TOOLPORT Sunset

TOOLPORT Sunset Classic Garden Gazebo 3x4m - Gray Instruction Manual

Model: Sunset

Introduction

This manual provides detailed instructions for the assembly, operation, and maintenance of your TOOLPORT Sunset Classic Garden Gazebo (3x4m, Gray). Please read these instructions carefully before beginning assembly to ensure safe and correct installation and use of the product. Keep this manual for future reference.

Safety Instructions

Important Safety Information:

- Always ensure the gazebo is securely anchored to the ground using the provided ground anchors.
- In case of strong winds or heavy rain, it is strongly advised to disassemble the gazebo to prevent damage to the structure and potential injury. This product is not designed for extreme weather conditions.
- Do not use open flames or heating devices inside or near the gazebo.
- Regularly inspect all components for wear and tear. Replace damaged parts immediately.
- Keep children and pets away from the assembly area during installation.

Package Contents

Before assembly, verify that all components listed below are present in your package:

- Steel frame with click system
- Approx. 180 g/m² polyester roof tarpaulin
- 4 side walls including rings for hanging

- 8 concrete anchors for secure ground fastening
- Assembly tools
- Easy-to-understand assembly manual (this document)

Setup and Assembly

The TOOLPORT Sunset Classic Garden Gazebo is designed for quick and easy assembly, typically requiring two people and approximately 30 minutes. No additional tools are needed beyond those provided.

Image: The fully assembled TOOLPORT Sunset Classic Garden Gazebo, ready for use.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out. Check against the package contents list to ensure everything is present.
2. **Assemble the Steel Frame:** Connect the steel frame components using the integrated click system. Ensure all connections are secure and click into place. The robust 6x6 cm profile provides stability.

Image: Detail of the sturdy steel frame structure, highlighting a corner connection.

3. **Attach the Roof Tarpaulin:** Carefully place the 180 g/m² polyester roof tarpaulin over the assembled frame. Ensure it is centered and evenly distributed. The tarpaulin features an additional PU layer and taped seams for optimal rain and sun protection (UV protection up to 50+).

Operation

Your TOOLPORT Sunset Classic Garden Gazebo provides a sheltered outdoor space for various activities. Here are some operational guidelines:

- **Weather Protection:** The roof tarpaulin offers protection from sun (UV 50+) and light rain. For heavy rain or strong winds, refer to the safety instructions regarding disassembly.
- **Side Walls:** The four included side walls can be opened or closed as needed for privacy, wind protection, or additional shade. They can be zipped closed for full enclosure.

- **Seasonal Use:** While designed for outdoor use, it is recommended to disassemble and store the roof tarpaulin and side walls during winter months or periods of prolonged harsh weather to extend their lifespan.

Maintenance

Proper maintenance will ensure the longevity and optimal performance of your gazebo:

- **Cleaning the Tarpaulin:** Clean the polyester roof and side walls with a mild soap solution and water. Do not use harsh chemicals or abrasive cleaners. Allow to air dry completely before storage.
- **Frame Care:** The powder-coated steel frame is protected against rust. However, regularly wipe down the frame with a damp cloth to remove dirt and debris. Inspect for any scratches or damage to the coating and touch up if necessary to prevent rust.
- **Storage:** When not in use for extended periods, especially during winter, disassemble the roof and side walls and store them in a dry, protected area. The steel frame can remain outdoors if securely anchored, but seasonal storage is recommended for maximum lifespan.
- **Inspection:** Periodically check all connections, anchors, and fabric for any signs of wear, damage, or loosening. Tighten any loose bolts and replace damaged parts promptly.

Troubleshooting

Problem	Possible Cause	Solution
Gazebo feels unstable.	Anchors not properly secured; loose frame connections.	Ensure all 8 concrete anchors are firmly in place. Check and tighten all frame connections. Disassemble in strong winds.
Water pooling on the roof.	Roof tarpaulin not taut enough or improperly installed.	Re-adjust the roof tarpaulin to ensure it is stretched tightly and evenly across the frame. Ensure proper drainage.
Side walls do not close properly.	Zippers are stuck or fabric is misaligned.	Check for any obstructions in the zipper path. Gently realign the fabric. Apply a zipper lubricant if necessary.
Rust spots on the frame.	Damage to the powder coating exposing the steel.	Clean the rust spot, sand lightly, and apply a rust-inhibiting paint or touch-up paint to protect the exposed metal.

