- 1 x DBPOWER 12" Portable DVD Player
- 1 x Remote Control
- 1 x AC Power Adapter
- 1 x Car Charger (1.8m)
- 1 x AV Cable (3-in-1)
- 1 x Car Headrest Mount
- 1 x User Manual

## Key Features

- **Extended Playback:** Built-in 2,500 mAh rechargeable lithium battery provides up to 5 hours of continuous playback. Can also be powered by car charger or AC adapter.
- **Wide Multimedia Support:** Plays CD, DVD, CD-R/RW, DVD -R/+R, DVD+RW/-RW, VCD, SVCD (not Blu-ray). Supports USB drives and SD cards (up to 32GB) for MP3/WMA/WAV, JPEG, MPEG2/AVI/DIVX files.

- **Versatile Swivel Screen:** 10" TFT-LCD display (1024\*600 resolution) with 270-degree rotation and 180-degree flip for optimal viewing angles. Easily attaches to car headrests.
- **Multiple Connectivity Options:** AV output allows connection to a TV for larger screen viewing. Two DVD players can be connected via AV to AV cable for synchronized playback.
- **Break-Point Memory:** Features a break-point memory function, allowing the DVD to resume playback from where it was last stopped.

Image: Highlights the break-point memory function, allowing users to resume playback from where they left off.

## Setup Guide

### Initial Power Up

1. Before first use, fully charge the portable DVD player using the provided AC power adapter. The charging indicator light will change when fully charged.
2. To power on, slide the ON/OFF switch to the "ON" position. The DBPOWER logo will appear on the screen.

### Inserting a Disc

1. Gently open the disc cover by pressing the "OPEN" button or sliding the latch.
2. Place your DVD or CD onto the disc spindle with the label side facing up. Ensure the disc is seated correctly.
3. Close the disc cover firmly until it clicks into place. The player will begin loading the disc automatically.

## Operating Instructions

### Basic Playback Controls

The player features intuitive controls on the unit and via the remote control:

- **PLAY/PAUSE:** Press to start or pause playback.
- **STOP:** Stops disc playback.
- **PREV/NEXT:** Skips to the previous or next chapter/track.
- **REW/FF:** Fast forward or rewind playback.
- **VOL+/-:** Adjusts the volume level.
- **MODE:** Switches between DVD, USB, and SD card modes.
- **SETUP:** Accesses the system settings menu.

## Connecting to External Devices

The player offers versatile connectivity:

- **AV OUT:** Use the provided AV cable to connect the player's AV OUT port to a TV's AV IN ports (Yellow for video, White/Red for audio) to display content on a larger screen.
- **AV IN:** Connect external devices (e.g., game consoles, other DVD players) to the player's AV IN ports to display their content on the portable DVD player's screen.

## Using USB/SD Card

Insert a USB drive into the USB port or an SD card into the CARD slot. Use the MODE button to select the corresponding input. The player supports various media formats for playback.

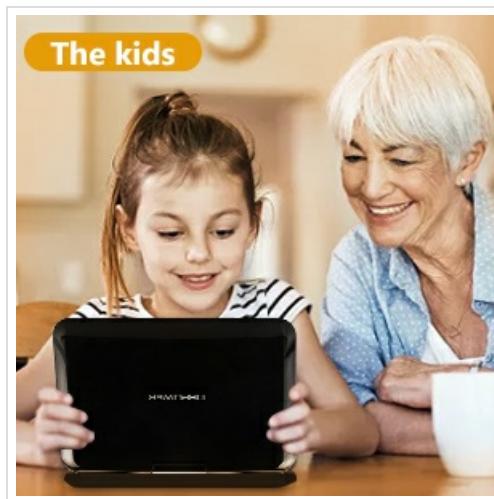

Image: Focus on the USB and SD card input ports for multimedia playback.

## Swivel Screen Functionality

The 10" screen can be rotated 270 degrees and flipped 180 degrees. This allows for flexible viewing angles, making it ideal for use in various settings, including mounting on a car headrest.

## SUITABLE FOR CAR HEADREST MOUNT

**270 degree rotation and 180 degrees flip**

Image: Demonstrates the player's adaptability for in-car entertainment with its swivel screen.

## Maintenance

### Cleaning

To maintain the player's performance and appearance:

- Wipe the screen and exterior with a soft, dry cloth. Avoid abrasive cleaners.
- For discs, use a soft, lint-free cloth to wipe from the center outwards.

### Battery Care

The portable DVD player is equipped with a Lithium Ion battery. To prolong battery life:

- Fully charge the battery before first use.
- Avoid completely draining the battery frequently.
- If storing for an extended period, charge the battery to about 50% and store in a cool, dry place.

## Troubleshooting

Problem	Possible Cause	Solution
No Power	Battery drained; Power adapter not connected.	Charge the battery; Ensure power adapter is securely connected.
No Disc Detected	Disc inserted incorrectly; Disc is dirty or scratched; Unsupported disc format.	Reinsert disc correctly; Clean or replace disc; Check disc format compatibility.
No Sound	Volume too low; Mute function activated; External speakers/headphones not connected properly.	Increase volume; Deactivate mute; Check connections of external audio devices.
Picture Distorted/No Picture on TV	AV cable connected incorrectly; Incorrect TV input selected.	Ensure AV cable is connected to correct ports (AV OUT on player, AV IN on TV); Select correct AV input on TV.
Remote Control Not Working	Batteries are dead or inserted incorrectly; Obstruction between remote and player.	Replace batteries; Ensure clear line of sight to player's IR receiver.
