

Aura B01M7Q1OS4

Aura Frame Digital Photo Frame User Manual

Model: B01M7Q1OS4

INTRODUCTION

This manual provides essential instructions for setting up, operating, and maintaining your Aura Frame digital photo frame. Please read this manual thoroughly before using the device to ensure proper functionality and longevity.

PACKAGE CONTENTS

- Aura Frame Digital Photo Frame
- Power Adapter
- Quick Start Guide (if applicable)

SETUP

1. Unpacking and Placement

Carefully remove the Aura Frame from its packaging. Place the frame on a stable, flat surface or mount it securely on a wall (if wall-mounting accessories are included and used). Ensure adequate ventilation around the frame.

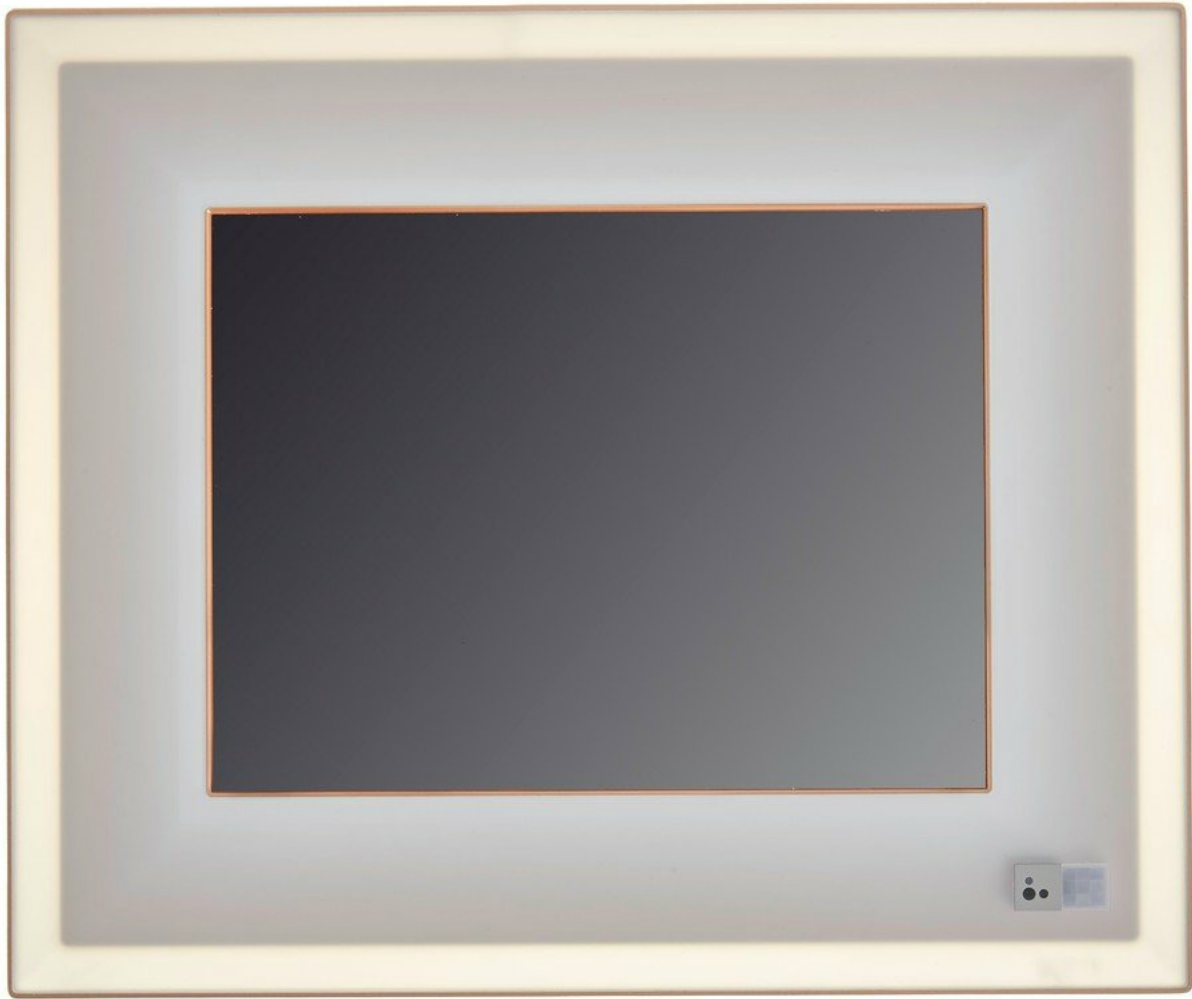

Figure 1: Front view of the Aura Frame. The frame features a dark display screen bordered by a white, illuminated edge, indicating its sleek design and potential for ambient lighting.

2. Power Connection

1. Connect the power adapter to the power input port on the back of the Aura Frame.
2. Plug the power adapter into a standard electrical outlet.
3. The frame will power on automatically.

3. App Installation and Pairing

The Aura Frame requires the Aura app for initial setup and control.

1. Download the Aura app from your device's app store (iOS or Android).
2. Open the Aura app and follow the on-screen instructions to create an account or log in.
3. The app will guide you through connecting your Aura Frame to your Wi-Fi network and pairing it with your account.
4. Once paired, you can begin uploading photos to your frame.

OPERATING THE AURA FRAME

1. Photo Display and Management

- **Automatic Photo Selection:** The Aura Frame is designed to automatically select and display high-quality photos from your connected albums. It prioritizes new photos and those that fit the frame's orientation.
- **Quality Filters:** The frame employs filters to exclude blurry, overly dark, or overly bright images, ensuring only optimal photos are displayed.
- **App Control:** Use the Aura app to manage photo albums, add or remove photos, invite family members to contribute, and adjust display settings.

2. Gesture Control

The Aura Frame features gesture control for basic interactions without touching the device.

