SAFETY INFORMATION

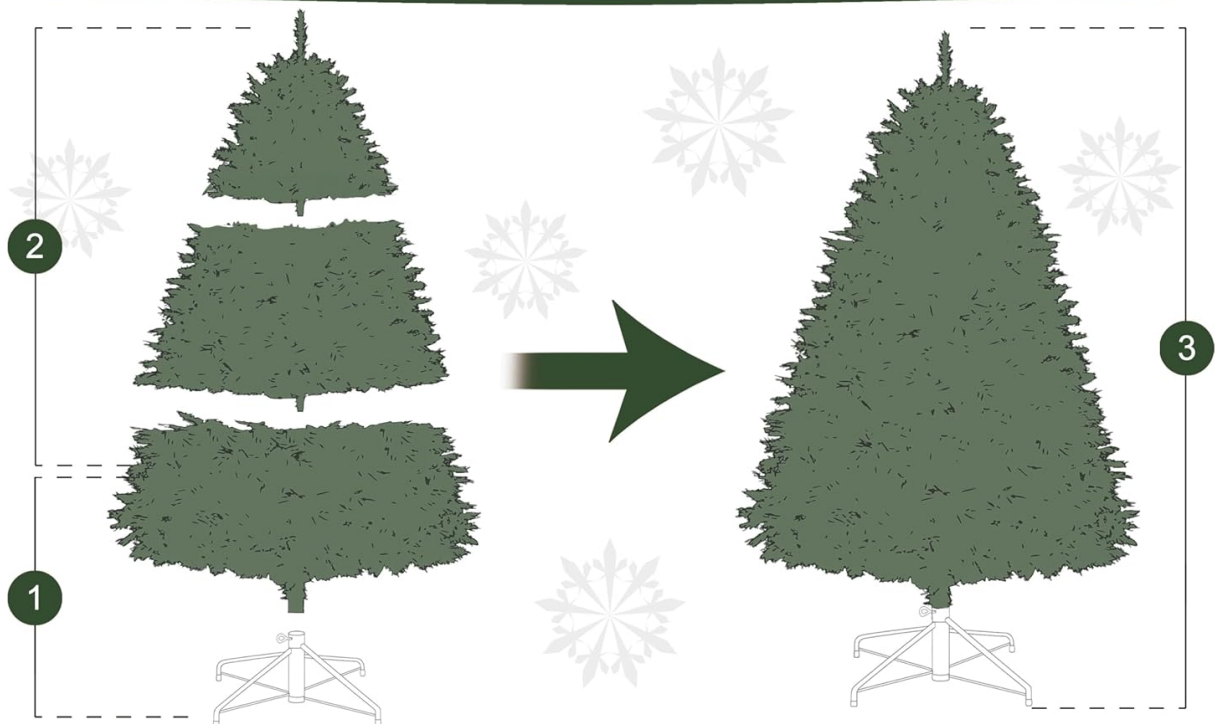

- This product is intended for **indoor use only**.
- The tree is constructed with **flame-retardant** and **hypoallergenic materials**, ensuring safety for families and pets.
- Ensure all electrical connections are secure and follow local electrical codes.
- Do not overload electrical outlets.
- Keep children and pets away from the tree during assembly and ensure the stand is stable.

SETUP INSTRUCTIONS

Your Puleo International Christmas tree is designed for quick and easy assembly. It features hinged branches and letter-coded sections for straightforward setup.

1. **Assemble the Stand:** Unfold the sturdy metal stand and insert the provided screws to secure it. Ensure the stand is placed on a flat, stable surface.
2. **Insert Bottom Section:** Carefully insert the bottom section of the tree into the assembled stand. Tighten the screws on the stand to firmly hold the tree section.
3. **Connect Middle and Top Sections:** Proceed to insert the middle and top sections, aligning the letter codes (e.g., A to B, B to C). Ensure all sections are firmly connected.
4. **Connect Lights:** Plug the light cords from each section into the corresponding connectors. Ensure all connections are secure.
5. **Fluff the Branches:** Gently spread out each branch and individual tip to achieve maximum fullness and a realistic appearance. This step is crucial for the tree's aesthetic.

Easy Assembly & Fluffing

1

Connect the base to the bottom section

2

Secure the remaining sections firmly

3

Fluff the branches for maximum fullness

OPERATING INSTRUCTIONS

Your Puleo International Christmas tree comes pre-strung with 350 UL-certified clear lights. Simply plug the main power cord into a standard electrical outlet after assembly.

- The lights are designed for even coverage and will remain lit even if one bulb fails.
- No additional light stringing is required.

Pre-Lit Clear Lights

350 Bulbs

MAINTENANCE

To ensure the longevity of your Christmas tree, follow these maintenance guidelines:

- **Cleaning:** Dust the branches gently with a soft cloth or duster. Do not use harsh chemicals or abrasive cleaners.
- **Light Replacement:** If a section of lights goes out, check for loose bulbs or a blown fuse in the plug. Replacement bulbs and fuses are typically included.
- **Storage:** The hinged branch design allows the tree to fold flat for compact off-season storage. Disassemble the tree by reversing the assembly steps and store it in its original box or a suitable storage bag in a cool, dry place.

TROUBLESHOOTING

If you encounter issues with your tree, consider the following:

- **Lights Not Working:** Ensure all sections are properly connected and the main plug is securely in the outlet. Check for any loose or broken bulbs. Replace any faulty bulbs or fuses.
- **Tree Instability:** Verify that the metal stand is fully extended and the securing screws are tightened. Ensure the tree is on a level surface.
- **Sparse Appearance:** Dedicate sufficient time to fluffing each branch and individual tip during assembly. This significantly impacts the tree's fullness.

SPECIFICATIONS

Feature	Detail
Brand	Puleo International
Model Number	JMACT-100
Product Dimensions	30"D x 30"W x 90"H (7.5 feet tall)
Material	Polyvinyl Chloride (PVC)
