Best Choice Products 7.5ft Premium Unlit Artificial Spruce Christmas Tree Instruction Manual

Model: SKY2887

INTRODUCTION

Thank you for choosing the Best Choice Products 7.5ft Premium Unlit Artificial Spruce Christmas Tree. This manual provides detailed instructions for assembling, operating, and maintaining your new artificial tree to ensure a beautiful display for many holiday seasons to come. Please read all instructions carefully before assembly and retain this manual for future reference.

SETUP INSTRUCTIONS

Unpacking and Component Identification

Carefully remove all components from the packaging. Verify that all parts are present:

- Tree Sections (typically 3 sections for a 7.5ft tree)
- Metal Stand
- Assembly Guide (included)

Assembly Steps

Assembly is designed to be straightforward, typically completed in three main steps:

1. **Step 1: Assemble the Metal Stand.** Unfold the metal stand completely to form a stable base. Ensure all legs are fully extended and locked into place.
2. **Step 2: Attach the Bottom Tree Section.** Insert the largest tree section (Part A, typically the bottom section) into the assembled metal stand. Secure it by tightening the screws on the stand.
3. **Step 3: Attach Remaining Tree Sections.** Proceed to stack the remaining tree sections from largest to

smallest (Part B, then Part C for the top section) onto the previous section. The sections are designed to fit securely into each other.

EASY ASSEMBLY & FLUFFING

STEP 1

Connect the base to Part A

STEP 2

Attach the remaining sections

STEP 3

Fluff tree for 30-45 mins for great shape

OPERATING INSTRUCTIONS

Fluffing the Branches for a Realistic Appearance

After assembly, the most crucial step for achieving a full and realistic look is fluffing the branches. Your 7.5ft tree features 1,346 branch tips designed to mimic an authentic pine tree. This process involves gently spreading out each individual branch and tip.

- Begin from the bottom section and work your way up.
- Gently pull apart each small branch from the main stem, fanning them out in different directions (up, down, left, right) to fill any gaps.
- For the 7.5ft tree, expect to spend approximately 45-60 minutes on fluffing to achieve the desired dense

appearance.

FULL APPEARANCE

The high-quality design of this tree's branches makes for a full shape that simulates the real thing!

1,346 Branch Tips

Decorating Your Tree

This unlit tree provides a versatile canvas for your preferred lights, garland, and ornaments. Its sturdy branches are designed to hold various decorations without sagging.

- Add your choice of string lights, wrapping them evenly around the tree from top to bottom.
- Hang ornaments, distributing them to create a balanced and festive look.
- Consider adding a tree topper and a tree skirt or collar to complete your holiday display.

MAINTENANCE

Cleaning

To clean your artificial Christmas tree, gently wipe the branches with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these may damage the PVC material.

Storage

When the holiday season concludes, disassemble your tree by reversing the assembly steps. Compress the branches as much as possible without causing damage. Store the tree sections and metal stand in their original box or a dedicated tree storage bag in a cool, dry place to protect them from dust and damage.

Hinged Branches

Metal hinges are built to last

PVC Tips

Flame-retardant and easy to fluff

Sturdy Base

A reliable metal stand for your tree

TROUBLESHOOTING

Sparse Areas After Assembly

If your tree appears sparse or has visible gaps after initial assembly, it likely requires additional fluffing. Refer to the "Fluffing the Branches" section and dedicate more time to carefully spreading out each branch tip. Ensure that branches are fanned out in all directions to create a dense, natural look.

Tree Instability

If the tree feels unstable, check that the metal stand is fully unfolded and that the screws securing the bottom tree section are tightly fastened. Ensure the tree is placed on a flat, level surface.

SPECIFICATIONS

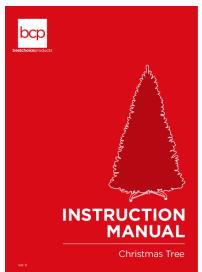

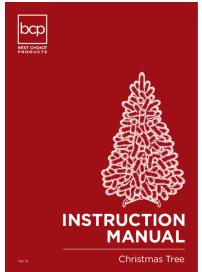

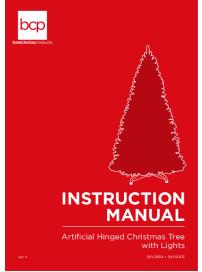

Feature	Detail
Brand	Best Choice Products
Model Number	SKY2887
Product Dimensions	52"(Dia) x 90"(H) (including stand)

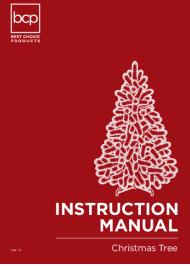

Color	Green Spruce
Material	Alloy Steel, Polyvinyl Chloride (PVC)
Item Weight	13.6 Pounds
Number of Tips	1,346
Built-in Light	No
Special Feature	Foldable, Hinged Branches
Recommended Use	Indoor
