

URPOWER MH501

URPOWER MH501 Ultrasonic Cool Mist Humidifier

USER MANUAL

Model: MH501 / URP0007

Introduction

The URPOWER MH501 is a 5-liter ultrasonic cool mist humidifier designed to improve air quality and comfort in various indoor environments. This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your humidifier. Please read it thoroughly before first use and retain it for future reference.

Key Features:

- 5-Liter Large Capacity Water Tank
- Whisper-Quiet Ultrasonic Operation
- Adjustable Mist Output Modes (Low, Medium, High)
- Automatic Waterless Shut-Off Function
- Integrated Filter for Water Purification

Figure 1: URPOWER MH501 Humidifier in various room settings, illustrating its versatility for use in living rooms, bedrooms, offices, baby rooms, and yoga studios.

Important Safety Instructions

- Read all instructions before using the appliance.
- Always place the humidifier on a firm, flat, waterproof surface at least 6 inches (15 cm) away from walls and appliances.
- Do not place the humidifier directly on carpet, towels, or other absorbent surfaces.
- Do not operate the humidifier without water in the tank.
- Always unplug the humidifier before filling, cleaning, or moving it.
- Keep the humidifier out of reach of children and pets.
- Do not add essential oils directly into the water tank as this may damage the unit.
- Use only clean, cool tap water. Distilled or demineralized water is recommended to prevent white dust.
- Do not block the mist outlet or air intake.

Package Contents

- URPOWER MH501 Humidifier Unit
- Cleaning Brush
- Instruction Manual (this document)

Product Overview

Familiarize yourself with the components of your URPOWER MH501 Humidifier:

Figure 2: Labeled diagram of the URPOWER MH501 Humidifier, highlighting key components such as the Mister Outer, Lift Handle, Water Tank, Built-in Filter, Base, On/Off Switch, and Mist Control.

1. **Mister Outer:** Where the cool mist is dispersed.
2. **Lift Handle:** For easy removal and carrying of the water tank.
3. **Water Tank:** Holds up to 5 liters of water.
4. **Built-in Filter:** Helps purify the water.

5. **Base:** Contains the ultrasonic transducer and control panel.
6. **On/Off Switch / Mist Control:** Touch-sensitive button to power on/off and adjust mist levels.

Setup

1. **Unpack:** Carefully remove all packaging materials and place the humidifier on a flat, stable, and waterproof surface.
2. **Remove Water Tank:** Lift the water tank from the base using the lift handle.
3. **Fill Water Tank:** Invert the water tank and unscrew the cap. Fill the tank with clean, cool tap water. Distilled or demineralized water is recommended to minimize mineral buildup and "white dust." Securely screw the cap back on.
4. **Place Tank on Base:** Place the filled water tank back onto the humidifier base, ensuring it is seated correctly.
5. **Connect Power:** Plug the power cord into a standard electrical outlet. The humidifier is now ready for operation.

Operating Instructions

The URPOWER MH501 features a simple touch control for operation.

