### 4. OPERATING INSTRUCTIONS

---

The ScanSnap iX500 is designed for simple, one-button scanning.

#### 4.1 Loading Documents

1. Open the top cover and extend the paper output tray.
2. Adjust the paper guides to match the width of your documents.
3. Place documents face-down with the top edge facing into the scanner. Ensure documents are neatly stacked and within the paper guides. The Automatic Document Feeder (ADF) can hold up to 50 sheets.

Figure 4.1: Documents Loaded in Scanner

This image illustrates the FUJITSU ScanSnap iX500 Document Scanner with several documents loaded into its Automatic Document Feeder, ready for scanning.

## 4.2 Performing a Scan

1. Ensure the scanner is powered on and connected to your computer (via USB or Wi-Fi).
2. Load your documents into the ADF as described above.
3. Press the blue 'Scan' button on the front of the scanner.
4. The ScanSnap Manager software will launch (if not already running) and begin the scanning process.
5. After scanning, the software will display options for saving, editing, or sending your scanned documents.

### 4.3 Wireless Scanning

The ScanSnap iX500 supports wireless scanning to Mac, PC, iOS, or Android devices. Ensure the scanner is connected to your Wi-Fi network and the ScanSnap Connect Application is installed on your mobile device or ScanSnap Manager is configured for wireless on your computer.

## 5. MAINTENANCE

---

Regular maintenance ensures optimal performance and longevity of your scanner.

### 5.1 Cleaning the Scanner

- **Exterior:** Wipe the exterior with a soft, dry, lint-free cloth. Do not use abrasive cleaners or solvents.
- **Glass and Rollers:** Periodically clean the glass scanning surface and the feed rollers using a soft cloth lightly dampened with isopropyl alcohol or a specialized scanner cleaning solution. Refer to the detailed PDF manual for specific instructions on accessing internal components.

### 5.2 Consumables

The feed rollers and brake rollers are consumable parts that may need replacement after extensive use. Consult the full user guide for replacement procedures and recommended replacement intervals.

## 6. TROUBLESHOOTING

---

This section addresses common issues you might encounter.

- **Scanner Not Responding:**
  - Check power connections.
  - Verify USB cable connection or Wi-Fi status.
  - Restart the scanner and your computer.
- **Paper Jams:**
  - Open the scanner covers and carefully remove any jammed paper.
  - Ensure documents are loaded correctly and paper guides are adjusted.
  - Clean the feed rollers if they appear dirty or worn.
- **Poor Scan Quality:**
  - Clean the glass scanning surface and rollers.

- Adjust scan settings (e.g., resolution, color mode) in the ScanSnap Manager software.
- Ensure documents are free of wrinkles or tears.

For more detailed troubleshooting, refer to the comprehensive user guide or the ScanSnap support website.
