Feit Electric 1051253

Feit Electric LED Vintage Style Bulbs Instruction Manual

Model: 1051253

INTRODUCTION

The Feit Electric LED Vintage Style Bulbs combine classic aesthetics with modern energy efficiency. While Thomas Edison invented the light bulb in 1879 using a carbonized filament and a vacuum-sealed glass globe, these LED bulbs carry on that traditional appearance while utilizing the latest in LED lighting technology. They are designed to provide perfect light for various visible bulb applications.

SETUP AND INSTALLATION

These LED bulbs are designed for easy installation into standard light fixtures. Follow these guidelines for proper setup:

- **Power Off:** Before connecting or disconnecting the bulb from any fixture, always ensure that the power supply to the fixture is switched off at the circuit breaker or wall switch.
- **Circuit Compatibility:** Use only on 120 volt 60Hz circuits.
- **Location:** Suitable for damp locations.
- **Temperature:** Minimum starting temperature is -25°C (-13°F).
- **Intended Use:** This device is not intended for use with emergency exit fixtures or emergency lights.
- **Dimmer Compatibility:** This lamp may not be compatible with all dimmers. For more information, including a dimmer compatibility list, visit www.feit.com or call toll-free 1-866-326-BULB.

Contains lower levels of hazardous materials than RoHS standard allow (Restriction of Hazardous Substances)

LED

VINTAGE STYLE BULBS

In 1879 Thomas Edison invented the light bulb. By using a small carbonized filament and an improved vacuum inside a glass globe, he was able to produce a reliable, long-lasting source of light. The LED Original carries on with the traditional appearance of the first light bulb but utilizes the newest in LED lighting technology. Provides perfect light for all visible bulb applications.

WARRANTY

This lamp has a three year, free replacement warranty. If it fails or you are not satisfied with its performance, contact Feit Electric at info.conserv-energy.com or call Toll Free 1-866-326-BULB for instructions on lamp replacement. This replacement is the sole remedy available and liability for incidental or consequential damage is expressly excluded. Do not return the bulb to the store.

CAUTION

Use only on 120 volt 60Hz circuits. Suitable for damp locations. Minimum starting temperature -25°C (-13°F). This device is not intended for use with emergency exit fixtures or emergency lights. Lamp may not be compatible with all dimmers. For more information including dimmer compatibility visit www.feit.com or call our toll free number 1-866-326-BULB. When installing, make sure that power is switched off before connecting or disconnecting to fixture.

The performance specifications (lumens, watts, life, CCT, and CRI) printed on this LED product package should only be considered an approximation of expected performance.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help.

OPERATING INSTRUCTIONS

Once installed, these bulbs operate like standard light bulbs. Simply turn on the power to your fixture. These bulbs are dimmable, allowing you to adjust the light output to your desired level, provided you are using a compatible dimmer switch.

- Dimmable Feature:** These bulbs are designed to be dimmable. Ensure your dimmer switch is compatible for optimal performance.
- Light Output:** Provides 400 Lumens of light.
- Color Temperature:** Emits a warm 2200K Amber White light, creating a vintage ambiance.

MAINTENANCE

Feit Electric LED Vintage Style Bulbs are designed for long-lasting performance and require minimal maintenance. To ensure their longevity and optimal operation:

- **Cleaning:** Ensure the power is off before cleaning. Gently wipe the bulb with a soft, dry cloth. Avoid using liquid cleaners or abrasive materials, as these can damage the bulb's finish or internal components.
- **Handling:** Handle bulbs by their base when installing or removing to avoid damaging the glass or internal filaments.
- **Replacement:** Replace bulbs only when they have completely cooled down.

TROUBLESHOOTING AND FCC COMPLIANCE

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

SPECIFICATIONS

Feature	Value
Brand	Feit Electric
Model Number	1051253
Light Type	LED
Special Feature	Dimmable
Wattage	4.8 Watts (Energy Used)
Incandescent Equivalent Wattage	40 Watts
Unit Count	2.0 Count
Brightness	400 Lumens
Shape	Arbitrary (A)
Material	Copper
Power Source	Corded Electric
Color Rendering Index (CRI)	80

Feature	Value
Light Source Type	LED
Control Method	Touch (likely referring to dimmer compatibility)
Average Life (Hours)	15,000 Hours
Average Life (Years)	13.7 Years (Based on 3 hrs/day)
Color Temperature	2200K Amber White
Efficiency	Energy Star Rated
Cost to Operate	\$0.58 Per Year (Based on 3 hrs/day 11¢/kWh)
Product Dimensions	10.5 x 10.5 x 3.5 inches
Item Weight	6.4 ounces
UPC	017801179132

Note: The performance specifications (lumens, watts, life, CCT, and CRI) are approximations of expected performance.

WARRANTY INFORMATION

This lamp comes with a three-year, free replacement warranty. If it fails or you are not satisfied with its performance, contact Feit Electric directly. The replacement is the sole remedy available, and liability for incidental or consequential damage is expressly excluded. Do not return the bulb to the store where purchased.

SAFETY AND ENVIRONMENTAL INFORMATION

Caution

- Use only on 120 volt 60Hz circuits.
- Suitable for damp locations.
- Minimum starting temperature -25°C (-13°F).
- This device is not intended for use with emergency exit fixtures or emergency lights.
- Lamp may not be compatible with all dimmers. For more information including dimmer compatibility visit www.feit.com or call our toll free number 1-866-326-BULB.
- When installing, make sure that power is switched off before connecting or disconnecting to fixture.

RoHS Compliance

These bulbs are RoHS Compliant, meaning they contain lower levels of hazardous materials than the RoHS standard allows, contributing to a better environment.
