DELTA 51549-RB

Delta ActivTouch 9-Setting Handheld Shower Head with Hose

Model: 51549-RB

Brand: DELTA

PRODUCT OVERVIEW

This manual provides instructions for the Delta ActivTouch 9-Setting Handheld Shower Head with Hose, Model 51549-RB. This system offers enhanced control and flexibility for your showering experience, featuring multiple spray settings and a convenient pause function.

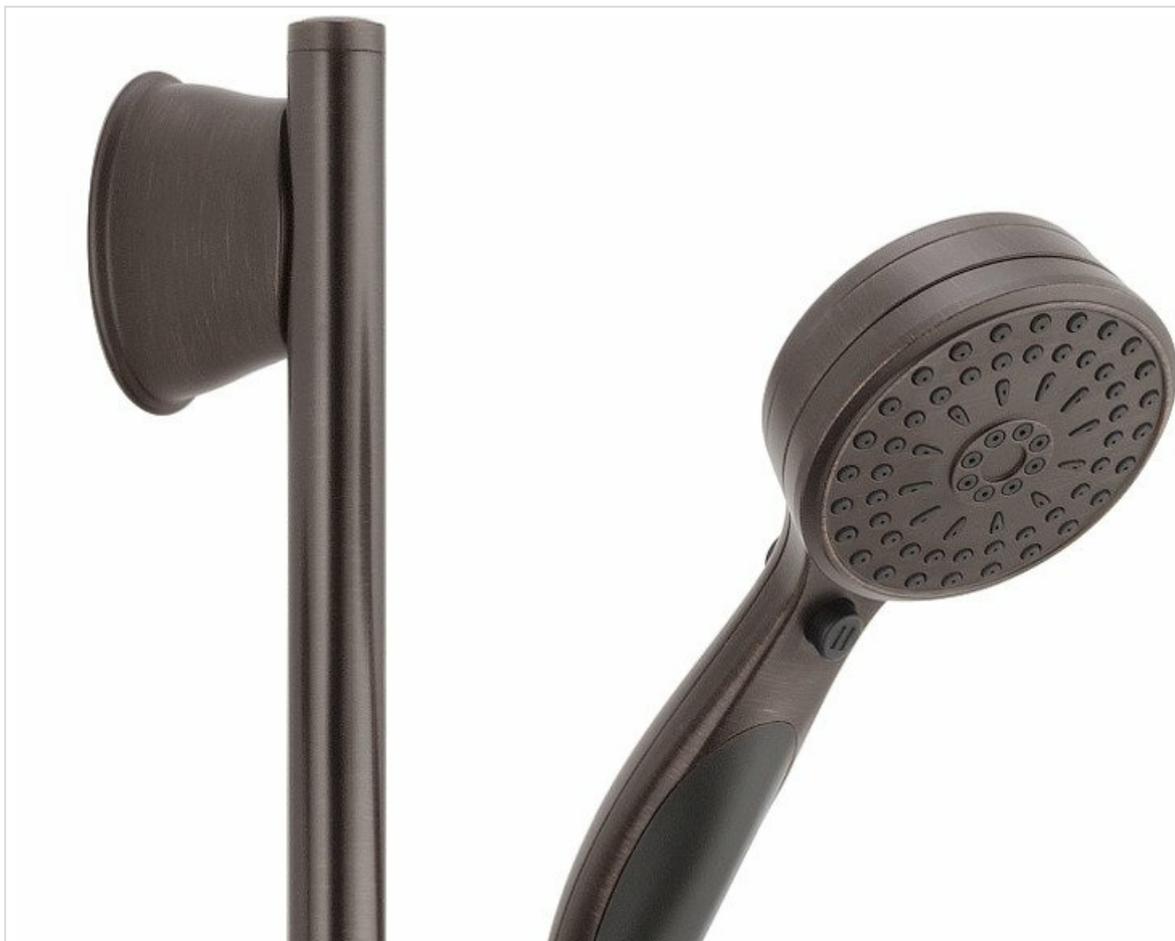

Image: The Delta ActivTouch 9-Setting Handheld Shower Head in Venetian Bronze finish, showcasing its design and hose.

