

Nektar Impact LX25+

Nektar Impact LX25+ USB MIDI Controller Keyboard User Manual

Comprehensive Instructions for Setup, Operation, and Maintenance

1. INTRODUCTION

The Nektar Impact LX25+ is a compact USB MIDI controller keyboard designed for music production. It features 25 full-size, velocity-sensitive keys, 8 backlit drum pads, 8 control knobs, 1 fader, and dedicated transport controls. This manual provides detailed instructions for setting up, operating, and maintaining your Impact LX25+ to integrate seamlessly with your Digital Audio Workstation (DAW) and virtual instruments.

Figure 1.1: The Nektar Impact LX25+ USB MIDI Controller Keyboard. This image displays the full layout of the controller, including the 25 keys, 8 drum pads, 8 knobs, 1 fader, and various control buttons.

2. SETUP

2.1. What's in the Box

- Impact LX25+ Keyboard
- USB Cable
- User Manual (this document)
- Bitwig Studio 8-Track License Card
- 5 Cherry Audio plugins (Nektar registration required for claim email)

2.2. Connecting Your Impact LX25+

The Nektar Impact LX25+ is a USB class-compliant device, meaning it does not require special drivers for basic functionality on Windows, macOS, and iOS.

1. Connect one end of the included USB cable to the USB port on the back of your Impact LX25+.
2. Connect the other end of the USB cable to an available USB port on your computer (Windows or macOS) or to an iPad via an Apple Camera Connection Kit (not supplied).
3. The device will power on automatically via USB.

