3. **Arrange the Ice Blocks:** Place the four ice blocks around the penguins. The goal is to fit all four ice blocks onto the game board such that they surround all the penguins, creating a "pool" for them. The ice blocks must lie flat on the board.
4. **Solve the Challenge:** Continue to rotate and position the ice blocks until all penguins are enclosed by the ice, and all four ice blocks are correctly placed on the game board. There is only one solution for each challenge.

4. TROUBLESHOOTING

- **Difficulty Solving a Challenge:** Remember that every challenge has a unique solution. If you are stuck, double-check your initial penguin placement against the challenge illustration. Ensure the game board is oriented correctly.
- **Finding Solutions:** The solutions for all 60 challenges are provided at the end of the challenge booklet. Refer to
