

Alen Flex-Pure

Alen BreatheSmart Flex HEPA Air Purifier User Manual

Model: Flex-Pure | Brand: Alen

IMPORTANT SAFETY INSTRUCTIONS

- Please read and understand all safety instructions before operating your Alen BreatheSmart Flex Air Purifier. Failure to follow these instructions may result in electric shock, fire, or serious injury.
- Always unplug the air purifier before moving, cleaning, or replacing the filter.
 - Do not operate the unit with a damaged cord or plug. If the cord or plug is damaged, contact Alen customer support.
 - Keep the power cord away from heated surfaces.
 - Do not use the air purifier in wet or damp environments, such as bathrooms or laundry rooms.
 - Do not insert fingers or foreign objects into any openings of the air purifier.
 - This appliance has a polarized plug (one blade is wider than the other). To reduce the risk of electric shock, this plug is intended to fit into a polarized outlet only one way. If the plug does not fit fully into the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.
 - The product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

PRODUCT OVERVIEW

The Alen BreatheSmart Flex is a compact and efficient HEPA air purifier designed to improve indoor air quality by capturing allergens, dust, mold, and pet odors. It is suitable for rooms up to 1400 sq. ft. and features a quiet operation.

Figure 1: Front view of the Alen BreatheSmart Flex Air Purifier. This image shows the sleek white design of the unit, highlighting its modern aesthetic.

Figure 2: Dimensions of the Alen BreatheSmart Flex Air Purifier. The image indicates the unit's height of 25 inches, width of 15 inches, and depth of 8.5 inches, providing a clear understanding of its physical size.

Key Components:

- **Control Panel:** Touch-sensitive interface for operating the unit.
- **Air Intake Vents:** Located on the sides, where air enters the purifier.
- **Air Outlet Grille:** Located on the top, where purified air exits.
- **HEPA Pure Filter:** Internal filter system for capturing airborne particles.
- **Power Cord:** Connects the unit to an electrical outlet.

SETUP

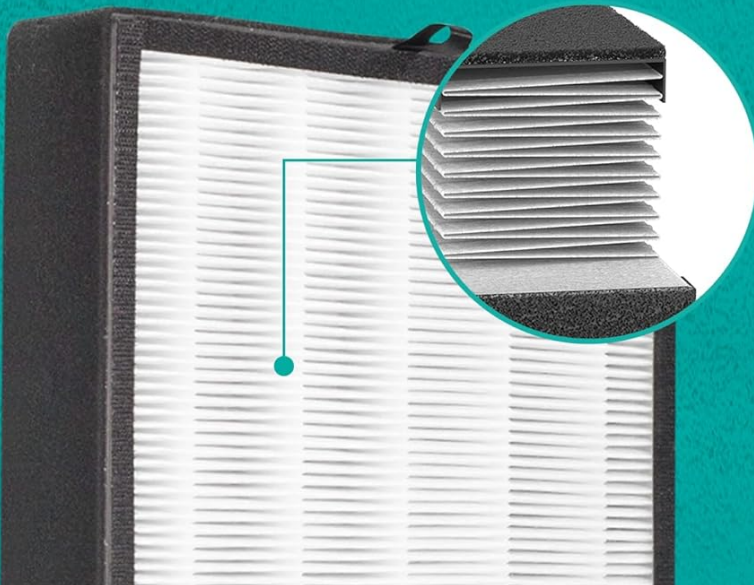

Follow these steps to set up your Alen BreatheSmart Flex Air Purifier:

1. **Unpack the Unit:** Carefully remove the air purifier from its packaging. Retain the packaging for future storage or transport.

2. **Remove Filter Packaging:** Open the back cover of the air purifier. The HEPA filter inside is typically wrapped in protective plastic. Remove this plastic packaging from the filter.

BREATHESMART FLEX PURE, TRUE HEPA FILTER

Long-lasting (H13) filters remove 99.9% of airborne contaminants down to 0.1 microns, including allergens and aerosolized viruses.

- Aerosolized Viruses
- Dust
- Allergens
- Pet Fur
- Bacteria
- Dander
- Mold
- Fungi

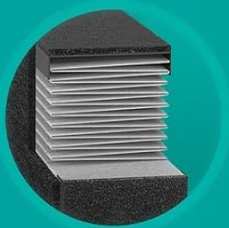

Figure 3: Close-up of the HEPA filter, illustrating its multi-layered construction designed to capture various airborne contaminants including viruses, dust, allergens, pet fur, bacteria, dander, mold, and fungi.

3. **Install the Filter:** Place the unwrapped filter back into the unit, ensuring it is seated correctly. Close the back cover securely.
4. **Position the Air Purifier:** Place the unit on a flat, stable surface. For optimal performance, ensure there is at least 6 inches of space around all sides of the air purifier to allow for proper airflow.

