Parlux 3800

Parlux 3800 Ceramic Plus Ionic Hair Dryer User Manual

Model: 3800 | Manufacturer Part Number: 165RED

Important Safety Information

Please read all safety instructions carefully before using the Parlux 3800 Hair Dryer. Failure to follow these instructions may result in electric shock, fire, or personal injury.

- **Keep out of reach of children:** This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- **Do not use near water:** Do not use this appliance near bathtubs, showers, basins or other vessels containing water. Never immerse the appliance in water or any other liquid.
- **Be cautious of overheating:** If the appliance overheats, it will automatically shut off. Unplug it and allow it to cool down for a few minutes before using it again. Ensure the air inlet and outlet grilles are clear of obstructions.
- **Do not use while bathing:** Never use the hair dryer while in a bath or shower.
- Always unplug the appliance immediately after use.
- Do not operate any appliance with a damaged cord or plug, or if the appliance malfunctions or has been dropped or damaged in any manner.

Product Overview

The Parlux 3800 Ceramic Plus Ionic Eco Friendly Hair Dryer is designed for professional and home use, offering powerful drying with advanced hair care technology. Its ceramic and ionic features help to reduce frizz and static, leaving hair smoother and shinier.

Key Features:

- **Ceramic Technology:** Distributes heat evenly, protecting hair from damage.
- **Ionic Technology:** Emits negative ions to break down water molecules, reducing drying time and frizz.
- **Eco-Friendly Design:** Engineered for energy efficiency and reduced environmental impact.
- **Powerful Motor:** Provides strong airflow for fast drying.
- **Multiple Settings:** Offers various heat and speed combinations for versatile styling.

Setup

1. **Unboxing:** Carefully remove the hair dryer and all accessories from the packaging. Retain packaging for future storage or transport.
2. **Inspect for Damage:** Before first use, inspect the hair dryer and its power cord for any signs of damage. Do not use if damaged.
3. **Power Connection:** Ensure your electrical outlet voltage matches the voltage specified on the hair dryer (typically 110-120V for North America). Plug the hair dryer into a standard electrical outlet.
4. **Attach Nozzles (Optional):** If desired, attach one of the included concentrator nozzles to the front of the hair dryer by aligning it with the barrel and pushing it firmly into place.

Operating Instructions

The Parlux 3800 features multiple heat and speed settings for customized drying and styling.

1. **Power On/Off:** Locate the main power switch on the handle. Slide it to the 'ON' position to start the airflow. Slide it to 'OFF' to turn off the appliance.
2. **Adjusting Speed:** The hair dryer typically has two speed settings. Use the speed switch to select between low (I) and high (II) airflow.
3. **Adjusting Heat:** The hair dryer offers multiple heat settings (e.g., cool, warm, hot). Use the heat switch to select your desired temperature.
    - **Cool Shot Button:** Press and hold the cool shot button for a burst of cool air to set your style.
4. **Drying Technique:**
    - For best results, towel-dry hair to remove excess moisture before using the dryer.
    - Divide hair into sections.
    - Direct the airflow from roots to ends, moving the dryer continuously to prevent heat concentration in one area.
    - Use a brush to guide hair and create desired styles.

Maintenance

Regular maintenance ensures optimal performance and extends the life of your Parlux 3800 Hair Dryer.

1. **Cleaning the Air Filter:**
    - Ensure the hair dryer is unplugged and completely cool.
    - Twist or pull off the rear filter cover (refer to product diagram if available).
    - Remove any accumulated dust, lint, or hair from the filter using a soft brush or cloth.
    - Replace the filter cover securely. Clean the filter regularly, especially if you notice reduced airflow.
2. **Cleaning the Exterior:** Wipe the exterior of the hair dryer with a soft, damp cloth. Do not use abrasive cleaners or solvents.
3. **Storage:** When not in use, store the hair dryer in a cool, dry place. Do not wrap the power cord tightly around the appliance, as this can damage the cord.

Troubleshooting

If you encounter issues with your Parlux 3800 Hair Dryer, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Hair dryer does not turn on.	No power supply; damaged cord/plug; internal fault.	Check if the dryer is properly plugged into a working outlet. Inspect the cord and plug for damage. If damaged, do not use and contact customer support.
Low airflow or weak drying.	Blocked air inlet filter; motor obstruction.	Unplug the dryer and clean the rear air filter as described in the Maintenance section. Ensure no hair or debris is blocking the air intake.
Hair dryer overheats and shuts off.	Blocked air vents; prolonged use; internal thermal cut-out activated.	Unplug the dryer and allow it to cool down for at least 10-15 minutes. Clean the air filter. Ensure air vents are not blocked during use.
Unusual noise or smell.	Internal component issue; foreign object inside.	Immediately unplug the dryer. Do not use. Contact customer support for assistance.

Specifications

Feature	Detail
Model	Parlux 3800
