Hot Wheels DWW95

Hot Wheels Track Builder Stunt Box Instruction Manual

Model: DWW95
Brand: Hot Wheels

Product Overview

The Hot Wheels Track Builder Stunt Box is designed to ignite imagination and experimentation, allowing racers to create an epic world of amazing Hot Wheels stunts. This versatile set includes stunting components such as bricks for building, customizing, problem-solving, and skill mastery. The options for super stunts are practically endless, with multiple ways for staging stunts and various points for connecting track. Users are encouraged to enhance their builds with common household items like red cups, paper tubes, and books to expand play possibilities.

Safety Information

WARNING: CHOKING HAZARD – Small parts. Not for children under 3 years. This product is recommended for ages 4 to 10 years. Adult supervision is recommended during assembly and play. Ensure all track connections are secure before launching vehicles to prevent unexpected disconnections.

What's Included

Your Hot Wheels Track Builder Stunt Box includes the following components:

- 1 x Hot Wheels Stunt Box (storage container)
- 6 x Orange Track Pieces
- 16+ x Building Bricks (various colors and sizes)
- 2 x Curved Track Sections
- 1 x Launcher Mechanism
- Multiple Connectors
- 1 x Hot Wheels Vehicle

Setup Instructions

1. **Unpack Components:** Carefully remove all track pieces, bricks, the launcher, and the vehicle from the stunt box.
2. **Prepare the Stunt Box:** The stunt box itself can be integrated into your track designs. It features connection points on its lid and sides.
3. **Connect Track Pieces:** Use the provided connectors to link the orange track pieces together. Ensure a firm click for secure connections.
4. **Integrate Bricks:** The building bricks can be attached to designated points on the track and launcher to create custom obstacles, ramps, or supports.
5. **Attach Launcher:** Securely attach the launcher to the beginning of your track layout.
6. **Experiment with Layouts:** Begin with simple track designs and gradually experiment with more complex configurations, utilizing the stunt box as a ramp, tunnel, or jump base.

Operating the Stunt Box

Once your track is assembled, place a Hot Wheels vehicle on the launcher. Pull back the launcher mechanism until it locks into place, then press the release button to send your car speeding down the track. The stunt box can be used in various ways:

- **Ramp:** Position the box on its side or end to create an incline for cars to race up or down.
- **Target:** Use the open box as a target for cars to land in after a jump or stunt.
- **Base:** Build track sections directly onto the lid or sides of the box using the integrated connection points.
- **Obstacle:** Incorporate bricks and other components to create challenging obstacles for cars to navigate.

Experiment with different car types and track angles to achieve optimal stunt performance.

Maintenance

To ensure the longevity of your Hot Wheels Track Builder Stunt Box and its components, follow these simple maintenance guidelines:

- **Cleaning:** Wipe down track pieces, bricks, and the stunt box with a damp cloth as needed. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** The stunt box is designed for convenient storage. After play, disassemble the track and place all components inside the box. Ensure the lid is securely closed to prevent loss of parts.
- **Inspection:** Periodically inspect all parts for wear and tear, especially connectors and the launcher mechanism. Replace any damaged parts to maintain optimal performance and safety.

Troubleshooting

If you encounter any issues with your Hot Wheels Track Builder Stunt Box, consider the following common solutions:

- **Cars Not Launching Properly:**
  - Ensure the launcher mechanism is fully pulled back and locked before releasing.
  - Check that the car is correctly positioned on the launcher.
- **Track Disconnecting During Play:**
  - Verify that all track pieces are securely connected with a firm click.
  - Ensure the track is on a flat, stable surface to minimize movement.
- **Cars Falling Off Track:**
  - Review your track design for sharp turns or steep inclines that might be too challenging for the car's speed.
  - Ensure track pieces are not warped or damaged.
- **Bricks Not Staying Attached:**
  - Confirm that bricks are properly aligned with the connection points on the track or launcher.

- Check for any debris in the connection points that might prevent a secure fit.

Specifications

Feature	Detail
Product Dimensions	14 x 8.5 x 7 inches
Item Weight	2.2 pounds
Model Number	DWW95
Manufacturer Recommended Age	4 - 10 years
Manufacturer	Mattel