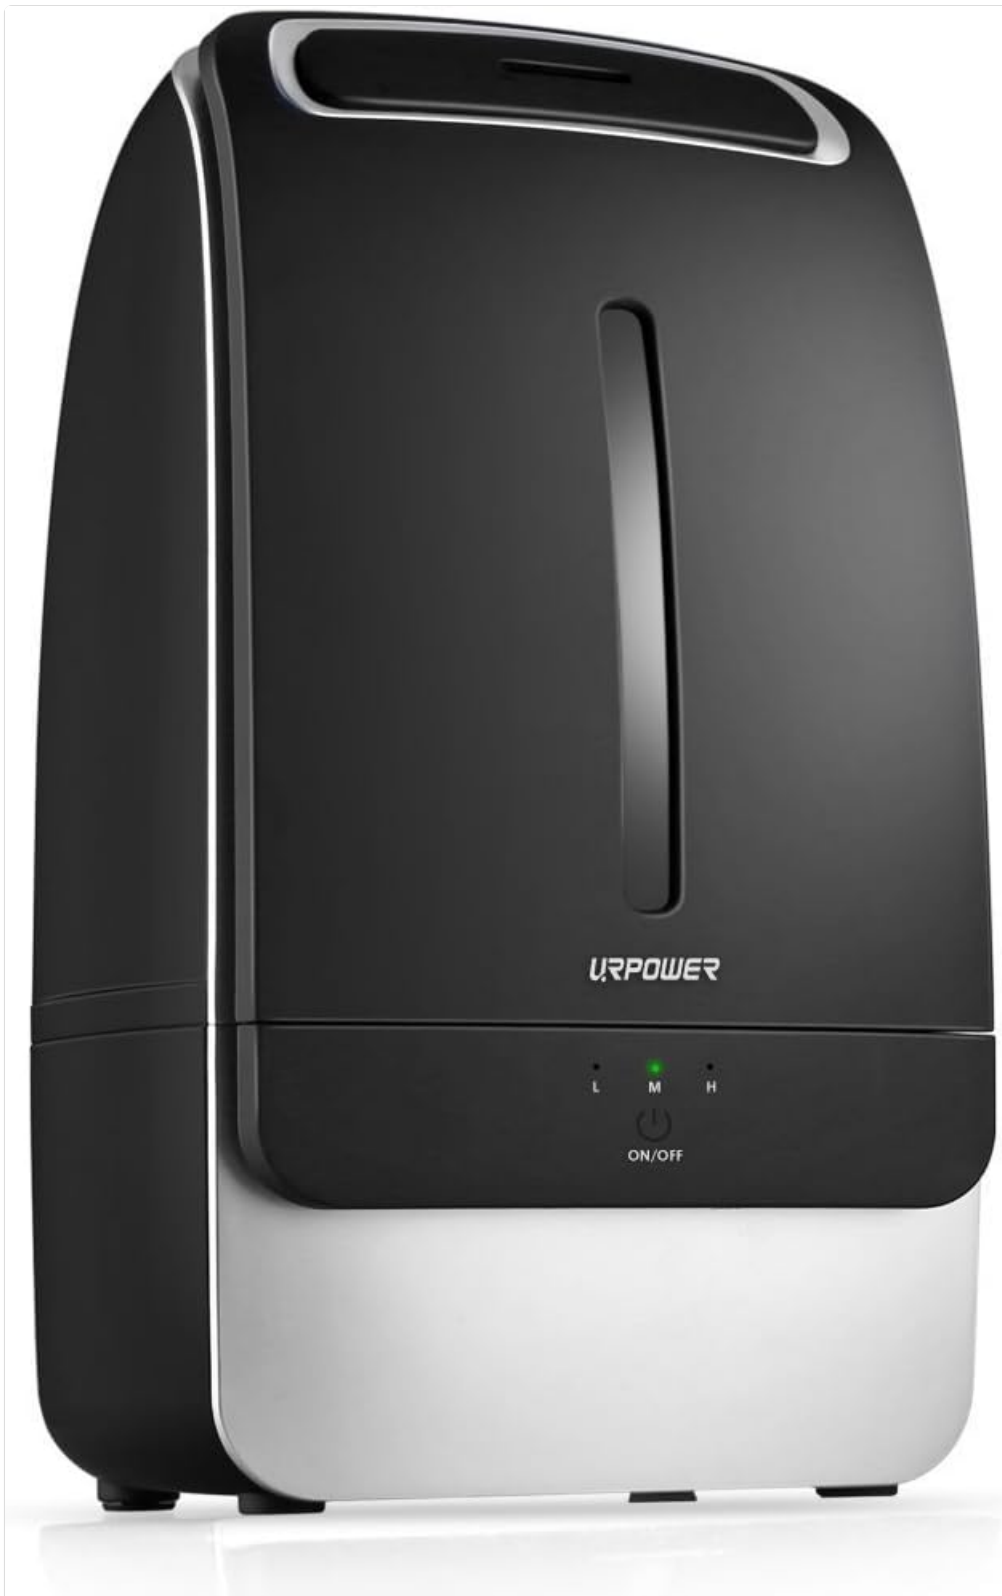

Figure 3: Front panel of the URPOWER MH501 Humidifier, displaying the touch-sensitive power button and LED indicators for Low (L), Medium (M), and High (H) mist settings.