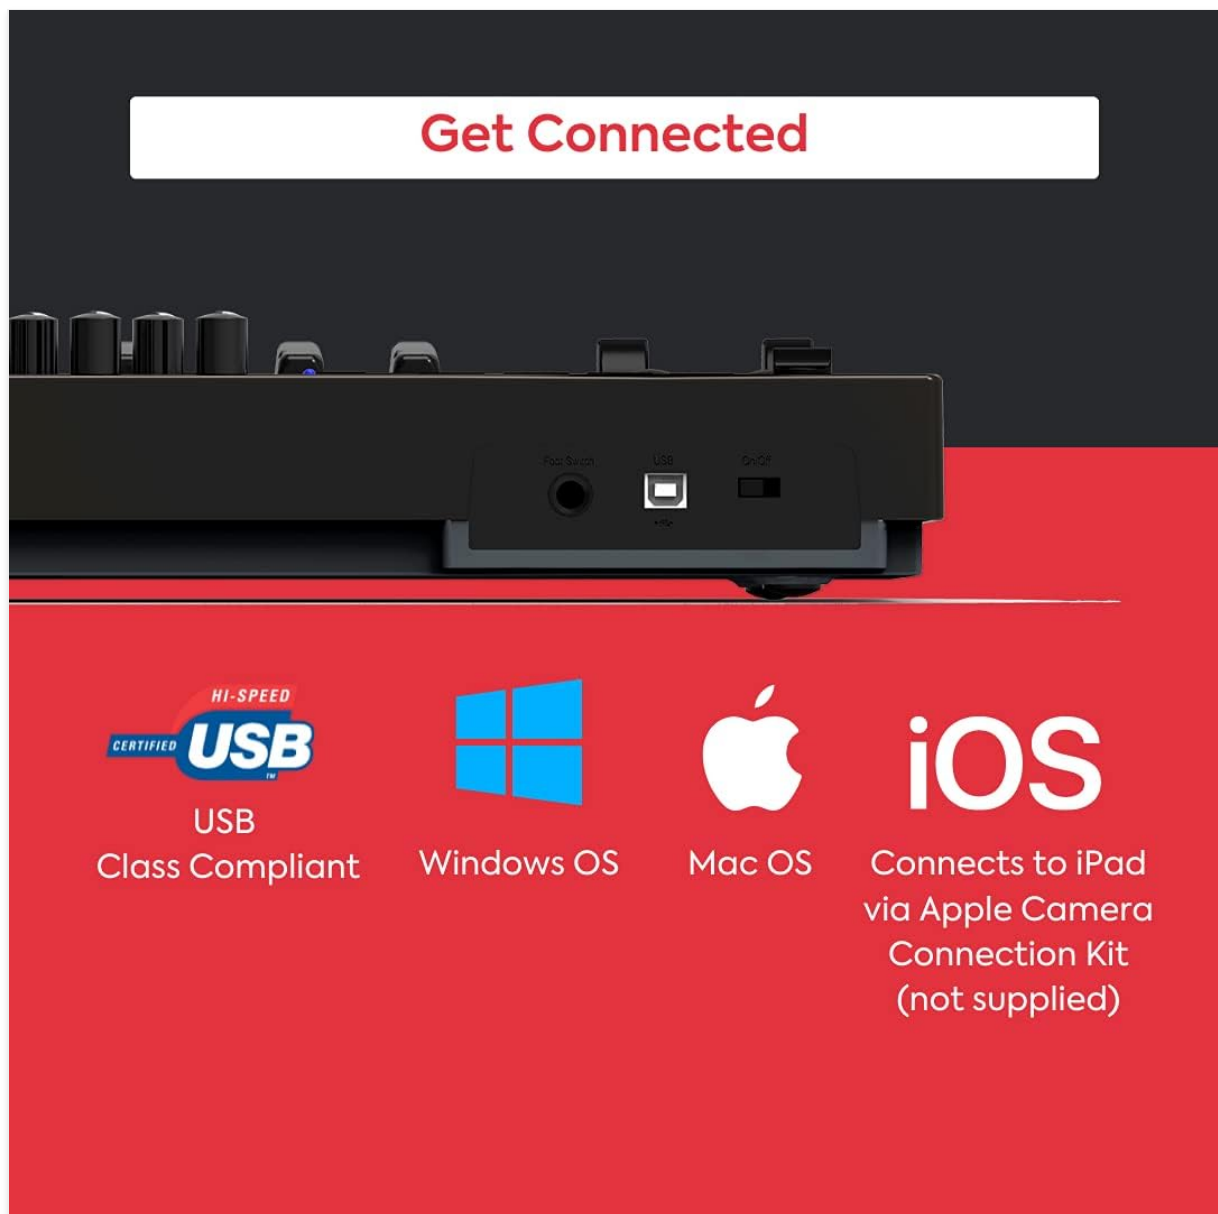

Figure 2.1: Rear view of the Nektar Impact LX25+ showing the USB port and sustain pedal input. This image highlights the simple USB connectivity for power and data transfer.

2.3. Nektar DAW Integration

For advanced control over your Digital Audio Workstation (DAW), Nektar provides dedicated integration software.

1. Register your Impact LX25+ on the official Nektar website.
2. Download the appropriate DAW integration files for your specific DAW (e.g., Bitwig, Cubase, Logic, Reaper, Studio One).
3. Follow the installation instructions provided with the downloaded files to configure your DAW for optimal control with the Impact LX25+.

Nektar's Award Winning DAW Integration

Nektar's DAW Integration offers unmatched control of your favorite DAWs!

COMPATIBLE WITH

Figure 2.2: The Nektar Impact LX25+ demonstrating compatibility with various DAWs. This image shows the controller alongside logos of supported software like Bitwig, Cubase, Logic Pro X, and Studio One.

3. OPERATING INSTRUCTIONS

3.1. Keyboard Keys

The Impact LX25+ features 25 full-size, velocity-sensitive keys. The velocity sensitivity can be adjusted to match your playing style. Refer to the full Nektar user manual (available on the Nektar website) for detailed instructions on changing velocity curves.

More Control. More Creativity.

25 Full Size Velocity Sensitive Keys with excellent playability!

Nektar's Renowned Build Quality

Award Winning DAW Control

Easy Connectivity

Figure 3.1: Close-up view of the 25 full-size, velocity-sensitive keys on the Nektar Impact LX25+. This image emphasizes the playability and standard keyboard layout.

3.2. Control Section Overview

The Impact LX25+ provides a comprehensive control section for hands-on manipulation of your software.

- **8 Control Knobs:** These rotary encoders can be assigned to various parameters in your DAW or virtual instruments.
- **1 Fader:** A 30mm fader for volume control or other assignable parameters.
- **8 Backlit Drum Pads:** Velocity-sensitive pads for drumming, triggering samples, or launching clips.
- **Transport Buttons:** Dedicated buttons for Play, Stop, Record, Fast Forward, Rewind, and Loop functions within your DAW.
- **Pitch Bend and Modulation Wheels:** Standard controls for expressive performance.
- **Octave and Transpose Buttons:** Adjust the keyboard's octave range and transpose notes.

