PURPLE LEAF ZYLRS10-KK

PURPLE LEAF 10ft Patio Umbrella Instruction Manual

Introduction

Thank you for choosing the PURPLE LEAF 10ft Patio Umbrella. This manual provides essential information for the safe and effective assembly, operation, and maintenance of your new umbrella. Please read all instructions carefully before use and retain this manual for future reference.

Important Safety Information

- Always ensure the umbrella base is adequately weighted and stable before opening the canopy. Insufficient weight can lead to tipping in windy conditions.
- Close the umbrella during strong winds, heavy rain, or other severe weather conditions to prevent damage to the umbrella and potential injury.
- Keep hands and fingers clear of moving parts, especially during opening, closing, and tilting operations.
- Do not hang objects from the umbrella frame or ribs.
- Ensure adequate clearance around the umbrella when rotating or tilting to avoid striking objects or people.

Parts List

Before assembly, verify that all components are present and undamaged. Refer to the diagram below for visual identification.

- Canopy (10' x 10' square, double-top design)
- Main Pole (All-aluminum, aviation grade)
- Umbrella Ribs (8 heavy-duty ribs)
- Crank Handle Mechanism
- Tilt Adjustment Handle
- 360-Degree Rotation Pedal

Figure 3: Detail of the 240/gsm yarn-dyed polyester fabric, highlighting its texture and durability.

Setup Instructions

The umbrella requires a suitable weighted base for stability. The base is not included with the umbrella and must be purchased separately. Recommended bases include PURPLE LEAF DY1100 water tank base, anchor ground base, or steel plate base.

Assembly Steps:

1. **Secure the Base:** Place your chosen weighted base on a flat, stable surface. Ensure it is filled with sand or water as per its specific instructions to achieve maximum stability.
2. **Attach the Main Pole:** Insert the main pole of the umbrella into the designated slot on the base. Secure it firmly using the provided bolts and tools, ensuring it is upright and stable.
3. **Unfold the Canopy:** Once the pole is securely attached, carefully release any ties or straps holding the canopy

closed.

4. **Open the Umbrella:** Use the crank handle to slowly extend the umbrella canopy until it is fully open.

