UPBRIGHT GSCU0600S019V12E

UpBright 19V AC/DC Adapter User Manual

Model: GSCU0600S019V12E

1. INTRODUCTION

This manual provides essential information for the safe and effective use of your UpBright 19V AC/DC Adapter. This power supply is designed to charge various Chuwi ILIFE robot vacuum cleaner models. Please read this manual thoroughly before use and retain it for future reference.

2. SAFETY INFORMATION

To ensure safe operation and prevent damage, observe the following safety guidelines:

- **Input Voltage:** The adapter supports a wide input voltage range of 100-240VAC, 50/60Hz. Ensure your power outlet matches these specifications.
- **Protection Features:** This adapter includes Over Voltage Protection (OVP), Over Current Protection (OCP), and Short Circuit Protection (SCP) to safeguard your devices.
- **Correct Polarity:** Always ensure the adapter's connector polarity matches the device's input. Incorrect polarity can damage the device. Refer to the diagram below for correct polarity.
- **Environment:** Use the adapter in a dry environment. Avoid exposure to water, moisture, or extreme temperatures.
- **Handling:** Do not disassemble, modify, or drop the adapter. Keep it away from children.

3.1. Compatibility

This adapter is compatible with the following Chuwi ILIFE robot vacuum cleaner models and their charging docks:

- ILIFE V1, V3, V3s, V5, V5S, V5 Pro
- ILIFE A4, A4s, A6
- ILIFE X5, V50, V55, X800
- ILIFE V4, V80, A7, A8, A9, A9s
- Specific part numbers: GSCU0600S019V12E, GSCV0600S019V12E

4. SETUP

Follow these steps to set up your UpBright AC/DC Adapter:

1. **Unpack:** Carefully remove the adapter from its packaging.
2. **Inspect:** Check the adapter and cable for any visible damage. Do not use if damaged.
3. **Connect to Device:** Insert the barrel connector end of the adapter cable firmly into the charging port of your robot vacuum cleaner or its charging dock. Ensure the connection is secure and stable.
4. **Connect to Power Outlet:** Plug the AC prongs of the adapter into a standard wall power outlet (100-240VAC).
5. **Verify Connection:** Confirm that the robot vacuum or charging dock indicates it is receiving power (e.g., an indicator light).

5. OPERATING INSTRUCTIONS

Once properly connected, the adapter will supply power to your robot vacuum cleaner for charging. The charging process is typically managed by the robot vacuum's internal circuitry.

- Ensure the robot vacuum is correctly positioned on its charging dock, if applicable.
- Monitor the robot vacuum's charging indicator to confirm it is charging.
- Disconnect the adapter from the power outlet when not in use for extended periods.

6. MAINTENANCE

Proper maintenance ensures the longevity and performance of your adapter:

- **Cleaning:** Disconnect the adapter from the power outlet and the device before cleaning. Use a dry, soft cloth to wipe the surface. Do not use liquid cleaners.
- **Storage:** Store the adapter in a cool, dry place when not in use. Avoid wrapping the cable too tightly around the adapter to prevent damage.
- **Cable Care:** Do not bend, twist, or pull the cable excessively. Avoid placing heavy objects on the cable.

7. TROUBLESHOOTING

If you encounter issues with your UpBright AC/DC Adapter, consider the following:

- **No Power/Not Charging:**
 - Ensure the adapter is securely plugged into both the wall outlet and the robot vacuum/dock.
 - Verify the wall outlet is functional by testing it with another device.
 - Check the adapter cable for any visible damage or breaks.
 - Confirm that the adapter's output specifications (19VDC, 600mA) match the requirements of your robot vacuum. An adapter with insufficient amperage (e.g., 500mA instead of 600mA) may not work correctly.
- **Unstable Connection:**
 - If the barrel connector feels loose or disconnects easily, ensure it is fully inserted.
 - Verify that the connector size is appropriate for your device's port. A connector that is too long or too short may not make stable contact.
- **Overheating:**
 - It is normal for the adapter to feel slightly warm during operation. However, if it becomes excessively hot, disconnect it immediately and cease use.
 - Ensure the adapter is in a well-ventilated area and not covered.

8. SPECIFICATIONS

Feature	Specification
Model Number	GSCU0600S019V12E
Input Voltage	100-240VAC, 50/60Hz
Output Voltage	19VDC
Output Amperage	0.6A (600mA) - 1A
Wattage	11.4 watts
Connector Type	Barrel Connector

Protection Features	OVP, OCP, SCP
Product Dimensions	4 x 3 x 2 inches
Item Weight	3.98 ounces
