KAWADA NAN20458

KAWADA nanoblock Daruma (White) Building Kit Instruction Manual

Model: NAN20458

1. INTRODUCTION

Thank you for purchasing the KAWADA nanoblock Daruma (White) Collection Series Building Kit. This kit allows you to construct a miniature Daruma figure using nanoblocks, known for their small size and intricate detail. This manual provides essential information for assembly, care, and safe use of your building kit.

The Daruma (White) model stands approximately 1.65 inches tall and consists of 160 pieces. It has a difficulty level of 2, indicating a moderate challenge suitable for builders aged 12 and above.

2. SAFETY INFORMATION

WARNING: CHOKING HAZARD - Small parts.

This product contains small parts and is not suitable for children under 3 years of age. Keep all components away from infants and young children to prevent accidental ingestion. Adult supervision is recommended during assembly for younger users.

3. PACKAGE CONTENTS

Before beginning assembly, please ensure all components are present:

- nanoblock pieces (160 pieces)
- Instruction sheet (often printed on the cardboard insert)
- Cardboard Insert

If any pieces are missing or damaged, please contact customer support.

4. ASSEMBLY (SETUP)

Follow the detailed instructions provided on the included instruction sheet to assemble your Daruma figure. The nanoblock system uses a stud-and-tube coupling method, similar to other building block toys, but on a much smaller scale.

1. **Preparation:** Clear a well-lit, flat surface for assembly. Organize your nanoblock pieces by color and size if necessary.
2. **Follow Instructions:** Refer to the step-by-step diagrams on the instruction sheet. Each step will show which blocks to add and where.
3. **Connect Blocks:** Carefully align the studs of one block with the holes of another and press them together firmly. Due to their small size, precision is key.
4. **Layer by Layer:** Most nanoblock models are built layer by layer from the base upwards. Ensure each layer is securely attached before proceeding to the next.
5. **Detailing:** Pay close attention to the placement of smaller, specialized pieces for facial features and other details of the Daruma.

Image 4.1: An example of a completed nanoblock Daruma (Blue), demonstrating the level of detail achievable.

Patience is important when working with nanoblocks due to their small size. If you encounter difficulty, re-examine the instruction diagrams carefully.

5. OPERATING (DISPLAY AND USE)

Once assembled, your nanoblock Daruma figure is ready for display. Place it on a stable, flat surface where it will not be easily knocked over. This model is designed for decorative purposes and is not intended for rough play.

- **Display:** Position your Daruma in a visible location, such as a shelf, desk, or display cabinet.
- **Interaction:** While durable, avoid excessive handling or dropping the model to prevent pieces from detaching.

6. CARE AND MAINTENANCE

To keep your nanoblock Daruma in excellent condition:

- **Cleaning:** Use a soft, dry brush or a can of compressed air to gently remove dust from the model. Avoid using water or chemical cleaners, as these may damage the plastic or cause discoloration.
- **Storage:** If disassembling for storage, keep all pieces in a sealed container to prevent loss. Store in a cool, dry place away from direct sunlight to prevent material degradation.
- **Handling:** Handle the assembled model with care to avoid accidental breakage or detachment of small pieces.

7. TROUBLESHOOTING

- **Missing Pieces:** If you believe you have missing pieces, double-check the packaging and your work

area. Due to their small size, pieces can be easily overlooked. If still missing, contact KAWADA customer support.

- **Blocks Not Connecting:** Ensure blocks are correctly oriented and aligned. Apply firm, even pressure. If a block seems warped or damaged, try a different piece.
- **Model Instability:** Re-examine previous steps to ensure all blocks are securely attached and correctly placed according to the instructions. Loose connections can lead to an unstable model.

8. SPECIFICATIONS

Feature	Detail
Brand	KAWADA
Model Name	Daruma (White) Collection Series Building Kit
Model Number	NAN20458
Number of Pieces	160
Difficulty Level	2
Assembled Dimensions (approx.)	1.15 x 1.65 x 1.15 inches
Material	Plastic
Recommended Age	12+ years
Color	White

9. WARRANTY AND SUPPORT

This product is sold without a manufacturer's warranty. For any questions regarding assembly, missing parts, or product information, please refer to the official KAWADA nanoblock website or contact their customer service directly. Contact information can typically be found on the product packaging or the brand's official website.
