B. toys Bouncy Boing Inflatable Hippo Ride-On Bouncer (Hankypants) Instruction Manual

Model: BX1922Z

INTRODUCTION

This manual provides essential information for the safe and proper use of your B. toys Bouncy Boing Inflatable Hippo Ride-On Bouncer, also known as Hankypants. Designed for toddlers 18 months and up, this inflatable toy encourages active play and helps develop balance and coordination.

WHAT'S INCLUDED

- 1 x Bouncy Boing Inflatable Hippo Ride-On Bouncer (Hankypants)
- 1 x Manual Air Pump

Image: The Bouncy Boing Hankypants hippo bouncer shown alongside its included manual air pump.

SETUP: INFLATION INSTRUCTIONS

1. **Locate the Air Valve:** Find the air valve on the underside of the hippo bouncer. It is typically a small, round plug.
2. **Insert the Pump Nozzle:** Insert the nozzle of the provided manual air pump firmly into the air valve.
3. **Inflate the Bouncer:** Begin pumping air into the hippo. Continue until the bouncer is firm to the touch but not overinflated. The hippo should be able to support a child's weight comfortably and allow for bouncing. This process typically takes 5 to 10 minutes.
4. **Seal the Valve:** Once inflated, quickly remove the pump nozzle and securely insert the air valve plug to prevent air leakage.

Educational Benefits

**Physical
Development**

**Balance &
Coordination**

**Gross Motor
Skills**

OPERATING INSTRUCTIONS

The Bouncy Boing Hippo is designed for simple and engaging play. Follow these guidelines for optimal use:

- **Mounting:** Assist your child in safely mounting the hippo. Ensure they are seated comfortably on its back.
- **Holding On:** The hippo's ears are designed as easy-to-grab handles. Instruct your child to hold onto these for stability while bouncing.
- **Bouncing:** Encourage your child to gently push off with their feet to initiate bouncing. The sturdy four feet of the hippo help maintain stability during play.
- **Supervision:** Always ensure adult supervision during play to prevent falls and ensure safe use.

BENEFITS AND FEATURES

The Bouncy Boing Hippo offers several developmental benefits for toddlers:

- **Physical Development:** Engages core muscles and promotes overall physical activity.
- **Balance and Coordination:** Helps children develop and improve their sense of balance and body coordination through active bouncing.
- **Gross Motor Skills:** Encourages the development of large muscle groups and motor skills essential for movement.
- **Durable Design:** Made from 95%+ plastic, ensuring longevity and resilience for active play.
- **Kid-Friendly Pump:** Includes an easy-to-use manual air pump for quick inflation.

MAINTENANCE

To ensure the longevity and hygiene of your Bouncy Boing Hippo, follow these simple maintenance steps:

- **Cleaning:** Wipe the surface of the hippo with a damp cloth and mild soap. Rinse thoroughly with clean water and allow it to air dry completely before storage or next use. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** When not in use, store the bouncer in a cool, dry place away from direct sunlight and sharp objects. For compact storage, you may partially or fully deflate the hippo.
- **Inspection:** Periodically inspect the bouncer for any signs of wear, tears, or punctures. Address any damage promptly to ensure continued safe use.

SAFETY INFORMATION

- **Age Recommendation:** Suitable for children 18 months and over.
- **Adult Supervision:** Always supervise children while they are using the bouncer.
- **Safe Environment:** Use the bouncer on a soft, flat surface, away from stairs, furniture, and other potential hazards.
- **Avoid Overinflation:** Do not overinflate the bouncer, as this can cause damage to the material and pose a safety risk.
- **Sharp Objects:** Keep the bouncer away from sharp objects that could puncture the material.

PRODUCT SPECIFICATIONS

Model Number	BX1922Z
Product Dimensions	14.17 x 5.51 x 9.45 inches
Item Weight	3.3 pounds
Recommended Age	18 months and up
Material	95%+ Plastic
Manufacturer	Branford Ltd.

TROUBLESHOOTING

- **Bouncer Deflates Quickly:**

- Ensure the air valve plug is securely inserted after inflation.
- Check for punctures: Inflate the hippo and submerge it in water (if feasible) or apply soapy water to the surface to locate air bubbles indicating a leak. Small punctures may be repairable with a vinyl repair kit (not included).

- **Difficulty Inflating:**

- Verify that the pump nozzle is fully inserted into the air valve.
- Ensure the pump itself is functioning correctly.

WARRANTY AND SUPPORT