- **Change Photo:** Swipe your hand left or right in front of the frame's sensor to manually advance or go back to a photo.
- **View Photo Information:** Refer to the Aura app for detailed gesture instructions and available features.

Figure 2: Side view of the Aura Frame. This image highlights the frame's thin design and the continuous illuminated border, suggesting its modern aesthetic and integrated lighting features.

3. Smart Features

- **Automatic Brightness Adjustment:** The frame automatically adjusts its display brightness to match the ambient light in the room, ensuring optimal viewing conditions.
- **Auto On/Off:** The frame detects when the room lights are off and will automatically turn off its display to avoid distraction and save energy. It will turn back on when lights are detected.

MAINTENANCE

Cleaning the Frame

- Ensure the frame is powered off and unplugged before cleaning.
- Use a soft, dry, lint-free cloth to gently wipe the screen and frame surfaces.
- Do not use liquid cleaners, sprays, or abrasive materials, as these can damage the screen or finish.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Frame does not power on.	Power adapter not connected or faulty outlet.	Ensure the power adapter is securely connected to both the frame and a working electrical outlet. Try a different outlet.
Photos are not displaying.	No photos uploaded, Wi-Fi connectivity issue, or app not paired.	Check the Aura app to ensure photos are uploaded and assigned to the frame. Verify the frame is connected to Wi-Fi. Re-pair the frame with the app if necessary.
Gesture control is unresponsive.	Sensor obstruction or incorrect gesture.	Ensure nothing is blocking the frame's sensors. Perform gestures clearly and at an appropriate distance. Refer to the app for correct gesture techniques.
Frame turns off unexpectedly.	Automatic sleep mode activated due to low light.	This is a normal feature. The frame turns off in dark environments. If it turns off in a well-lit room, check power connection or contact support.

SPECIFICATIONS

Model: B01M7Q1OS4

Brand: Aura

Power Source: Corded Electric

Control Method: App, Gesture

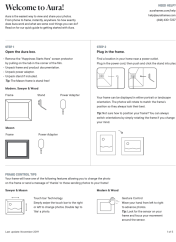

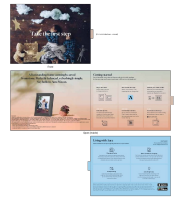

Manufacturer: Pushd

First Available: September 27, 2016

WARRANTY AND SUPPORT
