two vertical TV brackets attached. The brackets have multiple holes for VESA compatibility and release strings hanging below.

5.1. Prepare the TV

1. Carefully place your TV face-down on a soft, clean surface to prevent screen damage.
2. Identify the VESA mounting holes on the back of your TV.
3. Select the appropriate screws, washers, and spacers from the hardware kit that fit your TV's mounting holes.
4. Attach the two vertical TV brackets to the back of your TV using the selected hardware. Ensure the brackets are centered and securely fastened. Do not overtighten.

5.2. Prepare the Wall

1. Determine the desired height for your TV. Use the mounting template to mark the drill holes on the wall.
2. **For Wood Stud Walls:** Use a stud finder to locate the center of two adjacent wood studs (16 or 24 inches apart). Mark the drill points. Drill pilot holes using an appropriate drill bit (refer to manual for size).
3. **For Concrete/Brick Walls:** Mark the drill points. Drill holes using a masonry drill bit (refer to manual for size). Insert the provided wall anchors into the drilled holes.
4. Position the wall plate against the wall, aligning the holes. Use the integrated bubble level to ensure it is perfectly horizontal.
5. Secure the wall plate to the wall using the lag bolts and washers. Tighten firmly, but do not overtighten.

5.3. Mount the TV

1. With assistance, carefully lift the TV and hook the TV brackets onto the top edge of the wall plate.
2. Gently lower the TV until the brackets engage with the wall plate. You should hear a click as the automatic safety lock engages.
3. Pull the release strings downwards to ensure the safety lock is engaged and the TV is securely attached.

7. MAINTENANCE

- **Cleaning:** Clean the mount with a soft, dry cloth. Avoid abrasive cleaners or solvents.
- **Periodic Inspection:** Periodically check all screws and bolts to ensure they remain tight and secure. Retighten if necessary.
- **Damage:** If any part of the mount becomes damaged, discontinue use and contact customer support.

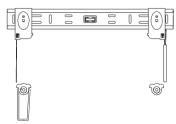

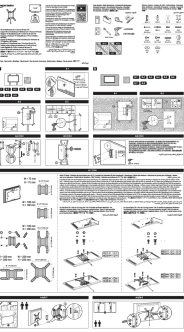

8. TROUBLESHOOTING

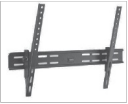

- **TV Not Level:** Ensure the wall plate was installed level using the integrated bubble level. If not, minor adjustments can sometimes be made by slightly loosening and re-tightening the wall plate screws, or by adjusting the TV brackets if your TV allows.
- **Difficulty Tilting:** Check that no cables are obstructing the tilting mechanism. Ensure the TV is within the specified weight and size limits.
- **TV Not Secure:** Verify that the TV brackets are properly hooked onto the wall plate and the automatic safety locks are engaged. The release strings should hang freely.
- **Missing Parts:** If any parts were missing from the package, do not proceed with installation. Contact Amazon Basics customer support for assistance.

9. WARRANTY AND SUPPORT
