Fancii FC-AM2PH

Fancii Mini Personal Humidifier Replacement Filters (Model FC-AM2PH)

User Manual

INTRODUCTION

This manual provides essential information for the proper use and maintenance of your Fancii Mini Personal Humidifier Replacement Filters. These filters are specifically designed for compatibility with the Fancii Mini Personal Humidifier, Model FC-AM2PH. Adhering to these instructions will help ensure the longevity and optimal performance of your humidifier.

Compatible with Model FC-AM2PH

PACKAGE CONTENTS

Upon opening your package, you should find the following items:

- 5 x Fancii Mini Personal Humidifier Replacement Filters

Please note that the humidifier itself is not included with this filter pack.

INSTALLATION INSTRUCTIONS

Follow these steps to correctly install a new replacement filter into your Fancii Mini Personal Humidifier (Model FC-AM2PH):

1. **Power Off and Unplug:** Ensure your humidifier is turned off and unplugged from its power source before beginning the installation process.
2. **Locate Filter Compartment:** Identify the filter compartment, typically located at the base or within the water tank assembly of your humidifier. Refer to your humidifier's original manual if you are unsure.
3. **Remove Old Filter:** Carefully remove the used filter. It may be slightly damp or discolored. Dispose of the old filter responsibly.
4. **Insert New Filter:** Take a new replacement filter from the pack. Gently insert the new filter into the designated slot. Ensure it is seated firmly and correctly. Do not force the filter into place.
5. **Reassemble Humidifier:** Close the filter compartment and reassemble any parts of the humidifier that were removed.
6. **Power On:** Plug in your humidifier and power it on. It is recommended to allow the new filter to soak in water for a few minutes before operating the humidifier to ensure proper saturation.

Insert replacement filter

(replace every 3 months)

OPERATING CONSIDERATIONS

These replacement filters are designed to work seamlessly with your Fancii Mini Personal Humidifier (Model FC-AM2PH) to produce a fine mist. The filter helps to absorb water and facilitate the humidification process. Ensure the filter is always submerged in water during operation.

MAINTENANCE AND REPLACEMENT

Regular replacement of the filter is crucial for maintaining the efficiency and hygiene of your humidifier. Each filter is designed to last approximately **2 to 3 months**, depending on usage frequency and water quality.

- **Replacement Schedule:** Replace the filter every 2 to 3 months.
- **Signs of Replacement:** Replace sooner if you notice reduced mist output, unusual odors, or visible discoloration/buildup on the filter.
- **Storage:** Store unused filters in a cool, dry place away from direct sunlight.

TROUBLESHOOTING

If you experience issues with your humidifier after filter replacement, consider the following:

- **No Mist or Low Mist Output:**
 - Ensure the new filter is fully saturated with water. It may take a few minutes for the filter to absorb enough water after installation.
 - Check if the filter is installed correctly and seated firmly in its compartment.
 - Verify that the water tank has sufficient water.
- **Unusual Odor:**
 - If a new filter produces an odor, ensure it has been properly soaked.
 - If the odor persists or develops over time, it may indicate the need for an earlier filter replacement or a thorough cleaning of the humidifier's water tank.

SPECIFICATIONS

Brand	Fancii
Compatible Humidifier Model	FC-AM2PH
Part Number (Filters)	FC-AM2PHF
Quantity	5 filters per pack
Filter Lifespan	2 to 3 months (depending on use)