Key features of this shower head include:

- **Venetian Bronze finish:** Provides a classic and elegant aesthetic.
- **WaterSense certification:** Promotes water conservation without compromising performance.
- **Pause feature:** Reduces water flow to a trickle, ideal for tasks like shaving or lathering, helping to conserve water.
- **Soft, rubber Touch-Clean® spray holes:** Allows for easy removal of mineral build-up with a simple wipe, ensuring consistent spray performance.
- **Metal construction:** Ensures durability and longevity.
- **Handheld design:** Offers flexibility for various showering needs, including cleaning the shower or bathing children/pets.

The ActivTouch hand showers allow you to choose from up to nine different spray settings with a simple, one-handed activation, delivering a new level of innovation for an enhanced handheld showering experience.

SETUP AND INSTALLATION

This product is a trim kit only. A MultiChoice universal rough-in valve (sold separately) is required to complete the unit. Professional installation is recommended to ensure proper function and compliance with local plumbing codes.

1. **Prepare the Rough-In Valve:** Ensure the MultiChoice universal rough-in valve is correctly installed according to its specific instructions.
2. **Connect the Handheld Shower Head:** Attach the shower hose to the water outlet and the handheld shower head. Ensure all connections are hand-tightened, then use a wrench for a final quarter-turn to prevent leaks. Do not overtighten.
3. **Mount the Slide Bar:** Securely mount the slide bar to the shower wall at the desired height using appropriate fasteners for your wall type. The slide bar allows for adjustable positioning of the handheld shower head.
4. **Attach the Handheld Holder:** Place the handheld shower head holder onto the slide bar. This holder can be adjusted up or down the bar to suit user preference.
5. **Test for Leaks:** Turn on the water supply and check all connections for leaks. If leaks occur, tighten connections slightly.

Refer to the detailed installation guide included with your MultiChoice universal rough-in valve for complete instructions.

OPERATING INSTRUCTIONS

The Delta ActivTouch Handheld Shower Head offers multiple spray settings and a convenient pause feature for a customized showering experience.

- **Adjusting Spray Settings:** The shower head features three spray-selection buttons. Press these buttons to cycle through up to nine different spray patterns. Experiment to find your preferred setting.
- **Using the Pause Feature:** Locate the pause button on the handheld shower head. Pressing this button will reduce the water flow to a trickle, allowing you to temporarily stop the water while performing tasks such as lathering or shaving. Press the button again to resume full water flow at the same temperature.
- **Adjusting Height:** The handheld shower head can be adjusted vertically along the slide bar. Loosen the adjustment mechanism on the holder, slide the shower head to the desired height, and then tighten the mechanism to secure it.

- **Handheld Use:** The shower head can be easily removed from its holder for handheld use, providing flexibility for rinsing specific areas, cleaning the shower, or bathing children and pets.

MAINTENANCE

Regular maintenance will ensure the longevity and optimal performance of your Delta ActivTouch Handheld Shower Head.

- **Cleaning the Spray Holes:** The soft, rubber Touch-Clean® spray holes are designed for easy cleaning. Simply wipe away any mineral residue (calcium and lime build-up) from the spray face with your finger or a soft cloth. No chemical cleaners or soaking are typically required.
- **General Cleaning:** Clean the shower head and hose regularly with a soft, damp cloth and mild soap. Avoid abrasive cleaners, harsh chemicals, or scouring pads, as these can damage the finish.
- **Hose Inspection:** Periodically inspect the shower hose for any signs of wear, kinks, or damage. Replace the hose if necessary to maintain proper function and prevent leaks.

TROUBLESHOOTING

If you encounter issues with your Delta ActivTouch Handheld Shower Head, consider the following common solutions:

- **Low Water Pressure:**
 - Check if the spray holes are clogged with mineral deposits. Clean them using the Touch-Clean® feature.
 - Ensure the main water supply valve is fully open.
 - Verify that the rough-in valve is fully open and not obstructed.
- **Leaking from Connections:**
 - Ensure all connections are securely tightened. Do not overtighten.
 - Check if rubber washers or gaskets are properly seated and not damaged. Replace if necessary.
- **Difficulty Changing Spray Settings:**
 - Ensure the spray selection buttons are not obstructed by mineral build-up. Clean the shower head thoroughly.

If problems persist after attempting these solutions, contact Delta Faucet customer support for further assistance.

SPECIFICATIONS

Feature	Detail
Brand	DELTA
Model Number	51549-RB
Color	Venetian Bronze
Material	Metal (Brass handle material)
