

## Politi MCV85

# Politi Unico MCV85 Total Clean & Turbo Steam Vacuum Cleaner User Manual

Model: MCV85 | Brand: Politi

## INTRODUCTION

---

The Politi Unico MCV85 Total Clean & Turbo is a versatile 3-in-1 appliance designed for comprehensive home cleaning. It combines vacuuming, steam cleaning, and drying functions to effectively clean various surfaces. This appliance features multicyclonic suction technology with a HEPA 13 filter, ensuring efficient dust and allergen retention. The integrated boiler produces steam that eliminates up to 99.99% of viruses, germs, and bacteria without the need for chemical detergents. This manual provides essential information for the safe and effective use of your Politi Unico MCV85.

## PRODUCT COMPONENTS AND ACCESSORIES

---

Your Polti Unico MCV85 comes with a comprehensive set of accessories designed for various cleaning tasks. Familiarize yourself with each component before operation.

Image: An array of Polti Unico MCV85 accessories, including the innovative multibrush, various nozzles, steam concentrators, microfibre cloths, and the mini turbo brush.

Key accessories include:

- **Innovative Multibrush:** For vacuuming and steam cleaning various floor types.
- **Mini Turbo Brush:** Specifically designed for removing pet hair and lint from upholstery and carpets.
- **Steam Concentrator:** For targeted steam cleaning in tight spaces or stubborn dirt.
- **Various Nozzles and Brushes:** For detailed cleaning of different surfaces.
- **Microfibre Cloths:** To be used with the floor brush for steam cleaning and drying.

## SETUP INSTRUCTIONS

---

Follow these steps to prepare your Polti Unico MCV85 for its first use.

1. **Unpack the Appliance:** Carefully remove all components from the packaging. Retain packaging for future storage or transport.
2. **Assemble the Handle:** Insert the telescopic handle into the designated slot on the main unit until it clicks securely into place.
3. **Fill the Water Tank:** Open the water tank cap. Fill the tank with clean tap water up to the MAX indicator. Close the cap securely. *Do not use distilled water or demineralized water as it may affect steam production.*
4. **Connect Power:** Plug the power cord into a suitable grounded electrical outlet (220V).

5. **Attach Desired Accessory:** Select the appropriate accessory for your cleaning task and attach it to the hose or extension tubes.

## OPERATING INSTRUCTIONS

---

The Polti Unico MCV85 offers three distinct cleaning programs for optimal results on different surfaces.

### General Operation

1. **Power On:** Press the ON/OFF button. The appliance will begin heating the water for steam production. Wait for the steam ready indicator light to illuminate.
2. **Select Program:** Use the program selection buttons to choose one of the three pre-set programs:
  - **Hard Floors:** Optimized steam and suction for tiles, laminate, and other hard surfaces.
  - **Bathroom:** Higher steam intensity for sanitizing bathroom fixtures and surfaces.
  - **Upholstery/Fabrics:** Gentle steam and suction for delicate fabrics.
3. **Begin Cleaning:** Activate the steam and/or vacuum functions as needed using the controls on the handle.

### Using the Innovative Multibrush

The Innovative Multibrush is designed for both vacuuming and steam cleaning floors. It features bristles for scrubbing and a squeegee for drying.

### **Steam Cleaning Upholstery and Fabrics**

For upholstery, attach the appropriate nozzle with a microfibre cloth. Select the 'Upholstery/Fabrics' program for gentle steam application.

### **Using the Mini Turbo Brush**

The Mini Turbo Brush is ideal for removing pet hair and stubborn debris from smaller textile surfaces like cushions, car seats, and pet beds.

## MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your Polti Unico MCV85.

### Emptying and Cleaning the Dust Container

1. Ensure the appliance is switched off and unplugged.
2. Remove the dust container from the main unit.
3. Empty the collected dirt into a waste bin.
4. Rinse the dust container and its internal components with clean water. Allow to air dry completely before reassembling.

### Cleaning Filters

The Polti Unico MCV85 is equipped with a HEPA 13 filter. Regular cleaning is crucial for maintaining suction power and air quality.

- Remove the HEPA filter according to the instructions in the full manual.
- Tap the filter gently to dislodge loose dust.
- If washable, rinse under cold running water until the water runs clear. Do not use detergents.
- Allow the filter to dry completely for at least 24 hours before reinserting.

### Descaling the Boiler

Depending on water hardness and frequency of use, descaling may be required to prevent mineral buildup. Refer to the full product manual for detailed descaling procedures and recommended descaling solutions.

### Storage

When not in use, store the appliance in a dry, safe place. Ensure the water tank and dust container are empty and clean. The handle can be retracted for compact storage.

## TROUBLESHOOTING

This section addresses common issues you might encounter with your Polti Unico MCV85.

Problem	Possible Cause	Solution
No steam production	Water tank empty; Boiler not heated; Clogged nozzle.	Refill water tank; Wait for 'steam ready' indicator; Clean nozzle.
Low suction power	Dust container full; Filters clogged; Hose/nozzle blocked.	Empty dust container; Clean/replace filters; Check and clear blockages.
Water leaking	Tank cap not secured; Accessory not properly attached; Excessive water in boiler.	Tighten tank cap; Reattach accessory; Consult full manual if issue persists.
Appliance not turning on	No power supply; Power cord damaged.	Check power outlet and plug; Inspect power cord for damage.
