## LOZ 9318

# LOZ 9318 Tiger Building Blocks Instruction Manual

MODEL: 9318

## 1. Introduction

Welcome to your LOZ 9318 Tiger Building Blocks set. This manual provides detailed instructions for assembling, operating, and maintaining your new building block model. Please read through these instructions carefully before beginning assembly to ensure a smooth and enjoyable building experience.

## 2. Safety Information

- **Warning: Choking Hazard - Small Parts.** This product contains small parts and is not suitable for children under 3 years of age.
- Adult supervision is recommended during assembly and play, especially for younger users.
- Keep all building blocks and packaging materials away from heat sources and open flames.
- Do not put blocks in mouth or ingest.

## 3. Package Contents

Please verify that all components are present in your package:

- Approximately 250 x LOZ Micro Building Blocks (various shapes and colors)
- 1 x Instruction Booklet (this manual)
- 1 x Block Separator Tool (may be included in some sets)

If any parts are missing or damaged, please refer to the 'Warranty and Support' section for assistance.

## 4. Setup (Assembly Instructions)

Follow these steps to assemble your LOZ 9318 Tiger Building Blocks model:

### Step 1: Unpack and Organize

Carefully open the packaging and lay out all the block bags. It is highly recommended to sort the blocks by color and shape into separate piles or containers. This will significantly speed up the assembly process and prevent frustration.

## Step 2: Follow the Illustrated Steps

Refer to the step-by-step illustrations provided in the separate instruction sheet or within this manual. Each step will show which blocks to use and where to place them. Begin by identifying the base pieces and gradually build upwards, following the sequence shown.

## Step 3: Building the Tiger Model

- Pay close attention to the color and orientation of each block as depicted in the diagrams.
- Ensure each block is firmly connected to the previous one. Micro blocks require precise alignment and gentle, even pressure to snap into place.
- The model is typically built layer by layer. Double-check each layer before proceeding to the next.
- If a block is difficult to connect, ensure there are no obstructions and try adjusting its angle. Avoid excessive force, which can damage the blocks.
- If you make a mistake, carefully use the block separator tool (if provided) to detach pieces. Insert the thin edge of the tool between the blocks and gently pry them apart.

## 5. Operating (Using the Model)

Once fully assembled, your LOZ 9318 Tiger model can be used for display as a decorative item or for imaginative play. Handle the model with care to prevent accidental disassembly. It is designed to be a stable structure when correctly assembled.

## 6. Maintenance

### Cleaning

- To clean the blocks or the assembled model, gently wipe them with a dry, soft cloth to remove dust.
- For stubborn dirt, use a slightly damp cloth with a small amount of mild soap. Immediately wipe dry with a clean, soft cloth.
- Do not immerse blocks in water or use harsh chemical cleaners, as this may damage the plastic or colors.

### Storage

Store the assembled model or any loose blocks in a cool, dry place away from direct sunlight. Prolonged exposure to sunlight can cause discoloration or degradation of the plastic.

## 7. Troubleshooting

- **Missing Pieces:** Double-check all packaging materials and the surrounding area. Small micro blocks can be easily overlooked. If pieces are genuinely missing after a thorough search, please contact customer support as per the 'Warranty and Support' section.
- **Difficulty Connecting Blocks:** Ensure blocks are correctly aligned before applying pressure. Micro blocks require precise positioning. If a block still won't connect, check for any debris or manufacturing imperfections.
- **Model Falls Apart:** This usually indicates that some connections are not fully secured or blocks are incorrectly placed. Re-examine the assembly steps and ensure all blocks are firmly pressed together.

## 8. Specifications

Feature	Detail
Model Number	9318
Manufacturer	Carmel RC -Toys
Product Dimensions (L x W x H)	7.62 x 5.08 x 5.08 cm
Item Weight	22.68 g
Material	ABS Plastic
Number of Pieces	250

## 9. Warranty and Support

For product support, inquiries about missing parts, or warranty information, please contact the manufacturer, Carmel RC -Toys, directly through their official customer service channels. Please retain your purchase receipt as proof of purchase, as it may be required for warranty claims or support requests.
