Syncros MTB Stem FL Bicycle Computer Mount - Instruction Manual

Model: 250562-0001222 | Brand: Syncros

INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your Syncros MTB Stem FL Bicycle Computer Mount. This mount is designed to provide seamless integration for your Garmin Edge computer directly onto compatible Syncros FL Stems, offering a secure and elevated position for optimal viewing during your rides.

SETUP AND INSTALLATION

The Syncros FL Computer Mount is specifically designed to replace the existing stem cap on Syncros FL Stems. Ensure your bicycle is equipped with a compatible Syncros FL Stem before proceeding with installation.

Required Tools:

- Hex key (appropriate size for stem cap bolt)

Installation Steps:

1. **Remove Existing Stem Cap:** Using a hex key, carefully loosen and remove the bolt securing your current stem cap. Remove the stem cap.
2. **Position the Mount:** Place the Syncros FL Computer Mount onto the stem, aligning the bolt hole with the steerer tube.
3. **Secure the Mount:** Insert the original stem cap bolt (or a new bolt if provided with the mount) through the mount and into the steerer tube. Tighten the bolt securely, ensuring the mount is stable and the headset preload is correct. *Do not overtighten.*
4. **Verify Stability:** Gently rock the handlebars back and forth while holding the front wheel to ensure there is no play in the headset. If there is play, tighten the stem cap bolt slightly more until the play is eliminated, then tighten the stem bolts.

OPERATING INSTRUCTIONS

This mount is compatible with Garmin Edge series bicycle computers.

Attaching Your Garmin Edge Computer:

1. Align the tabs on the back of your Garmin Edge computer with the slots on the Syncros mount.
2. Place the computer onto the mount, ensuring the tabs are seated in the slots.
3. Gently press down and rotate the computer clockwise until it clicks securely into place.

Removing Your Garmin Edge Computer:

1. Press down on the Garmin Edge computer.
2. Rotate the computer counter-clockwise until it disengages from the mount.
3. Lift the computer off the mount.

MAINTENANCE

The Syncros FL Computer Mount is constructed from durable alloy, designed for longevity and rust resistance.

- **Cleaning:** Wipe the mount with a damp cloth to remove dirt and grime. Avoid abrasive cleaners or solvents that could damage the finish.
- **Inspection:** Periodically check the mount for any signs of wear, damage, or looseness. Ensure the mounting bolt remains securely tightened.
- **Storage:** Store the mount in a clean, dry environment when not in use.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Mount feels loose after installation.	Stem cap bolt not tightened sufficiently, or headset preload is incorrect.	Re-tighten the stem cap bolt. Ensure headset preload is set correctly before tightening stem bolts. Consult a bicycle mechanic if unsure.

Problem	Possible Cause	Solution
Garmin computer does not click into place.	Incorrect alignment or incompatible computer model.	Ensure the computer tabs are perfectly aligned with the mount slots. Verify your Garmin model is an Edge series computer.
Mount does not fit my stem.	Incompatible stem model.	This mount is designed exclusively for Syncros FL Stems. It will not fit other stem models.

SPECIFICATIONS

Brand Name	Syncros
Model Name	250562-0001222
Color	Black