Packed With Features For Music Production

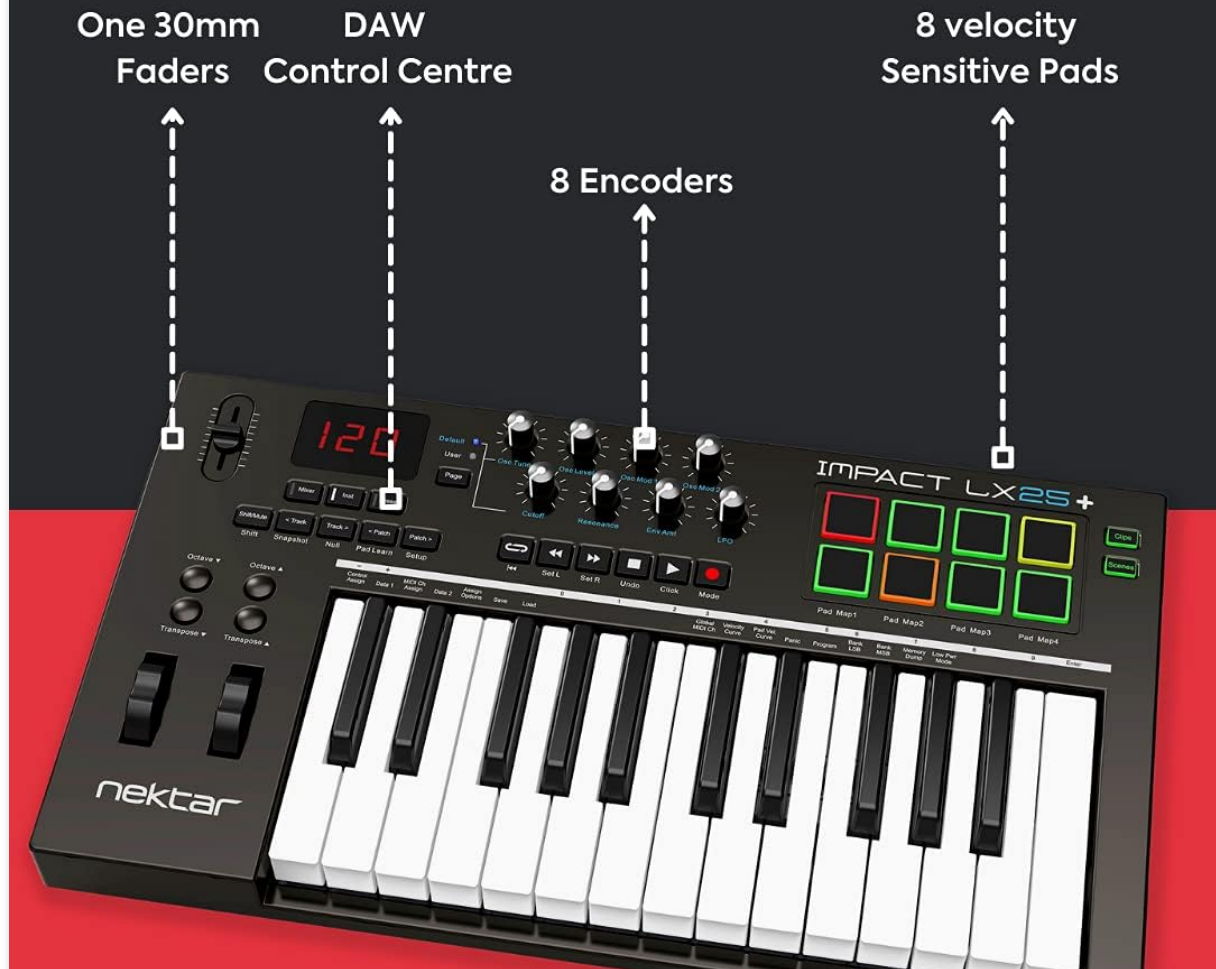

Figure 3.2: Detailed view of the control section on the Nektar Impact LX25+. This image highlights the 8 knobs, 1 fader, 8 drum pads, and transport controls.

