Norifon CGA-S005

Norifon CGA-S005 USB Charger Instruction Manual

Model: CGA-S005

1. Introduction

This manual provides essential instructions for the safe and efficient use of your Norifon CGA-S005 USB Charger. Please read this manual thoroughly before operating the device and retain it for future reference.

2. Product Features

- **Universal USB Compatibility:** Can be powered by various USB sources including laptops, PCs, power banks, USB wall chargers, USB travel chargers, and USB car adapters.
- **Charging Status Indicator:** Features an LED light that displays the charging status: blue for no-load or fully charged, red for charging.
- **Portable Design:** Ultrathin and lightweight (only 2cm thick), designed for convenience during travel and outdoor activities.
- **Efficient Charging:** Designed to keep your camera batteries adequately powered for capturing important moments.

3. Compatibility

This charger is designed for specific Panasonic camera batteries. To ensure compatibility, verify the battery model printed on the label of your battery (*not* your camera model). The charger is compatible with the following battery models:

- CGA-S005
- CGA-S005A
- CGA-S005A/1B
- CGA-S005E
- CGA-S005E/1B
- DMW-BCC12

Image: Example of a battery label indicating the battery code (P/N).

The charger is compatible with cameras that use these battery models, including various Panasonic Lumix DMC-FS, DMC-FX, and DMC-LX series cameras.

4. Setup and Operating Instructions

4.1 Connecting the Charger

The Norifon CGA-S005 USB Charger features a Micro USB port for power input.

Image: Close-up view of the Micro USB port on the charger.

Use the provided USB cable to connect the charger to a compatible USB power source. The cable length is approximately 11.8 inches (30cm).

4.2 Charging a Battery

1. **Align Battery Contacts:** Ensure the positive (+) and negative (-) contacts of your battery align correctly with the corresponding contacts on the charger.
2. **Insert Battery:** Gently slide the battery into the charger slot until it is securely seated.
3. **Connect Power:** Plug the USB cable into the charger and then into a power source.
4. **Observe Indicator:** The LED indicator light will turn **red** to signify that the battery is currently charging. Once the battery is fully charged, the light will change to **blue**.

4.3 Instructional Video

For a visual guide on how to select the correct charger and use it, please watch the following video:

Your browser does not support the video tag.

Video: "How to choose a correct CGA-S005 charger and how to use it?" This video demonstrates how to identify the correct battery model for the charger and provides a step-by-step guide on inserting the battery and observing the charging indicator.

5. Safety Information and Warnings

To ensure safe operation and prevent damage to the charger or battery, please adhere to the following warnings:

- Do not open or modify the charger. Unauthorized modifications can lead to malfunction or safety hazards.
- Do not immerse the charger in water or expose it to excessive moisture. This can cause electrical shock or damage.
- Use the charger only in dry locations.
- Use only compatible batteries with this charger. Refer to the compatibility section for a list of supported battery models.

6. Specifications

Brand	Norifon
Model Number	CGA-S005
Micro Input	DC 5V ± 5%
Output Voltage	DC 4.2V/8.4V ± 5%
Current Rating	500mA (0.5 Amps)
Item Weight	0.07 Pounds (approx. 32g)
Dimensions (Approx.)	3.31 inches (8.4cm) x 1.85 inches (4.7cm) x 0.79 inches (2.0cm)
Connector Type	USB (Micro USB input)
Certifications	CE, FCC, RoHS

