## Nespresso ENV135BAE

# Nespresso Vertuo Coffee and Espresso Machine User Manual

Model: ENV135BAE | Brand: Nespresso

## 1. INTRODUCTION

---

The Nespresso Vertuo Coffee and Espresso Machine by De'Longhi offers a versatile brewing experience, allowing you to create a variety of single-serve coffee and espresso drinks. Utilizing patented Centrifusion extraction technology, the machine reads barcodes on Vertuo capsules to automatically adjust brewing parameters, ensuring optimal flavor and crema for each cup. This manual will guide you through the setup, operation, and maintenance of your machine, including the accompanying Aeroccino3 milk frother.

Figure 1: Nespresso Vertuo Coffee and Espresso Machine with Aeroccino3 Milk Frother.

## 2. WHAT'S IN THE BOX

---

Upon unboxing your Nespresso Vertuo machine, please ensure all components are present:

- Nespresso Vertuo Coffee and Espresso Machine
- Aeroccino3 Milk Frother
- Complimentary Welcome Set of Nespresso Vertuo capsules (assortment may vary)
- User Manual (this document)
- Quick Start Guide

## \$20 OF VALUE INSIDE THE BOX

Capsule tasting pack included.  
Capsule assortment may vary.

Figure 2: Nespresso Vertuo machine with a capsule tasting pack.

## 3. SETUP

---

1. **Unpack and Position:** Remove all packaging materials. Place the machine on a stable, flat, heat-resistant surface near a power outlet. Ensure adequate space around the machine for ventilation and operation.
2. **Fill Water Tank:** Remove the water tank from the back of the machine. Fill it with fresh, potable water up to the 'MAX' line. Reattach the water tank securely to the machine.

3. **Power On:** Plug the machine into a grounded electrical outlet. The power button will illuminate.
4. **First Use Rinse:** Before first use, perform a rinse cycle. Ensure the water tank is filled. Place a large container under the coffee outlet. Close the machine head and lock it. Press the brew button. The machine will run water through the system to clean it. Repeat this process 2-3 times.

## RETRO-MODERN DESIGN

### REMOVABLE 54 OZ WATER TANK

Figure 3: Machine dimensions for proper placement.

# BLEND SPECIFIC BREWING

Automatically adapts brewing parameters to each capsule:

- Coffee size
- Temperature
- Pressure
- Brewing time

Designed for Nespresso Vertuo capsules only

*Figure 4: Top view illustrating capsule insertion.*

## Setup Demonstration Video

*Video 1: This video demonstrates the process of inserting a Nespresso Vertuo capsule and initiating the brewing process. It highlights the machine's ability to read the capsule's barcode to automatically set brewing parameters.*

## 4. OPERATION

---

1. **Preheat:** Ensure the machine is plugged in and the water tank is filled. The machine heats up in approximately 15-20 seconds. The light on the button will stop blinking when ready.
2. **Insert Capsule:** Turn the lever to the 'UNLOCK' position and lift the machine head. Insert a Nespresso Vertuo capsule with the dome side down. Close the machine head and turn the lever to the 'LOCK' position.
3. **Place Cup:** Position your coffee cup on the drip tray. The drip tray is adjustable to accommodate different cup sizes.
4. **Brew:** Press the brew button once. The machine will automatically read the barcode on the capsule and begin the brewing process, adjusting the water volume, temperature, and extraction speed for the specific coffee or espresso.

5. **Capsule Ejection:** After brewing, turn the lever to the 'UNLOCK' position and lift the machine head. The used capsule will automatically be ejected into the integrated capsule container.

## ULTIMATE SIMPLICITY

- One touch brewing system
- Removable water tank
- Automatic capsule ejection and storage

# BREWS 4 CUP SIZES

## ESPRESSO

**Single**

**Double**

# COFFEE

Included with our machine: 12 capsules

*Figure 6: Available cup sizes: Espresso (1.35 oz), Double Espresso (2.7 oz), Gran Lungo (5.0 oz), and Coffee (7.7 oz).*

## Using the Aeroccino3 Milk Frother

The Aeroccino3 provides smooth hot or cold milk froth for your coffee recipes.

1. **Hot Froth:** Pour milk into the frother up to the lower 'MAX' line. Press the button once. The light will turn red, and the frother will begin.
2. **Cold Froth:** Pour milk into the frother up to the lower 'MAX' line. Press and hold the button for 2 seconds. The light will turn blue, and the frother will begin.
3. **Hot Milk (no froth):** Remove the whisk from the frother. Pour milk up to the upper 'MAX' line. Press the button once.

## 5. MAINTENANCE

---

Regular cleaning ensures optimal performance and longevity of your Nespresso machine.

- **Daily Cleaning:** Empty and rinse the drip tray and used capsule container daily. Wipe the machine exterior with a damp cloth.
- **Water Tank:** Clean the water tank regularly with mild detergent and rinse thoroughly.
- **Aeroccino3:** Clean the frother immediately after each use. The jug is not dishwasher safe. Rinse the inside with water and wipe with a soft cloth. Do not immerse the base in water.
- **Descaling:** Descale the machine every 3 months or after 300 capsules, whichever comes first. Refer to the full user manual for detailed descaling instructions.

### Capsule Disposal Demonstration Video

*Video 2: This video illustrates the automatic ejection of used capsules into the disposal bin, a key part of daily maintenance.*

## 6. TROUBLESHOOTING

---

If you encounter issues with your Nespresso machine, please refer to the following common solutions. For

more complex problems, consult the full user manual or contact Nespresso customer support.

- **No Coffee Flow / Slow Flow:** Check water tank level. Ensure the capsule is correctly inserted and the machine head is locked. Perform a rinse cycle. Descale the machine if necessary.
- **Leaking:** Ensure the water tank is properly seated. Check for any cracks in the water tank or seals.
- **Lights Blinking Erratically:** This may indicate a need for descaling or a general error. Refer to the user manual's indicator light section.
- **Coffee Not Hot Enough:** Preheat your cup before brewing. Ensure the machine has completed its preheating cycle.

For a comprehensive troubleshooting guide, please refer to the official [User Guide \(PDF\)](#).

## 7. SPECIFICATIONS

---

Feature	Detail
Brand	Nespresso
Model Name	ENV135BAE
Product Dimensions	9"D x 12.2"W x 12.3"H
Item Weight	12.96 pounds
Color	Piano Black
Voltage	110 Volts
Operation Mode	Fully Automatic
Coffee Input Type	Capsule (Nespresso Vertuo only)
Water Reservoir Capacity	54 oz.
Heat Up Time	15-20 seconds
Automatic Shutoff	After 9 minutes of inactivity

## 8. WARRANTY & SUPPORT

---

## 9. RECYCLING

---

Nespresso is committed to sustainability. All aluminum capsules collected by Nespresso are recycled. You can participate in the recycling program by returning your used capsules through designated collection points or by utilizing the provided recycling bags for mail-in services. This ensures that the aluminum is reused and coffee grounds are composted.
