Zinus EFPB-Q

ZINUS Curtis Upholstered Platform Bed Frame User Manual

Model: EFPB-Q

Brand: Zinus

Product Overview

The ZINUS Curtis Upholstered Platform Bed Frame offers a sleek and simple foundation for your mattress, eliminating the need for a traditional box spring. It features fabric upholstery and durable wooden slats with a steel center support bar, designed for long-lasting support. This bed frame is shipped compactly in one box with all necessary parts, tools, and instructions for straightforward assembly.

Assembly Instructions

All parts, tools, and instructions are conveniently located in the zippered compartment of the frame. Assembly typically requires two people and can be completed in under an hour.

1. Unpack all components from the box. Ensure all parts listed in the instruction manual are present.
2. Assemble the main frame by connecting the upholstered side rails and end pieces. The pre-installed bolts should be loosened, components slid into place, and then tightened securely.
3. Attach the support legs to the frame.
4. Position the wooden slats across the frame. The slats are designed with a velcro lining to securely attach to the frame, preventing movement. Some slats may also have non-slip tape to further secure the mattress.
5. Ensure all connections are tight and the frame is stable before placing the mattress.

Usage Guidelines

This platform bed frame is designed to support your mattress directly, eliminating the need for a box spring. It is compatible with latex, memory foam, or spring mattresses.

- **Weight Capacity:** The Queen size frame supports a maximum weight capacity of 700 lbs. Always adhere to the specified weight limits to ensure stability and prevent damage.
- **Mattress Placement:** Place your mattress directly onto the wooden slats. The durable wood slats are spaced to provide optimal support and extend the life of your mattress.
- **Stability:** Ensure the bed frame is placed on a flat, stable surface. Avoid dragging the bed frame when moving it; lift it with assistance to prevent damage to the legs or frame structure.

Maintenance

To maintain the quality and appearance of your ZINUS Curtis Upholstered Platform Bed Frame, follow these simple care instructions:

- **Cleaning:** Wipe the upholstered surfaces with a dry cloth. Avoid using harsh chemicals or abrasive cleaners, as these may damage the fabric.
- **Regular Checks:** Periodically check all bolts and connections to ensure they remain tight. Re-tighten if necessary to maintain the frame's stability.

Troubleshooting

- **Squeaking Noises:** If the bed frame begins to squeak, check all assembly points and ensure all bolts are securely tightened. Loose connections are a common cause of noise.
- **Mattress Sliding:** The wooden slats are designed with velcro and some may have non-slip tape. Ensure these features are properly engaged. If sliding persists, consider adding additional non-slip padding between the mattress and the slats.
- **Leg Stability:** The legs are designed for durability. If a leg appears unstable or damaged, inspect its connection point. Avoid dragging the bed frame, as this can put undue stress on the legs.

Specifications

Feature	Detail
Size	Queen
Product Dimensions	80.5"L x 60"W x 13.4"H
Special Feature	No Box Spring Needed, Durable
Color	Grey
