Argus Argus Slide Projector (Type I)

Argus Slide Projector (Type I)

Model: Argus Slide Projector (Type I) | Brand: Argus
1920 x 1080 LCD, VGA, 2500 Lumen

1. PRODUCT OVERVIEW

The Argus Slide Projector (Type I) is designed for convenient and high-quality viewing of slides. Its portable and compact design makes it easy to transport and set up for an immersive viewing experience. Featuring a 1920 x 1080 LCD display and 2500 lumens brightness, it delivers clear and vibrant images.

Key Features:

- **Portable Design:** Easy to transport and set up.
- **High Definition:** 1920 x 1080 LCD display for clear visuals.
- **Brightness:** 2500 lumens for bright projections.
- **Versatile Mounting:** Tabletop mount for optimal placement.
- **Easy Control:** Intuitive button controls for simple operation.
- **Connectivity:** VGA for connecting to various devices.

2. WHAT'S IN THE BOX

Upon unboxing your Argus Slide Projector (Type I), please ensure all the following items are present:

- Argus Slide Projector (Type I) Unit
- Power Cord
- Remote Control (possibly included)
- Carrying Bag (possibly included)

3. SETUP

3.1 Placement

Place the projector on a stable, flat surface using its tabletop mount. Ensure there is adequate space around the projector for ventilation to prevent overheating.

3.2 Power Connection

1. Connect the provided power cord to the projector's power input.
2. Plug the other end of the power cord into a suitable electrical outlet.

3.3 Connecting Devices

The Argus Slide Projector (Type I) supports VGA connectivity. Use a VGA cable to connect your desired device (e.g., laptop, television, gaming console, smartphone with appropriate adapter) to the projector.

4. OPERATING INSTRUCTIONS

4.1 Power On/Off

Press the power button located on the projector or the remote control to turn the unit on or off.

4.2 Adjusting Focus and Keystone

Use the focus ring or buttons (if available) on the projector or remote control to sharpen the image. Adjust the keystone correction to ensure a rectangular image if the projector is not perfectly perpendicular to the screen.

4.3 Slide and Film Handling

The projector is designed to view various slide and film formats. Refer to the specific trays or adapters provided for your model to correctly insert 35mm slides, 35mm film strips, or other compatible formats.

Video: Demonstrating the insertion of 2x2" mounted slides and 35mm film strips into a slide viewer. This process is similar to how slides and film would be prepared for projection.

5. MAINTENANCE

5.1 Cleaning

- Regularly clean the projector lens with a soft, lint-free cloth.
- Use a soft brush or compressed air to remove dust from ventilation openings.
- Keep the slide and film trays free of dust and debris to ensure smooth operation.

5.2 Storage

When not in use, store the projector in a cool, dry place, ideally in its original packaging or a protective carrying bag to prevent dust accumulation and damage.

6. TROUBLESHOOTING

- **No Power:** Ensure the power cord is securely connected to both the projector and the electrical outlet.
- **No Image:** Verify that the input device is correctly connected via VGA and that the projector's input source is selected appropriately.
- **Blurred Image:** Adjust the focus ring or buttons until the image appears sharp and clear. Check keystone correction if the image is distorted.
- **Overheating:** Ensure ventilation openings are not blocked. Turn off the projector and allow it to cool down if it becomes excessively hot.

7. SPECIFICATIONS

Feature	Detail
Brand	Argus
Model Name	Argus Slide Projector (Type I)
Model Number	0793155327145
Recommended Uses	Slides
Special Feature	Lightweight, Portable
Connectivity Technology	VGA
Display Resolution	1920 x 1080
Display Type	LCD
Form Factor	Portable
Mounting Type	Tabletop Mount
Brightness	2500 lumen
Controller Type	Button Control
Compatible Devices	Laptop, Television, Gaming Console, Smartphone
Item Weight	15 Pounds

8. ARGUS PROJECTOR MODELS OVERVIEW

Argus has produced a variety of slide projectors over the years, each designed to meet different user needs. Below is an overview of some common models, including the Argus Slide Projector (Type I).

Image: A compilation of various Argus slide projector models, showcasing their diverse designs and functionalities.

- **PA All-Purpose:** A foundational model designed for general slide projection.
- **PAX Home-Viewer:** Features a built-in screen for direct viewing, ideal for home use.
- **PA100 (Black) / PB100 (Grey):** Compact projectors, available in different color finishes.
- **PAB200:** A more robust model, often featuring a base for stability or storage.
- **PB150 (150W) / PB200 (200W):** Projectors distinguished by their lamp wattage, offering different brightness levels.
- **PBB200:** Another advanced model, likely with enhanced features for projection.
- **300 Automatic, Model 501:** An automatic slide projector, simplifying slide changes.
- **500 Stack, Model 554:** Designed for stacking multiple slides for continuous projection.
- **500 Automatic, Model 539:** Another automatic model in the 500 series, offering ease of use.

9. WARRANTY & SUPPORT

For warranty information and customer support, please refer to the documentation included with your purchase or visit the official Argus website. Keep your proof of purchase for any warranty claims.
