ZINUS EFPB-F

ZINUS Curtis Upholstered Platform Bed Frame

USER MANUAL

Product Overview

The ZINUS Curtis Upholstered Platform Bed Frame offers a sleek and simple foundation for your mattress, eliminating the need for a traditional box spring. It features durable fabric upholstery and robust wooden slat support, designed to complement various bedroom aesthetics while providing reliable support for your mattress.

Key Features:

- **Woven Fabric Upholstery:** Provides a soft and polished aesthetic.
- **Steel Framework:** Ensures durability and longevity.
- **Wood Slat Support:** Eliminates the need for a box spring and supports various mattress types (latex, memory foam, spring).
- **Easy Assembly:** All parts, tools, and instructions are conveniently packed within the frame for quick setup.
- **High Weight Capacity:** Supports up to 700 lbs.

Safety Information

To ensure safe and proper use of your ZINUS Curtis Upholstered Platform Bed Frame, please adhere to the following guidelines:

- **Weight Limit:** Do not exceed the maximum weight limit of 700 lbs (approximately 317 kg). This includes the weight of the mattress and occupants.
- **Assembly:** Always follow the assembly instructions carefully. Incorrect assembly can compromise the stability and safety of the bed frame.
- **Movement:** When moving the bed frame, lift it rather than dragging it to prevent damage to the legs and frame structure.
- **Regular Checks:** Periodically check all bolts and connections to ensure they remain tight. Tighten as necessary.

Setup and Assembly

The ZINUS Curtis Platform Bed Frame is designed for easy, two-person assembly, typically taking less than an hour. All necessary parts, tools, and instructions are conveniently located within the zippered compartment at the back of the headboard or frame side rail.

Image: A hand opening the zippered compartment on the bed frame, where all assembly parts and tools are stored.

Parts Identification:

Before beginning assembly, unpack all components and identify them using the provided parts list in your physical instruction manual. Key components include:

- Upholstered Side Rails (2)
- Upholstered End Rails (2)
- Center Support Bar (1)
- Wooden Slats (multiple, often connected)
- Support Legs (4-6, depending on size)
- Assembly Hardware (bolts, washers, Allen wrench, ratchet tool)

Image: All bed frame components laid out, showing the upholstered rails, wooden slats, center support, and the small box containing hardware and tools.

Assembly Steps (General Guide):

1. **Attach Legs:** Twist the support legs onto the designated points on the upholstered rails.
2. **Connect Rails:** Connect the upholstered side and end rails using the provided bolts. Ensure all connections are secure but do not fully tighten until all parts are aligned.
3. **Install Center Support:** Attach the steel center support bar to the frame, typically by screwing it into place.
4. **Place Slats:** Unroll or place the wooden slats across the frame. The slats often have Velcro strips that adhere to the frame to prevent shifting. Ensure the "Please peel off the upper strip" labels are removed if present.
5. **Final Tightening:** Once all components are in place and aligned, fully tighten all bolts.

Image: Detail of the wooden slats, showing the adhesive strips that secure them to the frame, ensuring stability for the mattress.

Operating Instructions

Your ZINUS Curtis Platform Bed Frame is designed to provide stable support for various mattress types without the need for a box spring. Simply place your mattress directly onto the wooden slats.

Mattress Compatibility:

This frame is compatible with latex, memory foam, and traditional spring mattresses. The durable wood slats are spaced to provide optimal support and extend the life of your mattress.

Maintenance

Proper maintenance will help preserve the appearance and structural integrity of your bed frame for years to come.

Cleaning Instructions:

- **Fabric Upholstery:** Wipe the upholstered surfaces with a dry cloth to remove dust and light debris. For spills, blot immediately with a clean, dry cloth. Avoid using harsh chemical cleaners, as they may damage the fabric.
- **Wood Slats:** Periodically inspect the wooden slats for any signs of wear or damage. Dust with a dry cloth.

- **Metal Components:** Wipe metal parts with a dry cloth.

General Care:

- Avoid exposing the bed frame to direct sunlight or extreme temperatures, which can cause fading or material degradation.
- Do not use abrasive materials or sharp objects on the frame.

Troubleshooting

If you encounter any issues with your ZINUS Curtis Platform Bed Frame, refer to the common problems and solutions below.

Problem	Possible Cause	Solution
Bed frame creaks or wobbles.	Loose bolts or connections.	Inspect all bolts and connections. Tighten any loose hardware using the provided Allen wrench or ratchet tool.
Slats shift or move.	Velcro strips not properly adhered or worn.	Ensure the Velcro strips on the slats are fully pressed onto the corresponding strips on the frame. If worn, consider replacing the Velcro or adding non-slip pads.

Problem	Possible Cause	Solution
Legs appear unstable or damaged.	Improper installation or excessive force during movement.	Ensure legs are fully twisted into place. When moving the bed, always lift it rather than dragging to prevent stress on the legs. If a leg is damaged, contact customer support for replacement options.
Mattress slides on the frame.	Lack of friction between mattress and slats/frame.	Some models include double-sided tape to secure the mattress. Alternatively, place a non-slip mattress pad between the mattress and the slats.

Specifications

Attribute	Detail
Brand	ZINUS
Model Number	EFPB-F
Size	Full
Product Dimensions	75.5"L x 54"W x 13.4"H
Color	Grey
Finish Type	Steel
Included Components	Slat
Compatible Mattress Size	Full
Product Care Instructions	Wipe with Dry Cloth
Assembly Required	Yes
Ground To Item Distance	6.3 Inches
Item Weight	61.9 pounds
UPC	841550094428
