Bell+Howell 9959

Bell+Howell 7 LED Color Changing Humidifier with Aroma Diffuser 3.8L User Manual

Model: 9959

1. INTRODUCTION

Thank you for choosing the Bell+Howell 7 LED Color Changing Humidifier with Aroma Diffuser. This ultrasonic cool mist humidifier is designed to enhance your indoor environment by adding moisture to the air, providing a gentle night light, and allowing for aroma diffusion. Please read this manual thoroughly before use to ensure proper operation and maintenance.

2. IMPORTANT SAFETY INSTRUCTIONS

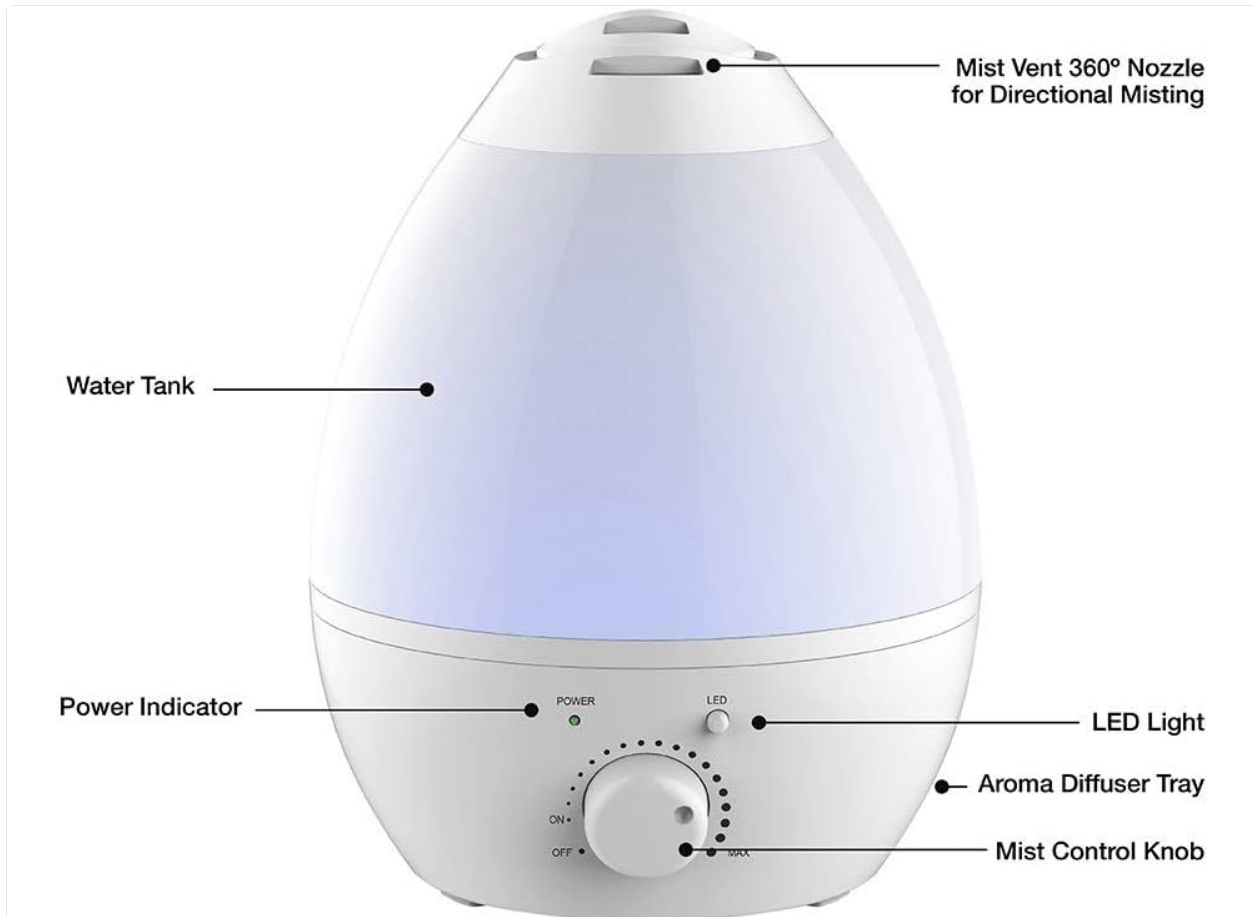

To reduce the risk of electric shock, injury, or fire, always follow these basic safety precautions:

- Read all instructions before operating the humidifier.
- Always place the humidifier on a firm, flat, waterproof surface at least 12 inches (30 cm) away from walls and appliances.
- Do not place the humidifier on carpet, near heat sources, or in direct sunlight.
- Unplug the humidifier from the power outlet before filling, cleaning, or moving it.
- Do not immerse the base unit in water or other liquids.
- Keep the humidifier out of reach of children and pets.
- Use only clean, cool tap water. Distilled or demineralized water is recommended to prevent mineral buildup and white dust.
- Do not add essential oils directly into the water tank. Use the designated aroma diffuser tray.

- Do not block the mist outlet.
- If the humidifier is damaged, do not operate it. Contact customer support.
- The humidifier features an automatic shut-off when the water level is low, but it is still important to monitor water levels.

3. PRODUCT COMPONENTS

Familiarize yourself with the parts of your Bell+Howell humidifier:

COLOR CHANGING, ULTRASONIC, HUMIDIFIER.

