Ninja CF112

Ninja CF112 Single-Serve Coffee Maker Bar Instruction Manual

Model: CF112 | Brand: Ninja

INTRODUCTION

The Ninja CF112 Single-Serve Coffee Maker Bar is designed to provide a versatile coffee brewing experience. This system offers various brew types and sizes, including options for hot and iced coffee, along with an integrated milk frother. It utilizes Auto-iQ One-Touch Intelligence technology to optimize water delivery based on your selected brew size and style. This manual provides essential information for the safe and effective use of your coffee maker.

IMPORTANT SAFEGUARDS

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and/or injury to persons. Read all instructions before using your Ninja Coffee Maker. Keep this manual for future reference.

- Do not immerse the appliance, power cord, or plug in water or other liquids.
- Ensure the appliance is placed on a stable, level surface away from the edge of the countertop.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- Close supervision is necessary when any appliance is used by or near children.
- Do not touch hot surfaces. Use handles or knobs.

WHAT'S IN THE BOX

Your Ninja CF112 Coffee Maker Bar includes the following components:

- Ninja XL Hot & Cold Multi-Serve Tumbler

- Built-In Frother
- 40-Recipe Book
- Ninja Smart Scoop
- Permanent Reusable Filter
- Removable Water Reservoir

SETUP

Before first use, it is recommended to clean all removable parts and run a cleaning cycle with water only.

1. **Unpack:** Carefully remove all components from the packaging.
2. **Clean Removable Parts:** Wash the removable water reservoir, permanent reusable filter, Ninja Smart Scoop, and XL Multi-Serve Tumbler in warm, soapy water. Rinse thoroughly and dry.
3. **Fill Water Reservoir:** Fill the removable water reservoir with fresh, filtered water up to the 'FULL' line. Place it securely back on the unit.
4. **Run Cleaning Cycle:** Place the permanent reusable filter in the brew basket. Select the 'CLEAN' function and initiate a brew cycle without coffee grounds. Discard the water after the cycle. Repeat if necessary.

OPERATION

The Ninja CF112 offers intuitive controls for a customized brewing experience.

Brew Styles

- **Classic Brew:** Provides a smooth, balanced flavor.
- **Rich Brew:** Delivers a more intense flavor, ideal for milk, creamers, and flavorings.
- **Over Ice Brew:** Brews concentrated coffee directly over ice for a refreshing iced coffee that is not watered down.
- **Specialty Brew:** A super-rich concentrate for creating coffeehouse-style drinks.
- **Cafe Forte:** A full-bodied cup that amplifies your coffee's unique nuances.

Using the Built-In Milk Frother

The integrated frother allows you to create silky foam for your beverages.

1. **Prepare Milk:** Pour cold or hot milk into your mug.
2. **Position Frother:** Swing the frother arm out and immerse the whisk into the milk.
3. **Froth:** Press and hold the frother button until desired foam consistency is achieved.
4. **Clean:** After use, remove the whisk and rinse it under warm water.

CLEANING AND MAINTENANCE

Regular cleaning ensures optimal performance and longevity of your coffee maker.

- **Daily Cleaning:** Wash the removable water reservoir, permanent reusable filter, Ninja Smart Scoop, and XL Multi-Serve Tumbler after each use. These parts are dishwasher safe.
- **Descaling:** The 'CLEAN' indicator light will illuminate when descaling is required. Use a descaling solution or a vinegar solution as per the instructions in the full product manual.
- **Exterior Cleaning:** Wipe the exterior of the appliance with a soft, damp cloth.

TROUBLESHOOTING

If you encounter issues with your Ninja Coffee Maker, refer to the following common solutions:

Problem	Possible Cause	Solution
Coffee not brewing	Water reservoir empty; brew basket not properly inserted.	Fill water reservoir; ensure brew basket is securely in place.
Weak coffee	Insufficient coffee grounds; incorrect brew style selected.	Increase coffee grounds; select 'Rich' or 'Specialty' brew.

Problem	Possible Cause	Solution
'CLEAN' light illuminated	Appliance needs descaling.	Run a descaling cycle as per instructions.
