SETUP & INSTALLATION

- 1. Measure Your Armrests:** Before installation, ensure your chair armrests are between 6 to 10.5 inches in length. The Aloudy pads measure 9.5" x 4.5" x 1.5".
- 2. Position the Pad:** Align one armrest pad with the top surface of your chair's armrest.
- 3. Stretch and Secure:** Gently stretch the pad over the armrest, ensuring it fits snugly and securely around the armrest. The elastic will help hold it in place.
- 4. Repeat for Second Pad:** Follow the same steps for the second armrest pad.
- 5. Adjust for Comfort:** Once installed, you can slightly adjust the position of the pads to find the most comfortable placement for your arms and elbows.

MAINTENANCE

To maintain the cleanliness and longevity of your Aloudy armrest pads:

- **Removing the Cover:** Locate the invisible zipper on the cover of each pad. Unzip and carefully remove the velvet polyester cover from the memory foam insert.
- **Washing Instructions:** The fabric cover is machine washable. Use a gentle cycle with cold water and a mild detergent.
- **Drying:** Air dry the cover or tumble dry on a low heat setting. Do not bleach or iron.
- **Memory Foam Care:** The memory foam insert itself should not be washed. If it gets dirty, spot clean with a damp cloth and mild soap, then allow it to air dry completely before reinserting into the cover.
- **Reassembly:** Once the cover is dry, carefully place it back over the memory foam insert and zip it closed.

TROUBLESHOOTING

- **Pads don't fit:** Ensure your chair armrests are within the specified size range (6 to 10.5 inches in length). If your

armrests are outside this range, consider checking for alternative sizes offered by Aloudy.

- **Pads slip:** Ensure the elasticized opening is fully stretched and securely wrapped around the armrest. Adjust the pad to ensure a snug fit.
- **Discomfort persists:** While these pads are designed for pressure relief, individual comfort can vary. Ensure proper posture and ergonomic setup of your entire workstation.
