

Moen 87039SRS

# Moen Medina Kitchen Faucet User Manual

Model: 87039SRS | Brand: Moen

## PRODUCT OVERVIEW

The Moen Medina One-Handle Pull Out Kitchen Faucet (Model 87039SRS) is designed to enhance your kitchen experience with its blend of style and functionality. Featuring a Spot Resist Stainless finish, it effectively resists fingerprints and water spots, ensuring a cleaner appearance. The pull-out sprayer provides versatile water delivery, while the innovative Power Clean spray technology offers increased spray power for efficient cleaning. This faucet is built for easy installation and long-lasting performance, complying with ADA specifications and Federal Safe Drinking Water Act standards.

### Key Features:

- **Spot Resist Stainless Finish:** Resists fingerprints and water spots for a cleaner kitchen.
- **Power Clean Spray Technology:** Delivers 50 percent more spray power for a faster, more efficient clean.
- **Duralock Quick Connect System:** Ensures easy and secure installation.
- **One-Handle Lever:** Provides effortless water adjustment.
- **Aerated Stream & Pause Function:** Offers versatility for everyday cleaning and temporary water shut-off.
- **ADA Compliant:** Meets Americans with Disabilities Act specifications for accessibility.
- **Certified Safe:** Complies with Federal Safe Drinking Water Act and NSF 61 standards.

### INSTALLATION (SETUP)

---

The Moen Medina faucet is designed for straightforward installation, featuring the Duralock quick connect system. For detailed step-by-step instructions, please refer to the official User Manual PDF linked in the "Support" section.

### Installation Considerations:

- **Mounting Type:** Deck Mount.
- **Hole Count:** Suitable for 1 or 3 hole installations. An optional deck plate is included for 3-hole configurations.
- **Connection Size:** 3/8"
- **Maximum Deck Thickness:** 2.00"

#### POWER CLEAN SPRAY

Power Clean technology provides **50% more** spray power\* than most pulldown and pullout faucets, while containing splash and minimizing the mess.

\*As compared to Moen pullout and pulldown faucets without Power Boost™ excludes Power Boost™ Pro

## OPERATING INSTRUCTIONS

The Moen Medina faucet offers intuitive operation for various kitchen tasks.

### Water Flow Control:

- **Handle Operation:** The single-handle lever allows for easy adjustment of water temperature and flow volume. Lift the handle to turn on the water and move it left for hot water, right for cold.
- **Pull-Out Sprayer:** The sprayer head can be pulled out from the spout for extended reach and flexibility, making it ideal for rinsing dishes or cleaning the sink basin. The hose length is approximately 68 inches.
- **Spray Modes:**
  - **Aerated Stream:** Default mode for everyday cleaning tasks.
  - **Power Clean Spray:** Press the button on the sprayer head to activate a powerful rinse, providing 50% more spray power for heavy-duty cleaning.
  - **Pause Function:** Conveniently stop water flow from the spray head by pressing the button, useful when

