41101 TYPE 41101

41101 Type Police Light Flashlight User Manual

Model: 41101 | Brand: 41101 TYPE

Introduction

Thank you for choosing the 41101 Type Police Light Flashlight. This manual provides essential information for the safe and effective use, maintenance, and troubleshooting of your new device. Please read this manual thoroughly before operating the flashlight and retain it for future reference.

Safety Information

WARNING: This device is a powerful flashlight and may include features that require careful handling. Misuse can result in injury or damage.

- Do not shine the light directly into eyes.
- Keep out of reach of children.
- Do not attempt to disassemble or modify the device.
- Use only the specified charging accessories.
- Avoid exposing the device to extreme temperatures or direct sunlight for prolonged periods.
- Dispose of batteries according to local regulations.

Package Contents

Verify that all items are present in the package:

- 41101 Type Police Light Flashlight
- Charging Cable
- User Manual (this document)

Product Features

- **Durable Construction:** Crafted from aviation aluminum with a hard anodized finish for enhanced durability and grip.
- **Powerful Illumination:** Equipped with an LED light source for bright and long-lasting illumination.

- **Rechargeable Battery:** Features a built-in Lithium-Ion battery for convenient recharging.
- **Compact Design:** Delicate and elegant design for easy handling and portability.

Setup

Initial Charge

Before first use, fully charge the flashlight. Connect the charging cable to the flashlight's charging port and plug the other end into a compatible USB power source. The charging indicator light (if present) will show the charging status. A full charge typically takes X hours (*refer to specifications for exact time*).

Operating Instructions

Turning On/Off

Locate the power button, typically found near the head or tail cap of the flashlight. Press the power button once to turn the flashlight ON. Press it again to turn the flashlight OFF.

Changing Modes (if applicable)

If your flashlight has multiple lighting modes (e.g., high, low, strobe), cycle through them by pressing the power button repeatedly while the flashlight is ON. Pause briefly between presses to activate the next mode.

Charging

When the flashlight's brightness diminishes or the charging indicator signals low battery, it's time to recharge. Connect the flashlight to a power source using the provided charging cable. Ensure the connection is secure. The charging process is complete when the indicator light changes color or turns off.

- Input Voltage: 5V DC (standard USB)
- Charging Time: Approximately 3-5 hours (*may vary based on power source and battery depletion*)

Maintenance

Cleaning

Wipe the flashlight's exterior with a soft, damp cloth. Do not use abrasive cleaners or solvents. Ensure the charging port is free of dust and debris.

Storage

Store the flashlight in a cool, dry place away from direct sunlight and extreme temperatures. For long-term storage, it is recommended to charge the battery every 3-6 months to maintain battery health.

Troubleshooting

Problem	Possible Cause	Solution
Flashlight does not turn on.	Battery is depleted.	Charge the flashlight fully.
Light is dim.	Low battery.	Recharge the flashlight.
Flashlight not charging.	Faulty cable or power source.	Try a different charging cable or USB power adapter. Ensure connections are secure.
