# Sunbeam Royal Luxe Microplush Heated Throw Blanket Instruction Manual

Model: TSM8TRR896-25BW

## INTRODUCTION

---

This manual provides essential information for the safe and effective use of your Sunbeam Royal Luxe Microplush Heated Throw Blanket. Please read all instructions carefully before use and retain this manual for future reference.

The Sunbeam Royal Luxe Microplush Heated Throw is designed to provide warmth and comfort. It features a soft microplush fabric, multiple heat settings, and an automatic shut-off function for peace of mind. This throw measures 50 inches by 60 inches.

## IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons, including the following:

- Read all instructions before using this heated throw.
- Do not use with infants, children, incapacitated persons, paraplegics, quadriplegics, diabetics, persons insensitive to heat, or anyone who cannot clearly understand the instructions and/or operate the controls.
- Do not use if the fabric is torn, damaged, or has exposed wiring.
- Do not use with pets.
- Never use pins or other metallic objects with this appliance. They may damage the wiring.
- Do not use this heated throw with a generator, power converter, or inverter.
- Do not use this heated throw with adjustable beds.
- Do not use this heated throw with a damaged cord or plug.
- Always unplug the heated throw from the electrical outlet when not in use.
- Keep the control unit away from drafts or open windows to prevent it from getting wet.
- Do not dry clean this product. Dry cleaning solvents may damage the insulation of the heating element.
- Do not iron this heated throw.
- Do not use bleach or cleaning fluids.

- Do not immerse the control unit in water or other liquids.
- This product is for household use only.

## SETUP

Before first use, ensure the heated throw is clean and free from any packaging materials. Lay the throw flat on a bed, couch, or chair, ensuring no part of the heating element is folded or bunched up.

### Connecting the Controller

1. Locate the connector on the heated throw.
2. Align the controller cord with the connector and push firmly until it clicks into place. Ensure a secure connection.
3. Plug the power cord into a 120V AC electrical outlet.

## OPERATING INSTRUCTIONS

### Using the Controller

The Sunbeam Royal Luxe Heated Throw features an easy-to-use push-button controller with LED indicator lights.

- **Power On/Off:** Press the power button once to turn the throw on. Press it again to cycle through heat settings or hold

to turn off.

- **Heat Settings:** The throw has 4 heat settings: Warm, Low, Medium, and High. Press the power button repeatedly to cycle through these settings. The LED lights on the controller will indicate the selected heat level.
- **Auto Shut-Off:** For safety and energy conservation, the heated throw is equipped with a 4-hour auto shut-off feature. The throw will automatically turn off after 4 hours of continuous use.

## CARE AND MAINTENANCE

Proper care ensures the longevity and performance of your heated throw. Always detach the controller before cleaning.

### Washing Instructions

1. **Disconnect:** Ensure the controller is completely detached from the throw.
2. **Pre-soak:** Pre-soak the throw for 5-10 minutes in cool water with a small amount of mild detergent.
3. **Machine Wash:** Machine wash on a gentle or delicate cycle in cool water (maximum 86°F / 30°C). Do not use bleach.
4. **Rinse:** Rinse on a normal cycle.

5. **Tumble Dry:** Tumble dry on low heat for 5-10 minutes. Remove while still damp.
6. **Air Dry:** Drape the throw over a clothesline or shower rod to air dry completely. Do not plug in until completely dry.
7. **Do Not Dry Clean:** Dry cleaning solvents may damage the insulation of the heating element.

## TROUBLESHOOTING

If your heated throw is not operating correctly, please refer to the following common issues before contacting customer support:

Problem	Possible Cause	Solution
Throw does not heat.	Not properly plugged in; controller not connected securely; power outage.	Ensure all connections are secure and the power outlet is functional. Check household circuit breaker.
Controller lights are blinking.	Overheat protection activated; internal wiring issue.	Unplug the throw, let it cool for 30 minutes, then plug back in. If problem persists, contact customer support.
Uneven heating.	Throw is bunched or folded.	Lay the throw flat and smooth out any wrinkles or folds.