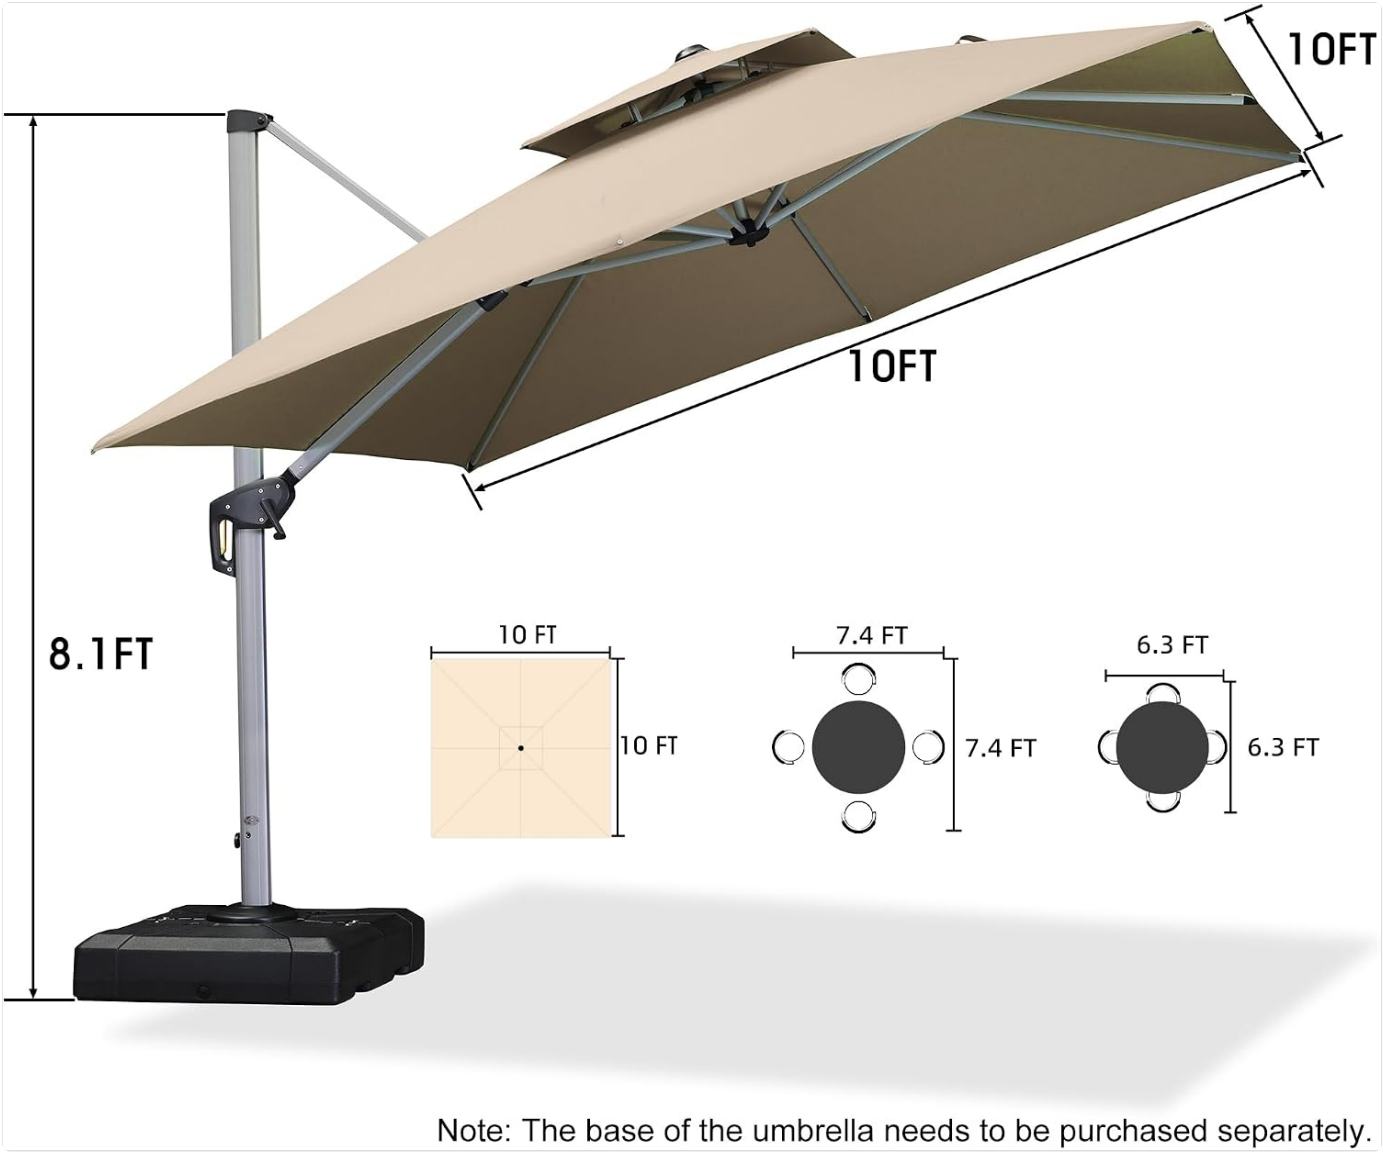

Figure 5: Diagram illustrating the dimensions and recommended coverage area for seating arrangements.

Operating Instructions

Opening and Closing the Umbrella:

To open the umbrella, turn the crank handle clockwise until the canopy is fully extended and taut. To close, turn the crank handle counter-clockwise until the canopy is completely folded. Secure the canopy with any integrated ties or straps when closed.

Adjusting Height and Angle (Tilt):

The umbrella features a unique handle design for height and angle adjustments. Squeeze the tilt adjustment handle and slide the umbrella arm up or down the main pole to select one of the 6 available height and angle positions. Release the handle to lock it into place.

360-Degree Rotation:

To rotate the umbrella, locate the 360-degree rotation pedal at the base of the main pole. Press the pedal down to unlock the rotation mechanism, then gently turn the umbrella to your desired position. Release the pedal to lock the umbrella in place.

Care and Maintenance

Canopy Cleaning:

The 240/gsm yarn-dyed polyester fabric is UV resistant, water-repellent, and colorfast. To clean, gently brush off loose dirt. Spot clean with mild soap and lukewarm water. Rinse thoroughly and allow to air dry completely before closing or storing.

Frame and Ribs:

The all-aluminum pole and heavy-duty ribs are anti-oxidation spray painted for long-lasting performance. Periodically wipe down the frame with a damp cloth to remove dirt and debris. Inspect all joints and fasteners for tightness and wear. Tighten any loose bolts as needed.

Storage:

For prolonged periods of non-use or during off-season, it is recommended to close the umbrella and secure it with a protective cover (not included). Store in a dry, sheltered area to extend its lifespan. Ensure the canopy is completely dry before covering or storing to prevent mold and mildew.

Troubleshooting

Umbrella is unstable or tips over:

- Ensure the base is adequately weighted with sand or water as per its capacity.
- Verify the umbrella pole is securely fastened to the base.
- Close the umbrella immediately in windy conditions.

Crank mechanism is stiff or difficult to operate:

- Check for any obstructions in the mechanism or canopy.
- Apply a silicone-based lubricant to moving parts if necessary.

Canopy fabric appears faded or dirty:

- Clean the canopy as per the maintenance instructions.
- While the fabric is fade-resistant, prolonged exposure to intense sunlight over many years can cause some natural fading.

Product Specifications

Brand	PURPLE LEAF
Model Number	ZYLRS10-KK
Product Dimensions	120 x 120 x 104.4 inches (10' x 10' x 8.7')
Item Weight	63.8 pounds
Canopy Shape	Square
Canopy Material	240/gsm Yarn-Dyed Polyester Fabric
Frame Material	Alloy Steel, Aluminum
Special Features	UV Resistant, Water-Repellent, Windproof, Waterproof, Vented, Fade Resistant, Heavy Duty Fabric

Warranty and Support

For warranty information or product support, please refer to the warranty card included with your purchase or contact PURPLE LEAF customer service directly. Details regarding returns and customer support can often be found on the retailer's website where the product was purchased.
PURPLE LEAF is committed to providing high-quality products and excellent customer service. If you encounter any issues or have questions not covered in this manual, please reach out to their support team for assistance.

Ask a question about this manual

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
