment

- Press the **Fan Speed Button** (🌀) repeatedly to cycle through low, medium, and high settings.

3. Timer Settings

- Press the **Timer Button** (🕒) to set the unit to operate for 2, 4, or 8 hours. The unit will automatically shut off after the selected time.

4. UV-C Light Function

- Press the **UV-C Button** (☀️) to activate or deactivate the UV-C light for enhanced sanitization.

5. Sleep Mode

- Press the **Sleep Mode Button** (🌙) to dim the control panel lights and reduce fan speed for quiet

operation during sleep.

MAINTENANCE

1. Filter Replacement

The H13 True HEPA filter should be replaced approximately every 6 months, depending on usage. The filter reset indicator light on the control panel will illuminate when it's time for a new filter.

- To replace the filter, turn off and unplug the unit.
- Open the filter compartment (refer to your unit's specific design for access).
- Remove the old filter and dispose of it properly.
- Insert the new H13 True HEPA filter, ensuring it is correctly oriented.
- Close the filter compartment.
- Plug in the unit and press and hold the **Power Button** for 3-5 seconds to reset the filter indicator.

2. Pre-Filter Cleaning

The washable pre-filter (first stage of filtration) can be cleaned every 4-6 weeks to maintain efficiency. Gently vacuum the pre-filter to remove large particles like dust, pet hair, and lint. If necessary, it can be washed with mild soap and water, then thoroughly air-dried before re-installation.

TROUBLESHOOTING

- **Unit Not Turning On:** Ensure the power cord is securely plugged into a working outlet. Check if the filter is installed correctly and the filter compartment is closed.
- **Reduced Airflow/Poor Performance:** Check the filter for excessive dirt or blockage. Clean the pre-filter or replace the H13 True HEPA filter if needed. Ensure there is no obstruction to the air intake or outlet vents.
- **Unusual Noise:** Verify that the unit is placed on a stable, flat surface. Check for any foreign objects inside the unit or if the filter is improperly installed.
- **Filter Reset Light Remains On:** After replacing the filter, ensure you reset the filter indicator by pressing and holding the Power Button for 3-5 seconds.

SPECIFICATIONS

Feature	Detail
Brand	Pure Enrichment
Model Number	PEAIRPLG
Product Dimensions	6.9"D x 10.8"W x 12.1"H
Weight	7.7 Pounds
Floor Area Coverage	Up to 300 sq. ft.
Noise Level	30 Decibels (lowest setting)
Filtration Type	4-Stage (Washable Pre-Filter, Activated Carbon, H13 True HEPA, UV-C Light)
