Bose Lifestyle 650 Home Entertainment System User Manual

Model: 761683-1110 | Brand: Bose

1. INTRODUCTION AND OVERVIEW

The Bose Lifestyle 650 Home Entertainment System delivers rich, immersive sound for movies, music, and TV. This advanced system integrates seamlessly with various services and devices, providing a premium audio experience. Its design focuses on both aesthetic appeal and acoustic performance, featuring sleek components and technologies like ADAPTiQ audio calibration for optimized sound in any room.

The system is designed to immerse you in your music, movies, and TV, creating a full, clear sound experience regardless of your seating position. Setup is streamlined with Unify technology, guiding you through each step with onscreen messages.

2. WHAT'S IN THE BOX

Your Bose Lifestyle 650 Home Entertainment System package includes the following components:

- One Console
- Four OmniJewel side speakers
- One OmniJewel center speaker
- One Acoustimass wireless bass module
- Universal remote control
- Two wireless receivers
- One ADAPTiQ headset
- Necessary cables (6-foot IR emitter, 5-foot optical cable, 6-foot HDMI cable, 5-foot power cord, 20-foot center speaker cable, 20-foot wireless surround speaker cable, and 20-foot front speaker cables)
- Owner's guide

This video provides a detailed look at the Bose Lifestyle 650 Home Entertainment System, showcasing its design and components.

Bose Lifestyle 600 Home Entertainment System Features

Your browser does not support the video tag.

This video highlights the key features and benefits of the Bose Lifestyle 600 Home Entertainment System, which shares many similarities with the 650 model.

4. SETUP

Setting up your Bose Lifestyle 650 system is made easy with Bose's Unify technology, which provides guided onscreen messages to walk you through each step. Follow these general steps:

1. **Placement:** Position the console, center speaker, and four OmniJewel satellite speakers in your desired locations. The wireless bass module can be placed conveniently as it connects wirelessly.
2. **Connections:** Connect the wired front and center speakers to the console. The two rear speakers connect to wireless receivers, which then require AC power. Ensure all components are connected to power outlets.
3. **HDMI Connection:** Connect the console to your TV using an HDMI cable. The system supports 4K pass-through.
4. **ADAPTiQ Calibration:** Use the included ADAPTiQ headset to calibrate the system's sound to your room's specific acoustics. The Unify system will guide you through this process.
5. **Source Devices:** Connect your external devices (e.g., Blu-ray player, gaming console) to the console's HDMI inputs.

5. OPERATING THE SYSTEM

The Bose Lifestyle 650 offers multiple ways to control your entertainment experience:

- **Universal Remote Control:** Use the included universal remote with its LED display to manage your TV, sound system, and connected devices. The remote allows you to switch sources (TV, SoundTouch, Bluetooth), adjust volume, and navigate menus.
- **SoundTouch App:** Download the SoundTouch app on your smartphone or tablet to control your music, access streaming services like Amazon Music, Spotify, and Pandora, and manage system settings.
- **Voice Control (Alexa):** The system works with Alexa, allowing you to control playback and other functions using voice commands.

6. MAINTENANCE

To ensure the longevity and optimal performance of your Bose Lifestyle 650 Home Entertainment System, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the surfaces of the console, speakers, and bass module. Avoid using liquid cleaners or solvents, as they may damage the finish.
- **Ventilation:** Ensure proper ventilation around the console and bass module to prevent overheating. Do not block any ventilation openings.
- **Cable Management:** Keep cables organized and untangled to prevent damage and ensure stable connections.
- **Software Updates:** Periodically check for and install software updates for your system to ensure compatibility and access to new features.

7. TROUBLESHOOTING

If you encounter issues with your Bose Lifestyle 650 system, consider the following common troubleshooting steps:

- **No Sound:** Check all cable connections, especially HDMI and speaker wires. Ensure the correct input source is selected on the console and TV. Verify that the system is not muted and volume is adequately set.
- **Poor Sound Quality:** Rerun the ADAPTiQ audio calibration process to optimize sound for your room. Check speaker placement and ensure they are not obstructed.
- **Remote Not Responding:** Replace the batteries in the universal remote (4 AA batteries required). Ensure there are no obstructions between the remote and the console.
- **Wireless Connectivity Issues:** Ensure the wireless bass module and receivers are within range of the console and free from interference. Restart the console and wireless components.
- **HDMI/CEC Compatibility:** Some TVs may have quirks with HDMI ARC/CEC. Ensure your TV's firmware is updated and try alternative HDMI inputs if issues persist.

For persistent issues, refer to the detailed troubleshooting section in the full owner's guide or contact Bose customer support.