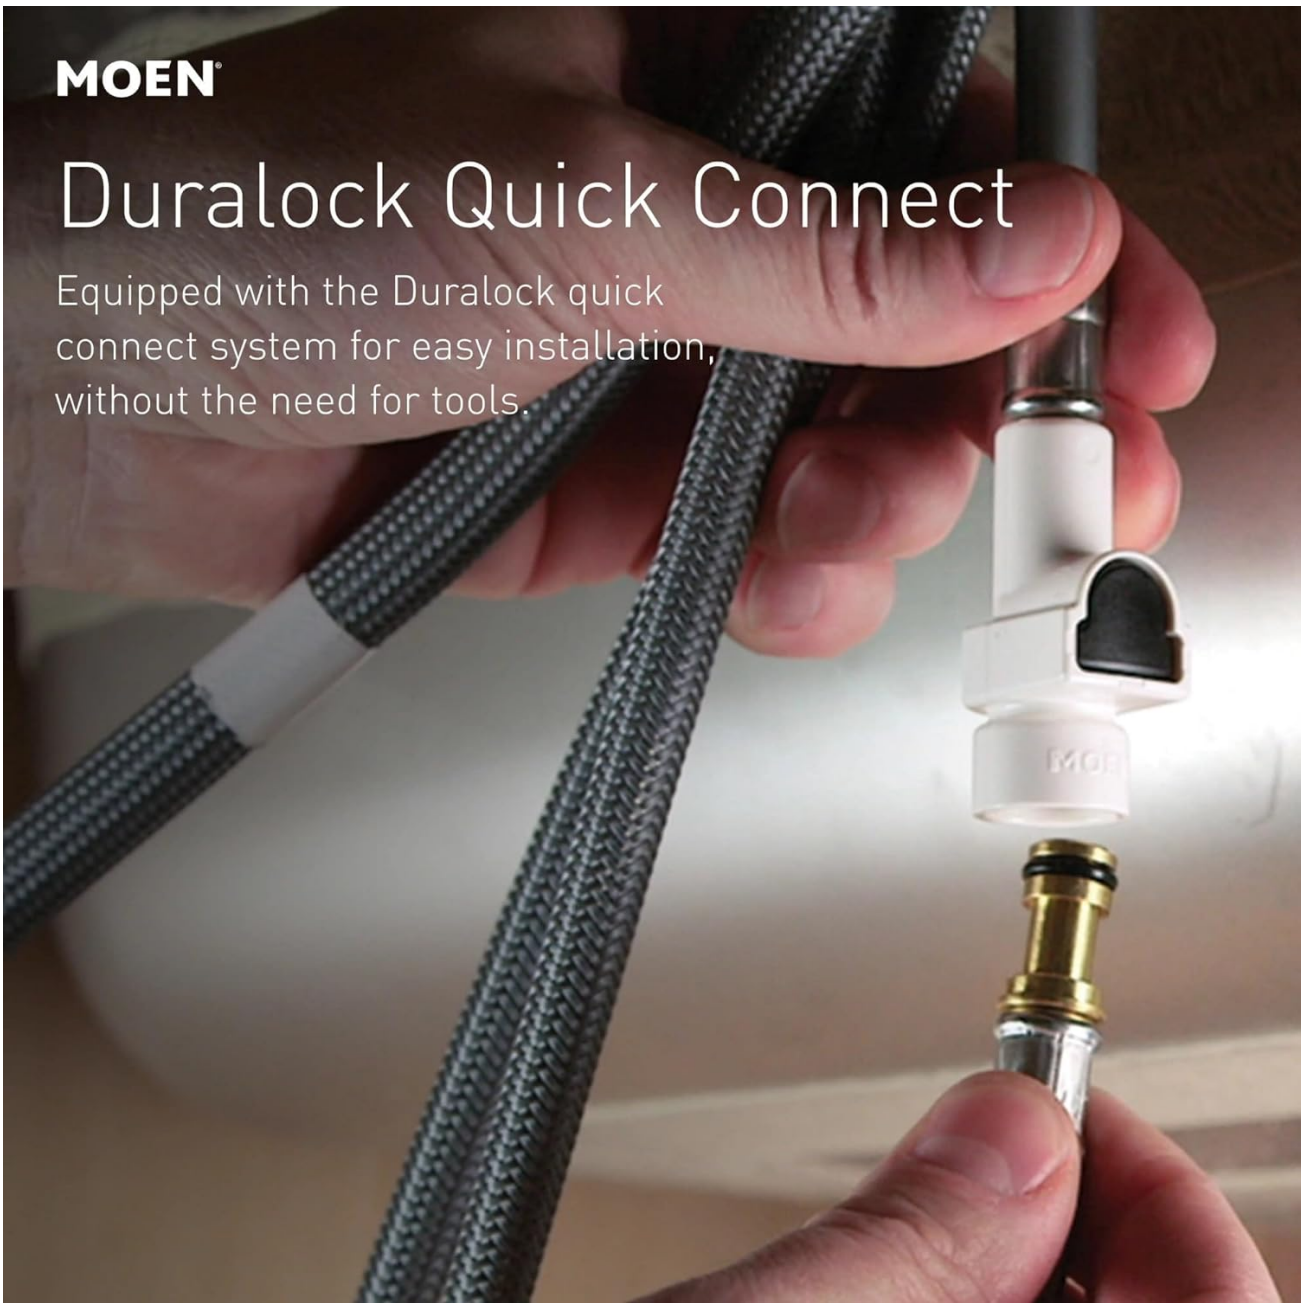

moving the sprayer between sink basins or filling pots outside the sink.

## MAINTENANCE

To ensure the longevity and optimal performance of your Moen Medina faucet, regular maintenance is recommended.

### Cleaning:

- The **Spot Resist Stainless** finish is designed to resist fingerprints and water spots, making cleaning easier.
- Clean the faucet regularly with a soft, damp cloth and mild soap. Avoid abrasive cleaners, harsh chemicals, or scouring pads, as these can damage the finish.
- For stubborn water spots, a solution of equal parts white vinegar and water can be used, followed by rinsing with clear water and drying thoroughly.

Figure 7: Spot Resist Technology helps keep your faucet cleaner.

### General Care:

- Periodically check all connections for leaks and tighten if necessary.
- If water flow decreases, the aerator on the spray head may be clogged. Unscrew the aerator, clean any debris, and reattach.

## TROUBLESHOOTING

This section provides solutions to common issues you might encounter with your Moen Medina kitchen faucet.

| Problem              | Possible Cause                            | Solution  |
|----------------------|---|---|
| Low Water Flow       | Clogged aerator or debris in water lines. | Remove and clean the aerator. Flush water lines before reattaching.   |
| Faucet Leaks at Base | Loose connections or worn cartridge.      | Check and tighten all connections under the sink. If leaking persists, the cartridge may need replacement. Contact Moen support for assistance. |

| Problem                         | Possible Cause                             | Solution  |
|---------------------------------|--|---|
| Sprayer Not Retracting Fully    | Weight on hose is dislodged or obstructed. | Ensure the weight attached to the hose under the sink is positioned correctly and not obstructed. |
| Difficulty Changing Spray Modes | Mineral buildup in spray head.             | Clean the spray head nozzles and button area to remove mineral deposits.                          |

If you encounter issues not listed here or require further assistance, please contact Moen Customer Support.
