## Bestway 58425

# Bestway 58425 Power Steel Frame Oval Pool Cover User Manual

## INTRODUCTION

---

This manual provides essential instructions for the safe and effective use of your Bestway 58425 Power Steel Frame Oval Pool Cover. This cover is designed to protect your oval Power Steel Frame pool from debris and maintain water quality, especially during periods of non-use or colder seasons. Please read these instructions carefully before installation and retain them for future reference.

## SAFETY INFORMATION

---

- **Not a Safety Cover:** This pool cover is not a safety cover and will not prevent drowning. Always supervise children and pets around the pool area.
- **No Walking/Standing:** Do not walk, stand, or allow anyone to walk or stand on the pool cover. It is not designed to support weight and could lead to serious injury or drowning.
- **Secure Fastening:** Ensure the cover is securely fastened at all times to prevent accidental removal by wind or unauthorized access.
- **Debris Removal:** Remove all accumulated debris and standing water from the cover before attempting to remove it from the pool to prevent contaminants from falling into the pool water.
- **Storage:** Store the cover in a safe place when not in use, away from sharp objects or extreme temperatures.

## PACKAGE CONTENTS

---

Verify that all components are present and undamaged:

- 1 x Bestway 58425 Power Steel Frame Oval Pool Cover (Approx. 418 x 230 x 0.1 cm)
- 1 x Set of fastening ropes

## SETUP AND INSTALLATION

---

Follow these steps to properly install your Bestway pool cover:

1. **Prepare the Pool:** Ensure your pool is clean and free of large debris before installing the cover. The water level should be appropriate for covering.
2. **Unfold the Cover:** Carefully unfold the pool cover and position it over the pool surface. Identify the side with drainage holes and ensure they are positioned to allow rainwater to escape without pooling excessively.
3. **Position Over Pool:** Drape the cover over the edges of your Power Steel Frame oval pool, ensuring it covers the entire water surface and extends slightly over the pool frame.
4. **Secure with Ropes:** Locate the fastening ropes. Thread the ropes through the designated loops or eyelets located around the perimeter of the cover.
5. **Anchor the Cover:** Securely tie or fasten the ropes to the pool frame or other suitable anchor points. Ensure the cover is taut and snug to prevent wind from lifting it and to minimize debris entry.
6. **Check Tension:** Periodically check the cover's tension and re-secure ropes as needed, especially after strong winds or heavy rain.

## OPERATING INSTRUCTIONS (USAGE)

---

The Bestway 58425 pool cover is designed for seasonal protection, particularly during colder months or when the pool is not in use for extended periods. It serves to:

- Prevent leaves, dirt, and other debris from entering the pool.
- Reduce cleaning efforts and chemical consumption.
- Help maintain water temperature by reducing heat loss.

### To Remove the Cover:

1. Carefully unfasten all ropes from their anchor points.
2. Gently lift the cover, allowing any accumulated water to drain through the drainage holes. Avoid letting debris fall into the pool.
3. Fold the cover neatly for storage.

## MAINTENANCE

Proper maintenance will extend the life of your pool cover:

- **Cleaning:** Clean the pool cover regularly with mild soap and water. Hand wash only. Avoid harsh chemicals or abrasive cleaners that could damage the PVC material.
- **Rinsing and Drying:** Rinse thoroughly and allow the cover to dry completely before folding and storing to prevent mold and mildew growth.
- **Inspection:** Inspect ropes and the cover for any signs of wear, tears, or damage before each use. Address minor issues promptly to prevent them from worsening.
- **Storage:** When not in use, fold the dry cover neatly and store it in a cool, dry place away from direct sunlight and pests.

## TROUBLESHOOTING

---

Here are solutions to common issues you might encounter:

- **Issue:** Cover does not stay in place or is easily lifted by wind.  
**Solution:** Ensure all fastening ropes are securely tied and taut. Check that the cover extends sufficiently over the pool edges. In very windy conditions, additional weights or anchors may be considered (ensure they do not damage the pool or cover).
- **Issue:** Water accumulates excessively on the cover.  
**Solution:** The cover is designed with drainage holes to prevent excessive water accumulation. Ensure these holes are not blocked by debris. If water still accumulates, check if the cover is properly tensioned or if the pool water level is too low, causing the cover to sag.
- **Issue:** Cover appears damaged or torn.  
**Solution:** Small tears can sometimes be repaired with a suitable PVC repair kit. For significant damage, replacement may be necessary to ensure effective pool protection.

## SPECIFICATIONS

---

Feature	Detail
Model Number	58425-05
Dimensions (L x W x H)	418 x 230 x 0.1 cm (4.18L x 2.3W meters)
Item Weight	1.93 Kilograms
Material	Polyvinyl Chloride (PVC)
Color	Grey
Shape	Oval
Special Features	Drainage holes, fastening ropes
Closure Type	Drawstring
Installation Type	Floating
Care Instructions	Hand wash with mild soap and water