**CAN BE PLACED ON THE FLOOR / DOES NOT LEAVE FLOOR WET
AUTOMATIC SHUT-OFF / TANK INCLUDED / FILTER INCLUDED.**

Image 3: A diagram labeling the key components of the humidifier, including the Mist Vent 360° Nozzle, Water Tank, Power Indicator, LED Light, Aroma Diffuser Tray, and Mist Control Knob.

1. **Mist Vent 360° Nozzle:** Rotates to direct mist.
2. **Water Tank:** Holds up to 3.8 liters of water.
3. **Power Indicator:** Illuminates when the unit is on.
4. **LED Light:** Provides 7 color-changing illumination.
5. **Aroma Diffuser Tray:** For adding essential oils.
6. **Mist Control Knob:** Adjusts mist output from OFF to MAX.

4. SETUP INSTRUCTIONS

Follow these steps to set up your humidifier for first use:

1. **Unpack:** Carefully remove the humidifier from its packaging. Retain packaging for future storage or transport.
2. **Placement:** Place the humidifier on a flat, stable, and waterproof surface. Ensure it is at least 12 inches (30 cm) away from walls, furniture, and electronic devices.
3. **Fill Water Tank:**
 - Remove the water tank from the base.
 - Unscrew the tank cap at the bottom of the water tank.
 - Fill the tank with clean, cool tap water. Distilled or demineralized water is recommended to minimize mineral buildup. Do not fill with hot water.
 - Securely screw the tank cap back on.
 - Place the filled water tank back onto the base, ensuring it is seated correctly.
4. **Connect Power:** Plug the power cord into a standard electrical outlet. The power indicator light will illuminate.

5. OPERATING INSTRUCTIONS

Once set up, operating your humidifier is straightforward:

5.1. Power On/Off and Mist Control

- To turn the humidifier **ON**, rotate the Mist Control Knob clockwise from the "OFF" position.
- Continue rotating the knob clockwise to **adjust the mist output** from minimum to maximum.
- To turn the humidifier **OFF**, rotate the Mist Control Knob counter-clockwise until it clicks into the "OFF" position.

5.2. LED Color Changing Light

The humidifier features a built-in 7-color LED light that automatically cycles through colors when the unit is operating. This provides a gentle ambient light.

BUILT-IN 7 COLOR CHANGING LED LIGHTS.

provides a gentle night light

Image 4: Multiple Bell+Howell humidifiers displaying the range of 7 color-changing LED lights, providing a visual of the ambient lighting feature.

Note: The LED light cannot be turned off independently while the humidifier is in operation. It will remain on as long as the unit is producing mist.

5.3. Aroma Diffuser Function

To use the aroma diffuser:

- Locate the aroma diffuser tray on the side of the base unit.
- Pull out the tray.
- Add a few drops of your favorite essential oil onto the aroma pad inside the tray. Do not overfill.
- Slide the tray back into the unit.
- The aroma will diffuse with the mist.
- To change scents, replace the aroma pad or clean it thoroughly.

Enjoy your favorite oil and water based aroma

The aroma diffuser tray is compatible with essential oils, use your favorite oils such as lavender, eucalyptus, lemongrass, orange, peppermint, tea tree.

6. CARE AND MAINTENANCE

Regular cleaning is essential for optimal performance and hygiene. Always unplug the unit before cleaning.

6.1. Daily Maintenance

- Empty the water tank and base reservoir daily.
- Rinse the water tank and base reservoir with fresh water.
- Wipe the exterior of the unit with a soft, damp cloth.

6.2. Weekly Cleaning (Mineral Buildup Removal)

Mineral deposits (white dust) can accumulate on the ultrasonic disc and in the water tank. Clean weekly to ensure efficient operation.

1. **Unplug** the humidifier.
2. Remove the water tank and empty any remaining water.
3. Pour 1 cup (250ml) of undiluted white vinegar into the water tank and into the base reservoir, specifically over the ultrasonic disc.
4. Let it soak for 20-30 minutes.
5. Use a soft brush (not metal) to gently clean the ultrasonic disc and the inside of the tank.
6. Rinse the water tank and base reservoir thoroughly with clean water until the smell of vinegar is gone.
7. Wipe all surfaces dry.

6.3. Aroma Pad Maintenance

- Remove the aroma pad from the tray.
- If reusing the same scent, simply add more essential oil.
- To change scents or clean, hand wash the pad with mild soap and water, rinse thoroughly, and let it air dry completely before reuse. Replace pads when they become stiff or discolored.

6.4. Storage

When storing the humidifier, ensure all parts are clean and dry. Store in a cool, dry place.

7. TROUBLESHOOTING GUIDE

Before contacting support, please refer to the following common issues and solutions:

Problem	Possible Cause	Solution
No mist or very little mist	Low water level Mineral buildup on ultrasonic disc Unit not plugged in or power off	Refill water tank Clean the ultrasonic disc as per maintenance instructions Ensure power cord is securely plugged in and mist control knob is turned ON
White dust around humidifier	Hard water used	Use distilled or demineralized water. Clean unit regularly.
Unusual odor	New unit odor Dirty water or tank	Run for a few hours with fresh water Empty and clean the water tank and base thoroughly
Water leaking from unit	Water tank cap not secured Water tank not seated correctly	Ensure tank cap is tightly screwed on Remove and re-seat the water tank firmly onto the base
LED light does not turn off	This model does not have an independent LED light control.	The LED light is designed to operate whenever the humidifier is on. It cannot be turned off separately.
