## 1. INTRODUCTION

---

Thank you for choosing the Yaheetech Dog Playpen. This versatile 16-panel, 24-inch heavy-duty metal pet fence is designed to provide a safe and spacious enclosure for your pets, suitable for both indoor and outdoor environments. Its foldable and portable design makes it ideal for various uses, including RV camping, yard, or garden use. This manual provides essential information for assembly, operation, maintenance, and safety to ensure optimal use of your playpen.

## 2. SAFETY INFORMATION

Please read and understand all safety instructions before assembling or using the playpen. Failure to follow these instructions may result in injury or damage to the product.

- Ensure all connecting rods are securely inserted and the gravity automatic lock on the door is engaged to prevent accidental opening.
- Do not leave pets unattended for extended periods, especially if they are prone to jumping or climbing.
- When used indoors, place the playpen on a dog pad or carpet to protect floors from scratches and reduce noise.
- For outdoor use, ensure the solid metal stakes are firmly inserted into the ground to enhance stability and prevent tipping.
- Regularly inspect the playpen for any signs of wear, damage, or loose parts. Discontinue use if any damage is found.
- Keep children away from the playpen during assembly and disassembly.

## 3. PACKAGE CONTENTS

Verify that all components are present before beginning assembly:

- 16 x Metal Playpen Panels (including panels with doors)
- Connecting Rods (sufficient quantity for all panels)
- Installation Manual

## 4. SETUP AND ASSEMBLY

---

Assembly of the Yaheetech Dog Playpen is designed to be quick and straightforward. No special tools are required.

### Assembly Steps:

1. **Step 1: Align Panels**

Set up two fence panels to align the holes on their vertical edges.

2. **Step 2: Connect Panels**

Insert a connecting rod through the aligned holes of the two panels. Push the rod down completely to secure the connection. Repeat this process for all panels until your desired shape is formed.

3. **Gravity Automatic Lock**

The door panels feature a gravity automatic lock. To open, push the door latch upwards. When released, the latch will automatically fall into place, securing the door.

## EASY TO INSTALL

### Step 1:

Set up two fences to align the holes

### Step 2:

Use connecting rods to link two pieces of fence

## GRAVITY AUTOMATIC LOCK

For outdoor use, the solid metal stakes can be inserted into the ground through the bottom loops of the panels to provide additional stability against movement or tipping.

## 5. OPERATING INSTRUCTIONS

The Yaheetech Dog Playpen offers flexibility in configuration to suit various needs and spaces.

### Configuring Shapes:

The individual panels allow you to create various shapes without the need for tools. Common configurations include:

- **Polygon:** A multi-sided enclosure, often circular or octagonal, providing a spacious area.
- **Rectangle/Square:** Ideal for fitting into specific room layouts or creating defined boundaries.
- **Long Rectangle:** Suitable for narrower spaces or creating a longer run.
- **Irregular Shapes:** Adaptable to unique spaces or to work around obstacles.

## 6. MAINTENANCE

To ensure the longevity and cleanliness of your Yaheetech Dog Playpen, follow these simple maintenance guidelines:

- **Cleaning:** Wipe down the metal panels with a damp cloth and mild soap as needed. Rinse thoroughly and dry completely to prevent rust. Avoid abrasive cleaners or harsh chemicals.
- **Inspection:** Periodically check all connecting rods and panel joints for tightness and integrity. Ensure the door latch mechanism operates smoothly.
- **Storage:** When not in use, disassemble the playpen and store it in a dry place to prevent corrosion.

## 7. TROUBLESHOOTING

This section addresses common issues you might encounter with your playpen.

Problem	Possible Cause	Solution
Playpen feels unstable or wobbly.	Connecting rods not fully inserted; uneven ground (outdoor use); insufficient support.	Ensure all connecting rods are pushed down completely. For outdoor use, firmly insert solid metal stakes into the ground. Consider placing on a flat, level surface.
Door latch is stiff or not engaging.	Debris in the mechanism; slight misalignment.	Clean the latch mechanism. Ensure the door panel is properly aligned with the adjacent panel. Apply a small amount of silicone lubricant if necessary.
Panels are difficult to connect.	Holes not perfectly aligned; slight manufacturing tolerance.	Ensure panels are on a flat surface. Gently wiggle panels to align holes. Apply slight downward pressure on the connecting rod while inserting.
