QFX SBX-1533

QFX SBX-1533 150W Portable PA Speaker System User Manual

Model: SBX-1533

INTRODUCTION

Welcome to the QFX SBX-1533 Portable PA Speaker System user manual. This guide provides essential information for the safe and efficient operation of your new speaker. Please read this manual thoroughly before using the device to ensure proper functionality and to prevent damage.

IMPORTANT SAFETY INSTRUCTIONS

- Read all instructions before operating the appliance.
- Keep the manual for future reference.
- Do not use this apparatus near water.
- Clean only with a dry cloth.
- Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
- Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- Protect the power cord from being walked on or pinched, particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
- Only use attachments/accessories specified by the manufacturer.
- Unplug this apparatus during lightning storms or when unused for long periods of time.
- Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

PACKAGE CONTENTS

Please check the box for the following items:

- QFX SBX-1533 Portable PA Speaker
- Power Cable

- Remote Control

PRODUCT OVERVIEW

Front View

This image displays the front of the QFX SBX-1533 speaker, featuring its 15-inch woofer with illuminated LED lights, a horn tweeter, and a sturdy integrated stand. A handle is visible at the top for portability.

Rear Panel Controls

The rear panel of the QFX SBX-1533 speaker is shown, detailing the MP3 control digital display, USB and SD card slots, various input jacks (RCA, Microphone, Guitar), volume and equalizer controls, and the main power switch. It also indicates the model number SBX-1533.

SETUP

Power Connection

Connect the provided power cable to the AC IN port on the rear panel of the speaker and then plug it into a standard electrical outlet. Ensure the voltage matches the speaker's requirements (120V/240V switch on the back panel).

Initial Placement

Place the speaker on a stable, flat surface or use a compatible speaker stand. For optimal sound dispersion, position the speaker at ear level in the desired listening area.

OPERATING INSTRUCTIONS

Powering On/Off

Locate the POWER switch on the rear panel. Flip the switch to the 'ON' position to power on the speaker. The digital display will illuminate. Flip to 'OFF' to power down.

Bluetooth Pairing

1. Turn on the speaker.
2. Press the 'MODE' button on the MP3 control panel until 'BLUE' appears on the display.
3. Enable Bluetooth on your device (smartphone, tablet, etc.).
4. Search for 'QFX SBX-1533' in your device's Bluetooth list and select it to pair.
5. Once paired, you will hear a confirmation tone, and you can now stream audio wirelessly.

USB/SD Playback

Insert a USB flash drive or SD card (with MP3 audio files) into the corresponding slot on the MP3 control panel. The speaker will automatically switch to USB/SD mode and begin playing the first track. Use the control buttons (Play/Pause, Next, Previous) on the panel or remote to navigate.

RCA Input

Connect an external audio source (e.g., CD player, mixer) to the RCA INPUT jacks on the rear panel using an RCA cable. Ensure the speaker is in 'LINE' mode (select via MODE button if necessary). Adjust the 'LINE LEVEL' knob for input volume.

Microphone and Guitar Inputs

Plug a microphone into the 'MIC INPUT' jack or a guitar into the 'GUITAR INPUT' jack on the rear panel. Adjust the respective 'LEVEL' knobs for microphone and guitar volume. Use the 'ECHO' knob for microphone echo effects.

Equalizer Adjustment

The graphic equalizer on the rear panel allows you to fine-tune the audio output. Adjust the sliders to boost or cut specific frequency ranges (e.g., bass, midrange, treble) to suit your preference.

Remote Control Usage

The included remote control provides convenient access to various functions, including power, mode selection, volume control, track navigation (for USB/SD), and equalizer presets.

MAINTENANCE

Cleaning

Wipe the speaker's exterior with a soft, dry cloth. Do not use abrasive cleaners, waxes, or solvents as they may damage the finish. Ensure no liquids enter the speaker's openings.

Storage

When not in use for extended periods, store the speaker in a cool, dry place, away from direct sunlight and extreme temperatures. It is recommended to store it in its original packaging to protect it from dust and physical damage.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No power	Power cable not connected; Power switch off; Outlet malfunction	Ensure power cable is securely connected; Turn power switch ON; Test outlet with another device
No sound output	Volume too low; Incorrect input mode; Cables not connected properly	Increase master volume and input level; Select correct input mode (Bluetooth, USB, Line); Check all audio cable connections
Bluetooth not connecting	Speaker not in pairing mode; Device too far; Previous connection active	Ensure speaker is in Bluetooth mode; Move device closer to speaker; Disconnect from other Bluetooth devices
Distorted sound	Input signal too high; Volume too high; Equalizer settings incorrect	Reduce input source volume; Lower master volume; Adjust equalizer settings