CHOOSE THE PERFECT FLEX HEPA FILTER FOR YOUR LIFESTYLE

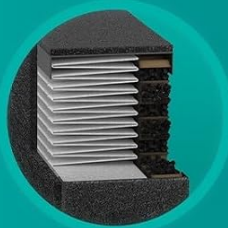

PURE

Ideal for capturing allergens, dust, mold, and germs

FRESH

Ideal for absorbing wildfire smoke, secondhand smoke, harmful chemicals and VOCs

ODOR

Ideal for neutralizing stubborn household odors and capturing pet dander, allergens, dust, mold, and germs

SMOKE

Ideal for absorbing noxious gases from smoke, harmful chemicals and VOCs and capturing allergens, dust, mold, and germs

Figure 4: The Alen BreatheSmart Flex air purifier positioned in a bedroom, demonstrating its suitability for personal spaces and its ability to blend with home decor.

5. **Connect to Power:** Plug the power cord into a standard 120V AC electrical outlet.

OPERATING INSTRUCTIONS

The Alen BreatheSmart Flex features a user-friendly touch control panel on its top surface.

PURE AIR FOR LIFE

Alen's signature color ring signals what its sensors are detecting in your Utopiair™. Watch as your Alen kicks into gear when conditions change to give you purity that never stops working.

The Filter Indicator has 3 lights:

GREEN

light will be illuminated for most of the life of the filter.

YELLOW

light will be illuminated shortly before your filter should be replaced.

RED

light will be illuminated when it is time to replace the filter.

Figure 5: Detailed view of the Alen BreatheSmart Flex control panel, showing the touch buttons for Filter, Timer, Power, Speed, and Lock, along with the filter indicator lights (Green, Yellow, Red).

Control Panel Functions:

- **Power Button ():** Touch to turn the unit ON or OFF.
- **Speed Button (↔):** Touch to cycle through fan speeds (1, 2, 3, Turbo). Higher speeds provide faster air purification but may produce more noise.
- **Timer Button ():** Touch to set the operating timer for 2, 4, or 12 hours. The unit will automatically turn off after the selected time.
- **Lock Button ():** Press and hold for 3 seconds to lock or unlock the control panel. This prevents accidental changes to settings.
- **Filter Indicator ():**
 - **Green Light:** Filter is in good condition.
 - **Yellow Light:** Filter is nearing the end of its life and should be replaced soon.
 - **Red Light:** Filter needs immediate replacement.

For optimal air quality, it is recommended to operate the air purifier continuously, especially in areas with high levels of pollutants or allergens.

MAINTENANCE

Regular maintenance ensures the longevity and efficiency of your Alen BreatheSmart Flex Air Purifier.

Filter Replacement:

The HEPA Pure filter typically lasts 9-12 months depending on usage and air quality. Replace the filter when the Filter Indicator light turns red.

1. **Unplug the Unit:** Always unplug the air purifier from the power outlet before performing any maintenance.
2. **Open Back Cover:** Gently press the latch on the top of the back cover and pull it open.
3. **Remove Old Filter:** Grasp the tabs on the old filter and pull it out of the unit. Dispose of the used filter responsibly.
4. **Insert New Filter:** Remove the new filter from its protective packaging. Insert the new filter into the unit, ensuring the airflow arrows on the filter align with the arrows on the unit.

Figure 6: A close-up image showing the Alen BreatheSmart Flex filter being inserted into the air purifier, illustrating the proper orientation and fit for filter replacement.

5. **Close Cover:** Close the back cover until it clicks securely into place.
6. **Reset Filter Life Indicator:** Plug the unit back in. With the unit powered ON, press and hold the **Filter** button for 5 seconds until the red light turns green. This resets the filter life monitor.

Cleaning the Unit:

- Wipe the exterior of the air purifier with a soft, dry cloth as needed.
- Do not use abrasive cleaners, solvents, or harsh chemicals, as these may damage the surface.
- Do not wash the filter. The filter is not washable and must be replaced.

TROUBLESHOOTING

Refer to the table below for common issues and their solutions.

Problem	Possible Cause	Solution
Unit does not turn on.	Not plugged in; power outage; damaged cord/plug; control panel locked.	Ensure unit is securely plugged into a working outlet. Check circuit breaker. Inspect cord/plug for damage (do not use if damaged). Unlock control panel by holding the Lock button for 3 seconds.
Airflow is weak or no air comes out.	Filter is clogged; filter packaging not removed; air intake/outlet blocked.	Check filter indicator light and replace filter if red. Ensure all plastic packaging is removed from the filter. Clear any obstructions from air intake vents and outlet grille.
Unusual noise.	Filter not seated correctly; foreign object inside; unit on uneven surface.	Unplug and re-seat the filter. Check for any foreign objects inside the unit (do not insert hands). Place the unit on a flat, stable surface.
Filter indicator light remains red after filter replacement.	Filter life indicator not reset.	With the unit ON, press and hold the Filter button for 5 seconds until the light turns green.
Air quality does not seem to improve.	Incorrect filter type; room size too large; excessive pollutants; unit not running continuously.	Ensure you are using the correct Alen Flex filter type for your needs. Verify the room size is within the unit's capacity (1400 sq. ft. per hour). Run the unit continuously or at a higher fan speed. Address source of pollutants if possible.

SPECIFICATIONS

Feature	Detail
Brand	Alen
Model Number	Flex-Pure