3.3. Advanced DAW Control

With Nektar DAW Integration, the Impact LX25+ offers advanced control capabilities:

- **Mixer Control:** Control volume, pan, and send effects for up to 8 tracks simultaneously.
- **Instrument Control:** Map knobs and faders to virtual instrument parameters for real-time tweaking.
- **Navigation:** Easily navigate through your project, switch tracks, and manage scenes.
- **Transport:** Full control over playback, recording, and looping.

Advanced DAW Controls

Unmatched, Advanced DAW Controls that improve workflow and maximizes creativity!

Open/Close DAW Mixer & Change Tracks/Patches

Take Control your Plugins!

Advanced Transport & Scene Control

Navigate and Arrange with Ease

Figure 3.3: Examples of advanced DAW control with the Nektar Impact LX25+. This image shows the controller being used to open/close DAW mixers, change tracks, control plugins, and manage transport and scene controls within a DAW interface.

4. MAINTENANCE

4.1. Cleaning

To maintain the appearance and functionality of your Impact LX25+, follow these cleaning guidelines:

- Always disconnect the USB cable before cleaning.
- Use a soft, dry, lint-free cloth to wipe down the surface of the controller.
- For stubborn dirt, slightly dampen the cloth with water. Avoid using harsh chemicals, abrasive cleaners, or solvents, as these can damage the finish and electronic components.
- Do not allow liquids to enter any openings.

4.2. Storage

When not in use, store your Impact LX25+ in a clean, dry environment away from direct sunlight, extreme temperatures, and excessive dust.

5. TROUBLESHOOTING

If you encounter issues with your Nektar Impact LX25+, consider the following common solutions:

- **No Power/Not Recognized:** Ensure the USB cable is securely connected to both the controller and your computer. Try a different USB port or cable. Verify that your computer's operating system recognizes the device.
- **Keys Feel Stiff or Unresponsive:** The Impact LX25+ features velocity-sensitive keys. If you find them too stiff or not responding as expected, adjust the velocity curve settings on the controller. Refer to the full Nektar user manual for instructions on how to do this.
- **Latency Issues:** Latency (delay between playing a note and hearing sound) is often related to your computer's audio interface settings or DAW buffer size, not the controller itself. Adjust your audio interface buffer size in your DAW's preferences.
- **DAW Integration Not Working:** Ensure you have downloaded and correctly installed the specific DAW integration files from the Nektar website for your DAW. Verify that the Impact LX25+ is selected as a MIDI input device in your DAW's preferences.
- **Pads Not Responding:** Check if the pads are in the correct mode (e.g., Pad Map 1, 2, or 3) and that they are assigned to the desired sounds or functions in your software.

For further assistance, consult the comprehensive Nektar Impact LX25+ user manual available on the official Nektar website or contact Nektar support.

6. SPECIFICATIONS

Feature	Detail
Model Name	Impact LX25+
Number of Keys	25 (full-size, velocity-sensitive)
Pads	8 (backlit, velocity-sensitive)
Knobs	8 (assignable)
Faders	1 (30mm, assignable)
Connectivity Technology	USB
Hardware Interface	USB
Compatible Devices	Computer (desktop/laptop), Tablet (iOS via Camera Connection Kit)
Supported Software	Bitwig, Cakewalk, Cubase, Digital Performer, FL Studio, GarageBand, Logic, Nuendo, Reaper, Reason, Studio One
Item Weight	4 pounds (1.81 kg)
Product Dimensions	10.5 x 18.75 x 2.75 inches (26.67 x 47.63 x 6.99 cm)
Material Type	Plastic

7. WARRANTY AND SUPPORT

7.1. Product Warranty

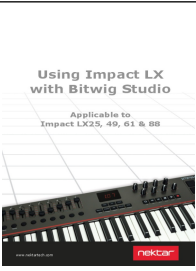

Nektar products are covered by a limited warranty against defects in materials and workmanship. For specific warranty terms and conditions, please refer to the warranty information provided with your product packaging or visit the official Nektar website. Keep your proof of purchase for warranty claims.

7.2. Technical Support

Should you require technical assistance or have questions not covered in this manual, please visit the Nektar Technology website for their support section, FAQs, and contact information.