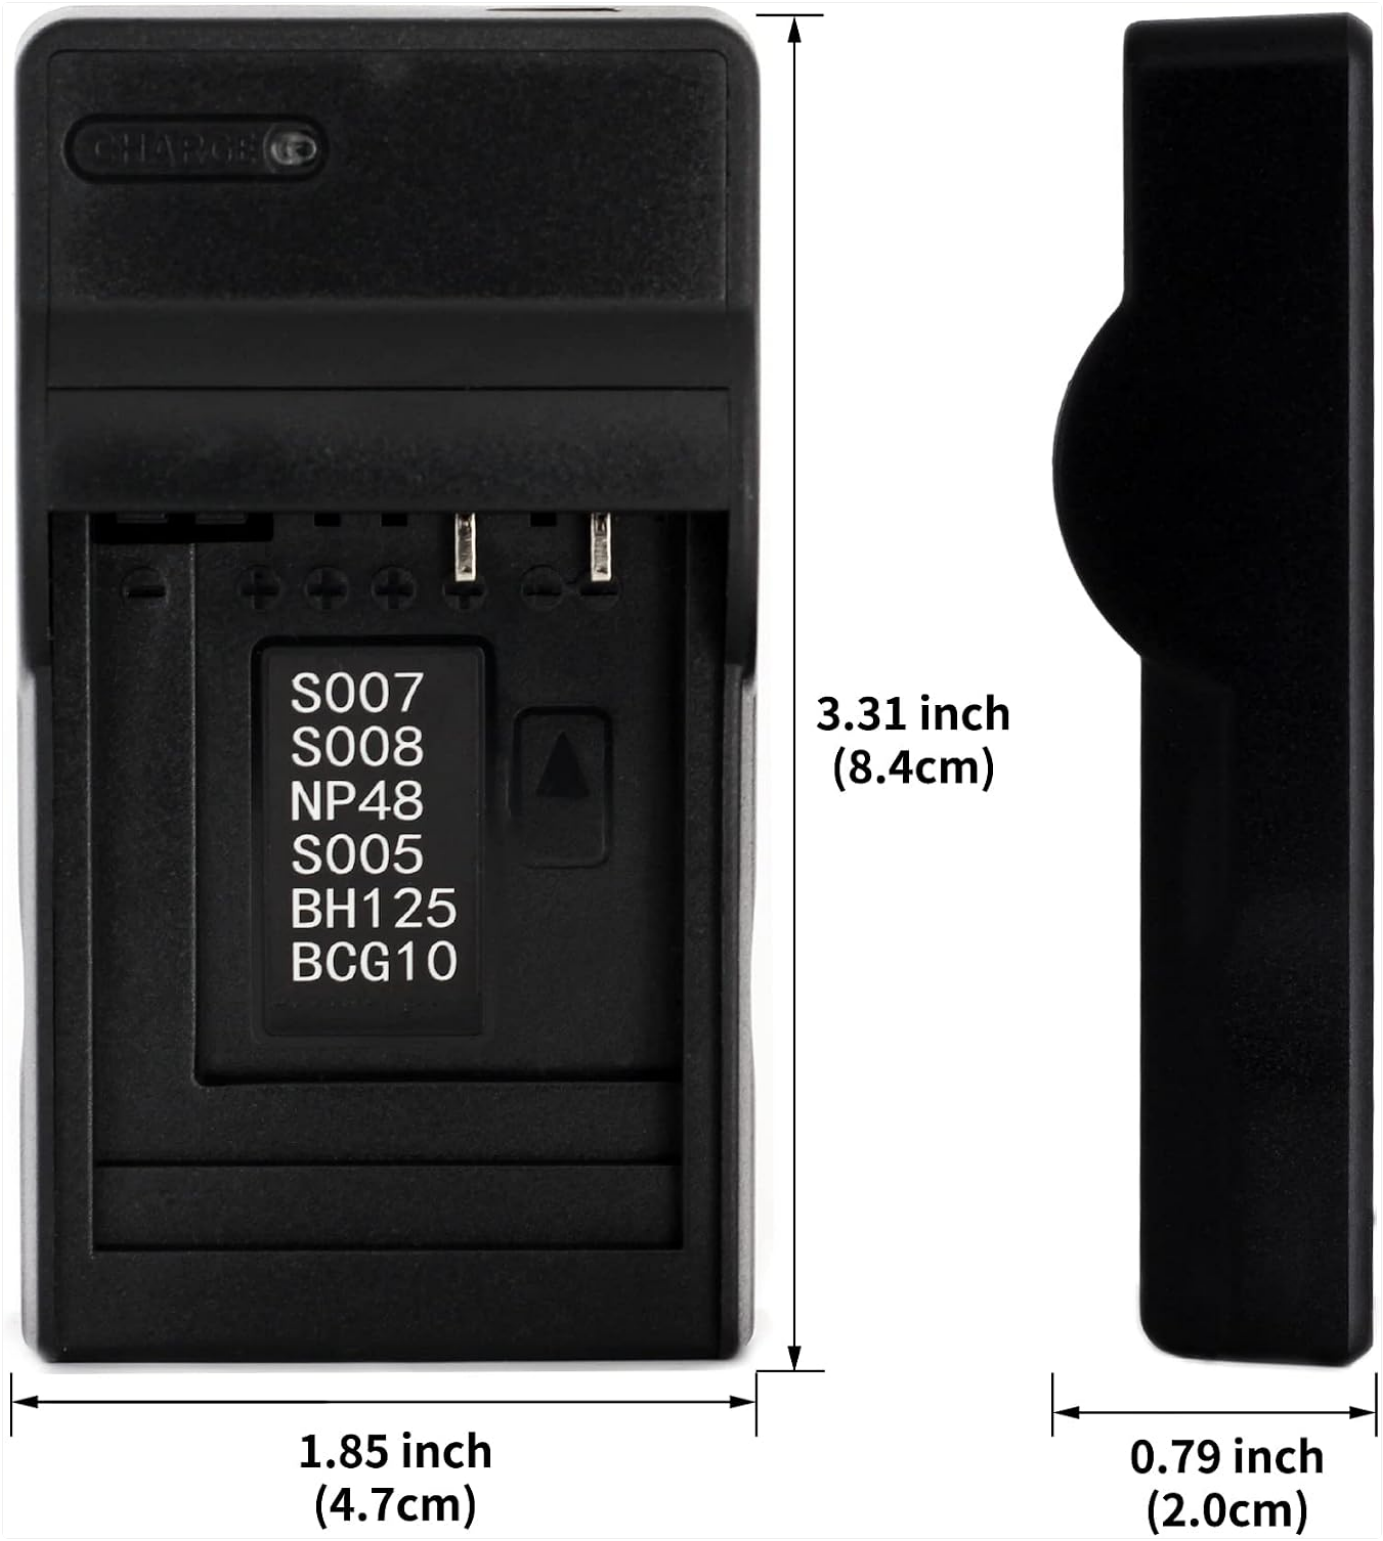

Image: Charger with indicated dimensions (length, width, thickness).

7. Maintenance

To maintain the performance and longevity of your charger:

- Keep the charger clean and free from dust and debris. Use a soft, dry cloth for cleaning.
- Store the charger in a cool, dry place when not in use.
- Avoid dropping the charger or subjecting it to strong impacts.

8. Troubleshooting

If you encounter issues with your charger, consider the following:

- **Charger not working (no light):** Ensure the USB cable is securely connected to both the charger and the power source. Try a different USB port or power adapter.
- **Battery not charging (blue light immediately):** Verify that the battery is correctly inserted and its contacts are clean. Confirm that the battery model is compatible with the charger. The battery might already be fully charged.
- **Slow charging:** Ensure your USB power source provides sufficient current (e.g., a standard 5V USB port).

If problems persist, contact customer support.

9. Warranty and Support

For warranty information or technical support, please refer to the product packaging or contact Norifon customer service directly. Contact details are typically available on the manufacturer's website or through your point of purchase.

Ask a question about this manual

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
