

BMW Folding Table

BMW Travel & Comfort System Folding Table Instruction Manual

1. INTRODUCTION

The BMW Travel & Comfort System Folding Table is designed to enhance convenience for rear-seat passengers. This accessory provides a stable surface for various activities during travel. It is an integral part of the BMW Travel & Comfort System and requires the separate [base carrier](#) for installation.

2. SAFETY INFORMATION

- Ensure the folding table is securely attached to the base carrier before driving.
- Do not overload the table. Refer to the base carrier's manual for weight limits.
- Always fold the table when not in use or during sudden braking to prevent injury.
- Keep small children away from moving parts during adjustment.
- This product is not suitable for vehicles equipped with optional factory rear seat entertainment (option code 6FG) or optional sport seats (option code 481).

3. SETUP AND INSTALLATION

The folding table requires the BMW Travel & Comfort System base carrier (sold separately) for installation. The base carrier attaches securely between the headrest pillars of the front seats.

3.1 Attaching the Folding Table to the Base Carrier

1. Ensure the base carrier is correctly installed on the headrest pillars. Refer to the base carrier's instruction manual for proper installation.
2. Align the folding table's attachment mechanism with the slot on the installed base carrier.
3. Gently push the folding table into the base carrier until you hear a "click," indicating it is securely locked in place. The snap-in function ensures a firm attachment.
4. Verify the table is stable and does not wobble before use.

Image 1: The BMW Travel & Comfort System Folding Table shown in its folded position, securely attached to the base carrier on the back of a front seat headrest. This image illustrates the compact storage of the table when not in use.

Image 2: A collage demonstrating various components of the BMW Travel & Comfort System. The top row shows the base carrier installation and the folding table in both folded and unfolded states. The bottom row displays a coat hanger and tablet holders, all compatible with the same base carrier. This highlights the modularity of the system.

4. OPERATION

4.1 Unfolding and Folding the Table

- To unfold: Locate the release mechanism (if any) or simply pull the table surface downwards until it locks into a horizontal position.
- To fold: Press the release button or mechanism and gently push the table surface upwards until it clicks back into its vertical, stored position.

4.2 Adjusting Height and Angle

The folding table offers adjustable height and angle for optimal comfort. Specific adjustment mechanisms may vary slightly, but generally involve:

- **Height Adjustment:** Look for a lever or button near the attachment point to slide the table up or down along the base carrier.
- **Angle Adjustment:** The table surface itself may have a hinge or locking mechanism to tilt it to a desired angle.

Always ensure any adjustments are securely locked before placing items on the table.

Image 3: The BMW Travel & Comfort System Folding Table displayed on its retail packaging. The table is shown in its unfolded state, revealing the cup holder and flat surface, ready for use. This image provides a clear view of the table's design and functionality.

5. MAINTENANCE

- **Cleaning:** Wipe the table surface with a soft, damp cloth. Use mild soap if necessary, then wipe dry. Avoid abrasive cleaners or solvents.
- **Inspection:** Periodically check the attachment points and moving parts for any signs of wear or damage. Ensure all locking mechanisms function correctly.
- **Storage:** When not in use, keep the table folded in its vertical position to prevent accidental damage or interference.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Table does not attach securely.	Base carrier not installed correctly or table not fully engaged.	Ensure the base carrier is firmly installed. Re-align the table and push until a "click" is heard. Check for obstructions.
Table wobbles or feels unstable.	Not fully locked into position or base carrier is loose.	Verify the table is fully engaged with the base carrier. Check the base carrier's stability on the headrest pillars. Do not exceed recommended weight limits.

Problem	Possible Cause	Solution
Difficulty unfolding or folding.	Mechanism jammed or stiff.	Ensure no debris is obstructing the hinges. Apply a small amount of silicone spray to moving parts if stiffness persists (avoiding contact with fabric).

7. SPECIFICATIONS

Product Name: BMW Travel & Comfort System Folding Table

Brand: BMW

Model: Folding Table

ASIN: B01M0FGHFC

Manufacturer: BMW

Date First Available: September 13, 2016

Compatible Devices: Smartphones, Tablets (when used with appropriate holders, not included with folding table)

Special Features: Travel, Adjustable Height and Angle

Compatibility Note: Requires BMW Travel & Comfort System Base Carrier (sold separately). Not for vehicles with optional factory rear seat entertainment (6FG) or optional sport seats (481).

8. WARRANTY & SUPPORT

This product is a genuine BMW accessory. For specific warranty information and support, please refer to the documentation provided with your purchase or contact your authorized BMW dealer or BMW customer service directly. Keep your proof of purchase for warranty claims.