1. **Power On:** Touch the "ON/OFF" button once to turn on the humidifier. It will start operating on the Low mist setting (indicated by the 'L' LED).
2. **Adjust Mist Level:**
 - Touch the "ON/OFF" button again to switch to Medium mist ('M' LED).
 - Touch the "ON/OFF" button a third time to switch to High mist ('H' LED).
 - Touch the "ON/OFF" button a fourth time to cycle back to Low mist.
3. **Sleep Mode:** To activate sleep mode, press and hold the "ON/OFF" button for 3 seconds. The indicator lights will turn off, and the humidifier will continue operating at the current mist setting without any annoying beeps. Press and hold again to

exit sleep mode and restore indicator lights.

4. **Power Off:** To turn off the humidifier, cycle through the mist settings until the unit powers off, or unplug it from the power outlet.
5. **Automatic Shut-Off:** The humidifier will automatically shut off when the water level in the tank is too low. The indicator light will change to red. Refill the water tank to resume operation.

Figure 4: The URPOWER MH501 Humidifier demonstrating its Sleep Mode feature, which turns off indicator lights for an undisturbed environment, ideal for meditation or sleep.

Maintenance

Regular cleaning is crucial for optimal performance and hygiene. Always unplug the unit before cleaning.

Daily Maintenance:

- Empty any remaining water from the tank and base.
- Rinse the water tank and base with fresh water.
- Wipe the base and water tank dry with a clean cloth.

Weekly Maintenance (or more often with hard water):

1. Descaling the Water Tank:

- Pour 2-4 tablespoons of white vinegar into the water tank.
- Fill the tank with water and let it sit for 30 minutes.
- Empty the tank and rinse thoroughly with clean water.

2. Descaling the Base & Ultrasonic Transducer:

- Pour 1-2 tablespoons of white vinegar into the water reservoir of the base.
- Let it soak for 5-10 minutes.
- Use the provided cleaning brush to gently clean the ultrasonic transducer and other areas in the base.
- Rinse the base thoroughly with clean water, ensuring no vinegar residue remains.

3. **Filter Cleaning:** The built-in filter can be rinsed under running water. If significant mineral buildup occurs, soak it in a vinegar solution for 10-15 minutes, then rinse thoroughly.

Storage: When not in use for extended periods, clean the humidifier thoroughly, ensure all parts are dry, and store it in a cool, dry place.

Troubleshooting

Problem	Possible Cause	Solution
No mist or very little mist	- No water in the tank. - Water tank not properly seated. - Mineral buildup on ultrasonic transducer. - Mist outlet blocked.	- Refill water tank. - Ensure water tank is correctly placed on the base. - Clean the ultrasonic transducer as per maintenance instructions. - Clear any obstructions from the mist outlet.
Water leaking from the unit	- Water tank cap not securely tightened. - Humidifier placed on an uneven surface. - Cracked water tank.	- Tighten the water tank cap firmly. - Move the humidifier to a flat, stable surface. - Contact customer support if the tank is damaged.
Unusual odor	- New unit odor (will dissipate). - Dirty water or tank. - Stale water.	- Operate in a well-ventilated area for a few hours. - Clean the water tank and base thoroughly. Use fresh water. - Replace water daily.
White dust around the unit	Using hard water (high mineral content).	- Use distilled or demineralized water. - Clean the unit regularly to remove mineral deposits.