Specifications

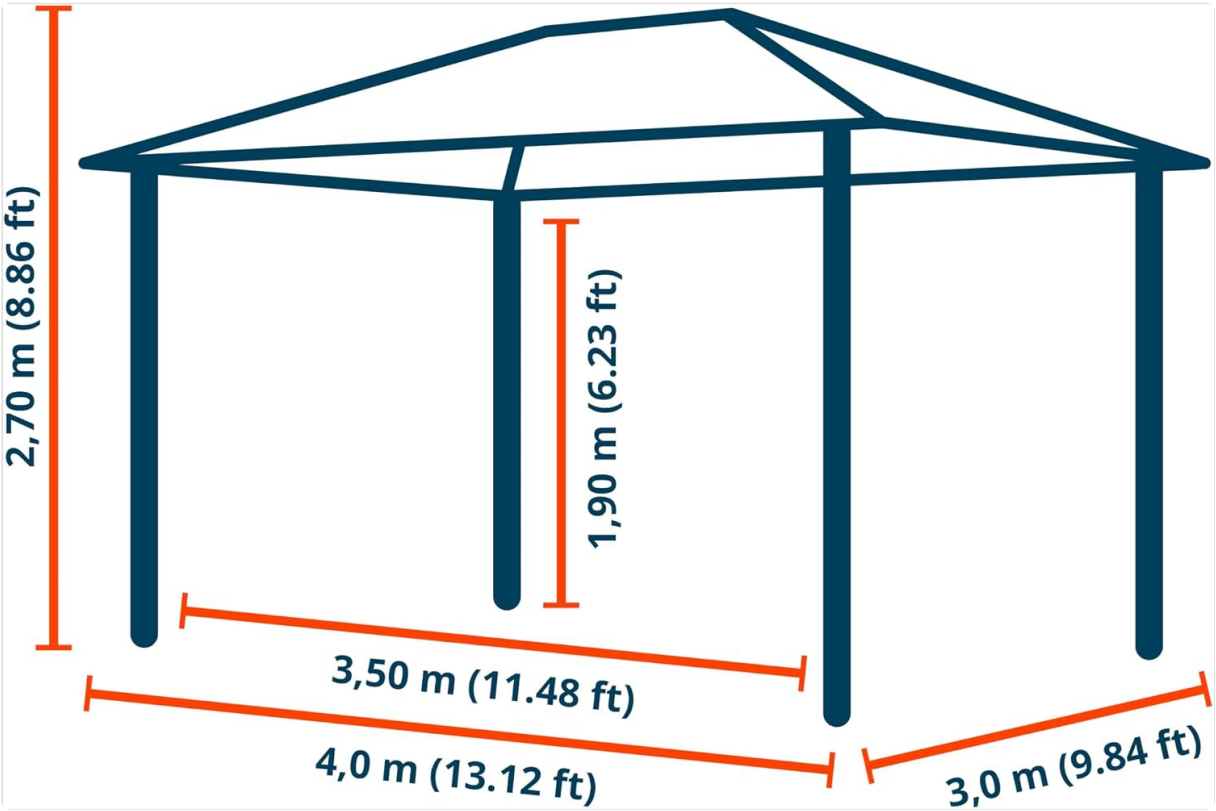

Image: Dimensional diagram of the gazebo, indicating key measurements.

Brand	TOOLPORT
Model Number	Sunset
Product Dimensions	300 x 400 x 270 cm (Length x Width x Height)

Item Weight	52 kg
Material (Frame)	Alloy Steel (Powder-coated)
Material (Roof/Walls)	Approx. 180 g/m² Polyester with PU layer
Color	Gray
Water Resistance Level	Waterproof
UV Protection	True (up to 50+)
