Product Specifications

Specification	Detail
Battery Type	Lithium-Ion
Battery Voltage	3.7V
Battery Capacity	1800mAh (6.7Wh)
Product Dimensions	3 x 2 x 1 inches
Item Weight	1 ounce
Model Number	4332215445
Compatible with	Olympus Li-50B, Panasonic VW-VBX090, Pentax D-Li92, RICOH DB-100, CASIO NP-150, Kodax LB-050 LB-052, GE GB-50A, and various Olympus and Panasonic camera models (refer to product listing for full list).

Setup and First Use

1. **Unpacking:** Carefully remove the battery from its packaging. The package includes one battery.
2. **Initial Charge:** For optimal performance, fully charge the battery before its first use. Use a compatible charger designed for Li-50B or equivalent batteries.
3. **Inserting the Battery:** Refer to your camera or device's instruction manual for specific steps on how to correctly insert the battery. Ensure the battery is oriented correctly according to the polarity indicators.

Operating Instructions

The Kastar LI-50B battery functions as a direct replacement for original equipment manufacturer (OEM) batteries. Its operation is integrated with your compatible device.

- **Charging:** Connect the battery to a compatible charger. The charging indicator on your charger or device will typically show the charging status. Disconnect once fully charged.
- **Usage:** Once inserted and charged, the battery powers your device. Monitor your device's battery level indicator to know when recharging is necessary.
- **Battery Life:** Battery life varies depending on device usage, settings, and environmental conditions.

Maintenance and Storage

- **Cleaning:** Keep the battery contacts clean and dry. Use a soft, dry cloth to wipe off any dust or debris.
- **Storage:** When not in use for extended periods, store the battery in a cool, dry place, away from direct sunlight and extreme temperatures. It is recommended to store Lithium-Ion batteries with a partial charge (around 50%) to prolong their lifespan.
- **Avoid Extreme Temperatures:** Do not expose the battery to temperatures below 0°C (32°F) or above 40°C (104°F) for prolonged periods, as this can degrade performance and shorten lifespan.
- **Protective Case:** Utilize the included protective case when transporting or storing the battery to prevent damage to the contacts and casing.

Safety Precautions

- Do not disassemble, crush, puncture, or short-circuit the battery.
- Do not expose the battery to fire or water.
- Keep the battery out of reach of children.
- If the battery shows signs of swelling, leakage, or damage, discontinue use immediately and dispose of it properly.
- Use only chargers specifically designed for Lithium-Ion batteries.

Troubleshooting

Problem	Possible Cause	Solution
Battery not charging	Incorrectly inserted; dirty contacts; faulty charger; battery fully discharged.	Ensure correct insertion; clean contacts; try a different charger; allow battery to charge for a longer period.
Short battery life	High power consumption by device; aging battery; extreme temperatures.	Reduce device power consumption; replace battery if significantly degraded; operate within recommended temperature range.
Battery not recognized by device	Incorrect insertion; dirty contacts; device compatibility issue.	Re-insert battery correctly; clean contacts; verify device model is listed as compatible.

Disposal and Recycling

Lithium-Ion batteries should not be disposed of with household waste. Please recycle the battery according to local regulations. Many electronics retailers and recycling centers offer battery recycling programs.

Warranty and Support

Kastar products typically come with a manufacturer's warranty. For specific warranty details, support, or technical assistance, please refer to the warranty information provided with your purchase or visit the official Kastar website. You can also contact Kastar customer service directly.

Note: The product box mentions a "3 Years warranty". Please confirm details with Kastar directly.
