SAFETY INFORMATION

DANGER: MAY CAUSE MILD SKIN IRRITATION. HARMFUL IF SWALLOWED. KEEP OUT OF REACH OF CHILDREN. To avoid contact with skin and clothing, wear gloves when handling. Avoid contact with eyes. DO NOT INGEST. Contains 2-hydroxypropanoic acid.

First Aid:

- **Skin Contact:** If the product comes in contact with skin, wash with soap and water.
- **Eye Contact:** Flush immediately with water for at least 15 minutes. Seek medical attention if symptoms persist.
- **Ingestion:** Seek immediate medical attention and call POISON CONTROL CENTER (800) 222-1222.

Store container tightly closed in a cool, dry, ventilated area. DO NOT reuse container.

Instructions for Use:

Remove all ice prior to cleaning. Mix 4 oz of ice machine cleaner with 1 gallon of water. DO NOT MIX with any other cleaner or chemicals prior to use. Follow the manufacturer's recommended cleaning instructions. For severe scale buildup repeated cleaning cycles may be required with fresh cleaning solution.

Detailed safety and usage instructions from the product label.

SETUP AND PREPARATION

Before beginning the cleaning process, ensure your ice machine is empty of all ice. It is recommended to perform this cleaning in a well-ventilated area.

Ensure your ice machine is clear of ice before cleaning.

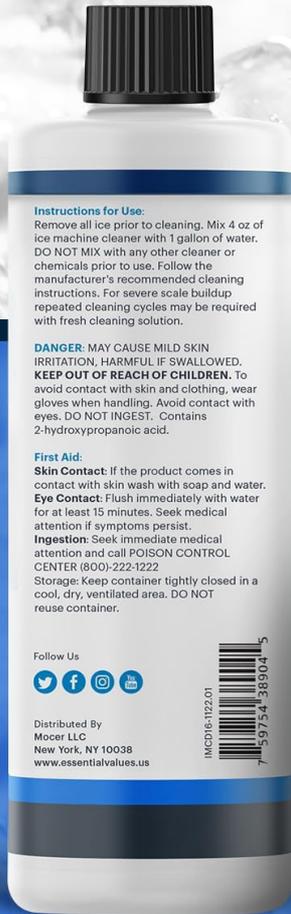

The cleaner helps avoid contaminants for pure ice.

OPERATING INSTRUCTIONS (HOW TO USE)

Follow these steps for effective cleaning and descaling of your ice machine:

1. **Remove all ice** prior to cleaning.
2. **Mix 4 oz of Essential Values Ice Machine Cleaner with 1 gallon of water.** Do NOT mix with any other cleaner or chemicals.
3. **Follow your ice machine manufacturer's recommended cleaning instructions.** This typically involves pouring the solution into the water reservoir and running the machine through its cleaning cycle.
4. For severe scale buildup, repeated cleaning cycles may be required with fresh cleaning solution.
5. After cleaning, drain the solution and rinse the machine thoroughly with clean water according to your manufacturer's instructions.

ICE MACHINE CLEANER

Instructions for Use:
Remove all ice prior to cleaning. Mix 4 oz of ice machine cleaner with 1 gallon of water. DO NOT MIX with any other cleaner or chemicals prior to use. Follow the manufacturer's recommended cleaning instructions. For severe scale buildup repeated cleaning cycles may be required with fresh cleaning solution.

MAINTENANCE

To ensure your ice machine continues to produce clean, fresh-tasting ice and operates efficiently, we recommend descaling your ice machine every 3–6 months. This regular maintenance prevents significant mineral buildup and extends the life of your appliance.

KEEP IT CRYSTAL

KEEP YOUR CUBES
IN GOOD SHAPE

KEEP THE FLAVOR
WHERE IT BELONGS

Regular maintenance ensures crystal clear ice, well-formed cubes, and pure flavor.

TROUBLESHOOTING

If you encounter issues or if mineral buildup persists after following the instructions:

- **Repeat Cleaning Cycle:** For heavy buildup, a single cleaning cycle may not be sufficient. Repeat the cleaning process with a fresh solution.
- **Check Manufacturer's Manual:** Refer to your specific ice machine's user manual for any unique cleaning procedures or recommendations.
- **Ensure Proper Dilution:** Verify that you are using the correct ratio of 4 oz cleaner to 1 gallon of water. Incorrect dilution may reduce effectiveness.
- **Thorough Rinsing:** Inadequate rinsing can leave residue. Ensure all cleaning solution is flushed from the system.

SPECIFICATIONS

Attribute	Value
Product Dimensions	3 x 3 x 8 inches; 1 Pounds
Item Model Number	FBA_EV-IceMachine-Cleaner
Manufacturer	Essential Values
Date First Available	September 16, 2016
