1. PRODUCT OVERVIEW

The Laura Ashley Kitchen Dish Drying Towel Set, Model 53841, consists of three highly absorbent microfiber polyester towels designed for efficient kitchen use. These towels are crafted to quickly dry dishes, glassware, and countertops, making them a practical addition to any kitchen.

This image displays the Laura Ashley Kitchen Dish Drying Towels in a 3-pack, featuring the Phoebe Green/Sahara Sun design. The towels are folded and stacked, showcasing their texture and color.

2. SETUP

Before first use, it is recommended to wash the towels to enhance their absorbency and remove any manufacturing residues. This initial wash helps to prepare the microfiber material for optimal performance.

1. Unpack the three dish drying towels from their packaging.
2. Machine wash the towels separately or with similar colors before their initial use. Refer to the "Maintenance & Care" section for detailed washing instructions.
3. Ensure towels are completely dry before storing or using.

3. OPERATING INSTRUCTIONS

These dish drying towels are designed for various kitchen tasks requiring high absorbency.

- **Dish Drying:** Use the towel to dry washed dishes, cutlery, and glassware. The microfiber material is effective at absorbing water quickly and leaving surfaces streak-free.
- **Countertop Wiping:** Employ the towel to wipe down kitchen countertops, tables, and other surfaces to absorb spills and moisture.
- **General Kitchen Cleanup:** Suitable for general cleaning tasks where absorbency is required.

For best results, use a clean, dry towel for each task to maximize absorbency and hygiene.

4. MAINTENANCE & CARE

Proper care will extend the life and maintain the performance of your Laura Ashley dish drying towels.

- **Washing:** Machine wash cold with like colors. Use a mild detergent. Avoid using fabric softeners, as they can reduce the absorbency of microfiber. Do not bleach.
- **Drying:** Tumble dry low. Remove promptly to prevent wrinkles. Air drying is also an option and can help preserve the fabric. Do not iron.
- **Storage:** Store clean, dry towels in a well-ventilated area.

5. TROUBLESHOOTING

Issue	Possible Cause	Solution
Reduced Absorbency	Fabric softener residue, oil/grease buildup.	Wash towels without fabric softener. For stubborn residue, wash with a cup of white vinegar.
Linting	New towels, washing with lint-producing fabrics.	Wash towels separately for the first few washes. Avoid washing with cotton towels.
Unpleasant Odor	Towels not dried completely, bacterial growth.	Ensure towels are fully dry before storing. Wash with hot water (if fabric allows) and a small amount of baking soda.

6. SPECIFICATIONS

- **Model Number:** 53841
- **Brand:** Laura Ashley
- **Material:** 100% Polyester Microfiber
- **Dimensions:** 16 x 26 inches (each towel)
- **Quantity:** 3 towels per pack
- **Care Instructions:** Machine Wash Cold, Tumble Dry Low
- **Special Feature:** Super Absorbent, Durable
