3. SETUP

3.1 Charging the Smartwatch

Before first use, fully charge your Zeblaze Stratos 3. Connect the magnetic charging base to a USB power source (e.g., computer USB port or a 5V/1A USB adapter). Align the magnetic pins of the charging base with the charging contacts on the back of the smartwatch. The watch screen will indicate charging status.

3.2 Power On/Off

- **Power On:** Press and hold the power button (usually the top right button) for a few seconds until the Zeblaze logo appears.
- **Power Off:** From the watch face, swipe down to access quick settings or navigate to 'Settings' > 'System' > 'Power Off'. Confirm your selection.

3.3 App Pairing

To unlock full functionality, pair your smartwatch with the official Zeblaze app on your smartphone.

1. Download the official Zeblaze app from your smartphone's app store (iOS App Store or Google Play Store).
2. Ensure Bluetooth is enabled on your smartphone.
3. Open the Zeblaze app, create an account or log in.
4. Follow the in-app instructions to add a new device. Select "Zeblaze Stratos 3" from the list of available devices.
5. Confirm the pairing request on both your smartphone and the smartwatch.

4. OPERATING INSTRUCTIONS

4.1 Navigation

- **Swipe Up/Down:** Scroll through menus or notifications.
- **Swipe Left/Right:** Access quick widgets or different data screens.
- **Tap:** Select an item or open an application.
- **Press Side Buttons:** The top button typically acts as a power/back button, while the bottom button might be a shortcut to sports modes or a customizable function.

4.2 Display Features

The Zeblaze Stratos 3 features an Ultra HD AMOLED display with Corning Gorilla Glass, offering excellent clarity and durability.

5. MAINTENANCE

5.1 Cleaning

Regularly clean your smartwatch and strap to prevent skin irritation and maintain device performance. Use a soft, lint-free cloth. If necessary, dampen the cloth with a small amount of water. Do not use harsh chemicals or abrasive materials.

5.2 Water Resistance

The Zeblaze Stratos 3 is designed with a certain level of water resistance. Refer to the specifications for details on its water resistance rating (e.g., ATM or meters). Avoid exposing the watch to hot water, steam, or high-pressure water jets, as this can compromise the seals.

6. TROUBLESHOOTING

6.1 Watch Not Turning On

- Ensure the watch is fully charged. Connect it to the charging base and a power source for at least 30 minutes.
- Try pressing and holding the power button for an extended period (e.g., 10-15 seconds) for a forced restart.

6.2 Pairing Issues

- Make sure Bluetooth is enabled on your smartphone and the watch.
- Ensure the watch is within Bluetooth range of your phone.
- Restart both your smartphone and the smartwatch.
- Clear the Bluetooth cache on your phone (if applicable) and try pairing again.
- If previously paired, try "forgetting" the device in your phone's Bluetooth settings and re-pairing.

6.3 Inaccurate Health Data

- Ensure the watch is worn snugly on your wrist, about one finger's width above the wrist bone.
- Clean the sensor on the back of the watch.
- Avoid excessive movement during measurements.
