6.2 Storage

Store the device in a clean, dry, and dust-free environment. Avoid direct sunlight and extreme temperatures. Keep it separate from other silicone products to prevent material degradation.

7. Troubleshooting

- **Device not turning on:** Ensure the device is fully charged. If the battery is depleted, it may take a few minutes of charging before it responds.
- **Device not vibrating:** Check if the device is powered on. If it is, try cycling through the vibration programs. If still unresponsive, ensure it is fully charged.
- **Charging issues:** Ensure the magnetic charging cable is securely connected to both the device and the power source. Check if the USB power adapter is functioning correctly. Clean the charging contacts on both the device and the cable to remove any debris.
- **Weak vibrations:** The battery may be low. Charge the device fully.
