SETUP

1. **Initial Cleaning:** Before first use, thoroughly clean all components of the kit with warm water and a mild, toy-safe soap. Rinse thoroughly and allow to air dry completely.
2. **Battery Installation (for Vibrating Bullet):** Locate the battery compartment on the vibrating bullet. Insert the required batteries (typically small button-cell batteries) according to the polarity indicators. Securely close the compartment.
3. **Lubrication:** For comfortable application, especially with the G-Spot Stimulator and Shaft & Clitoral Stimulator, apply a generous amount of water-based lubricant to the ring and the area of application.

OPERATING INSTRUCTIONS

The kit includes three distinct rings, each designed for a specific type of stimulation. The vibrating bullet can be used in conjunction with the rings or independently.

1. Oral Pleasure Ring

This ring is designed to be worn on the tongue to enhance oral stimulation.

- Place the Oral Pleasure Ring over your tongue.
- Position the vibrating bullet against the ring or directly on the desired area to deliver vibrations during oral activity.
- The textured surface of the ring, combined with vibrations, intensifies sensations.

2. G-Spot Stimulator

This ring is worn on a finger to provide targeted G-spot and clitoral stimulation.
