Satco S9580

Satco S9580 4.5T10/LED/E26/27K/120V Warm White LED Bulbs Instruction Manual

Model: S9580 (Part Number: 43222-5937)

Brand: Satco

PRODUCT OVERVIEW

This manual provides detailed instructions for the Satco S9580 4.5T10/LED/E26/27K/120V Warm White LED Bulbs. These energy-efficient LED bulbs are designed for various indoor lighting applications, offering a warm white light at 2700 Kelvin. They are suitable for fixtures requiring a T10 shape bulb with an E26 medium screw base.

A clear image of the Satco S9580 T10 LED bulb, showcasing its transparent glass casing and the internal LED filaments. The bulb features a standard E26 screw base.

Lighting Facts Per Bulb	
Brightness	430 lumens
Estimated Yearly Energy Cost \$0.54	
Based on 3 hrs/day, 11¢/kWh	
Cost depends on rates and use	
Life	
Based on 3 hrs/day	13.7 years
Light Appearance	
Warm Cool	
2700K	
Energy Used	4.5 watts

A label detailing the 'Lighting Facts' for the Satco S9580 LED bulb. It indicates a brightness of 430 lumens, an estimated yearly energy cost of \$0.54 (based on 3 hrs/day, 11¢/kWh), a life expectancy of 13.7 years (based on 3 hrs/day), a warm light appearance at 2700K, and energy usage of 4.5 watts.

Applications & Industries

Residential & Home

From saving money by changing your bulbs to LED in the home to lighting fixtures in and around your home, Satco is a complete source for residential lighting needs.

From finding the perfect downlights and cove lighting to complement your kitchen renovation, to accenting your dining room or living rooms with fixtures from Satco's decorative line, NUVO, Satco has what you need to light your home.

In the garage and over the Dad's workbench, by the pool, and on the deck, your driveway entry posts and outdoor sconces, floodlights, and security lights are all available from Satco. Satco even carries the decorative bulbs you need to replace any outages in your Great Aunt's antique chandelier.

SPECIFICATIONS

Attribute	Value
Brand	Satco
Model Number	43222-5937
Light Type	LED
Wattage	4.5 watts
Incandescent Equivalent Wattage	40 Watts
Bulb Base	E27 (compatible with E26 sockets)
Light Color	Warm White
Color Temperature	2700 Kelvin
Brightness	430 Lumen
Voltage	120 Volts
Shape	T10
Indoor/Outdoor Usage	Indoor
Average Life	15,000 Hours
Unit Count	6 Count
Item Weight (6-pack)	2.12 pounds
Product Dimensions (Package)	13 x 7 x 9 inches
UPC	797267205704

SETUP AND INSTALLATION

Follow these steps for safe and proper installation of your Satco LED bulbs:

- Safety Precautions:** Before beginning installation, ensure the power to the light fixture is turned off at the circuit breaker or fuse box. Allow any existing bulb to cool down completely before handling.
- Inspect Fixture:** Verify that your light fixture is compatible with E26/E27 medium screw base bulbs and the specified voltage (120V).
- Remove Old Bulb:** Carefully unscrew the old bulb from the socket by turning it counter-clockwise. Dispose of the old bulb according to local regulations.
- Install New Bulb:** Gently screw the Satco LED bulb into the socket by turning it clockwise until it is snug. Do not overtighten.
- Restore Power:** Once the bulb is securely installed, restore power to the fixture from the circuit breaker or fuse box.
- Test:** Turn on the light switch to confirm the bulb is functioning correctly.

Note: These bulbs are designed for indoor use only and are not dimmable unless specified by your fixture's compatibility or a separate dimmable version of this product.

OPERATING INSTRUCTIONS

The Satco S9580 LED bulbs are designed for simple and efficient operation:

- **Instant On:** These LED bulbs provide full brightness immediately upon switching them on, with no warm-up time required.
- **Energy Efficiency:** Operating at only 4.5 watts while providing the equivalent light output of a 40-watt incandescent bulb, these LEDs significantly reduce energy consumption.
- **Long Lifespan:** With an average life of 15,000 hours, these bulbs offer extended performance, reducing the frequency of replacements.

MAINTENANCE

Minimal maintenance is required for your Satco LED bulbs to ensure optimal performance and longevity:

- **Cleaning:** Ensure the power is off and the bulb is cool before cleaning. Gently wipe the bulb with a soft, dry cloth. Do not use liquid cleaners or abrasive materials, as they may damage the bulb's surface or internal components.
- **Replacement:** When the bulb reaches the end of its lifespan, follow the "Setup and Installation" steps to safely replace it with a new compatible LED bulb.
- **Storage:** If storing unused bulbs, keep them in their original packaging in a cool, dry place to protect them from damage.

TROUBLESHOOTING

If you encounter any issues with your Satco LED bulbs, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
Bulb does not light up	◦ No power to the fixture. ◦ Bulb not screwed in properly. ◦ Bulb is faulty. ◦ Fixture issue.	◦ Check circuit breaker/fuse. ◦ Ensure bulb is securely tightened. ◦ Try the bulb in another working fixture. ◦ Consult an electrician if fixture is suspected.
Bulb flickers	◦ Loose connection. ◦ Incompatible dimmer switch (if applicable). ◦ Voltage fluctuations.	◦ Ensure bulb is tightly screwed in. ◦ These bulbs are generally not dimmable. If flickering occurs with a dimmer, remove the dimmer or use a non-dimmable switch. ◦ Consult an electrician for voltage issues.

Light output is too low	◦ Incorrect bulb for fixture. ◦ Dust or debris on bulb/fixture.	◦ Verify the bulb's lumen output meets your needs. ◦ Clean the bulb and fixture thoroughly (power off first).
