

HyperX HX-HSCS-BK/NA

HyperX Cloud Stinger Gaming Headset User Manual

Model: HX-HSCS-BK/NA | Brand: HyperX

INTRODUCTION

The HyperX Cloud Stinger is a lightweight gaming headset designed for comfort and superior sound quality across multiple platforms. Its features include HyperX signature memory foam earcups, 50mm directional drivers for precise audio, and a convenient swivel-to-mute noise-cancellation microphone.

PACKAGE CONTENTS

- 1 HyperX Cloud Stinger Gaming Headset
- 1 Extension Y-cable
- User Manual (this document)

PRODUCT OVERVIEW

Figure 3: The HyperX Cloud Stinger headset with its adjustable steel slider extended, demonstrating durability and fit customization.

SETUP

Connecting to PC, Console, and Mobile Devices

The HyperX Cloud Stinger connects via a standard 3.5mm audio jack, making it compatible with a wide range of devices.

- **PC:** Connect the headset's 3.5mm plug directly into your PC's combined audio jack. If your PC has separate audio and microphone ports, use the included Extension Y-cable to split the connection.
- **PlayStation (PS4, PS5):** Plug the 3.5mm jack into the controller's headset port.
- **Xbox (Xbox One/Series X|S):** Connect the 3.5mm jack into the controller's headset port. An Xbox One Stereo Headset Adapter (sold separately) may be required for older controllers.
- **Nintendo Switch:** Plug the 3.5mm jack directly into the console's audio port.

- **Mobile Devices:** Connect the 3.5mm jack into your smartphone or tablet's audio port.

OPERATING INSTRUCTIONS

Volume Control

Adjust the audio volume using the intuitive slider located on the bottom of the right ear cup.

Figure 5: Underside view of the right earcup, highlighting the integrated volume control slider.

Microphone Usage (Swivel-to-Mute)

The noise-cancellation microphone features a convenient swivel-to-mute function. To mute the microphone, simply flip it vertically upwards against the headset. To unmute, swivel it back down to the speaking position.

Figure 6: Close-up of the microphone in its swivel-to-mute position, indicated by the mute icon on the earcup.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to wipe down the earcups and headband. For deeper cleaning, a slightly damp cloth with mild soap can be used on non-fabric surfaces, ensuring no moisture enters the drivers or electrical components.
- **Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures. Avoid placing heavy objects on the headset to prevent damage.
- **Cable Care:** Avoid sharp bends or kinks in the cable. When not in use, coil the cable loosely to prevent tangling and damage.

TROUBLESHOOTING

Issue	Possible Cause	Solution
-------	----------------	----------

Issue	Possible Cause	Solution
No audio from headset	Incorrect connection, low volume, muted device.	Ensure the 3.5mm jack is fully inserted into the device. Check the headset's volume slider and increase it. Verify device audio settings are not muted or set to a very low level. If on PC, ensure the correct audio output device is selected.
Microphone not working	Microphone muted, incorrect input device, software issues.	Swivel the microphone down to unmute it. Ensure the 3.5mm jack is fully inserted. If using the Y-cable, ensure both plugs are correctly connected. Check device audio input settings and select the HyperX Cloud Stinger microphone. Restart the application or device.
Sound distortion or static	Loose connection, interference, damaged cable.	Reseat the 3.5mm connection. Test the headset with another device to rule out device-specific issues. Avoid placing the cable near strong electromagnetic sources.

SPECIFICATIONS

Category	Specification
Headphone Driver	Dynamic, 50mm with neodymium magnets
Headphone Type	Closed back
Frequency Response	18Hz–23,000Hz
Impedance	30 ohms
Sound Pressure Level (SPL)	102 ± 3dBSPL/mW at 1kHz
Total Harmonic Distortion (THD)	≤2%
Input Power	Rated 30mW, Maximum 500mW
Weight	275 grams (9.7 ounces)
Cable Length	Headset (1.3m) + Extension Y-cable (1.7m)
Connection Type	Headset - 3.5mm plug (4 pole) + extension cable - 3.5mm stereo and mic plugs
Microphone Element	Electret condenser microphone
Microphone Polar Pattern	Uni-directional, Noise-canceling

Category	Specification
Microphone Frequency Response	50Hz–18,000Hz
Microphone Sensitivity	-40 dBV (0dB=1V/Pa, 1kHz)
