

## hansgrohe 26221000

# hansgrohe Croma 280 Air Overhead Shower (9 l/min, Chrome)

Model: 26221000

## PRODUCT OVERVIEW

The hansgrohe Croma 280 Air Overhead Shower is a high-quality, water-saving shower head designed to provide a luxurious showering experience. It features a large 280 mm shower head with a unique Rain Air spray pattern, which infuses water with air for a softer, fuller, and more voluminous feel. This specific model delivers a flow rate of 9 liters per minute at an operating pressure of 3 bar, ensuring efficient water usage without compromising comfort.

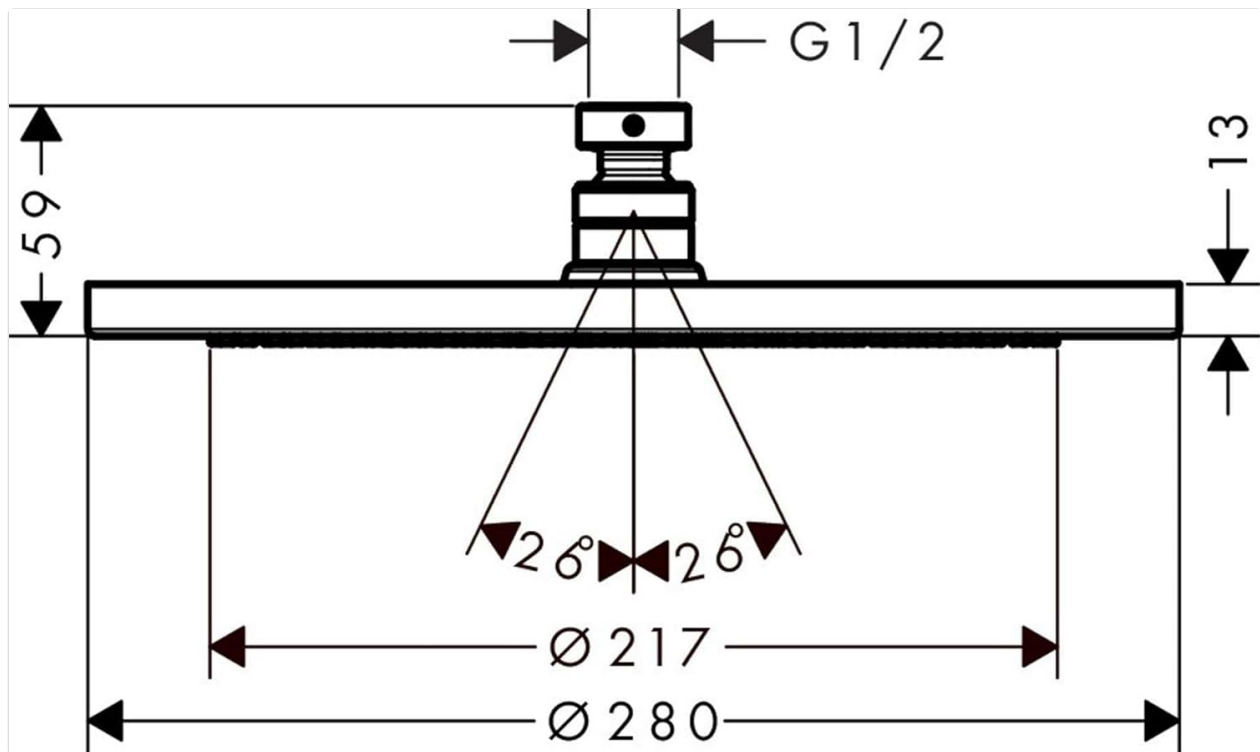

Constructed from durable metal with a fully chrome-plated spray face, this shower head is built for longevity and easy maintenance. Its versatile design allows for installation on either the ceiling or a wall, adapting to various bathroom layouts.

## KEY FEATURES

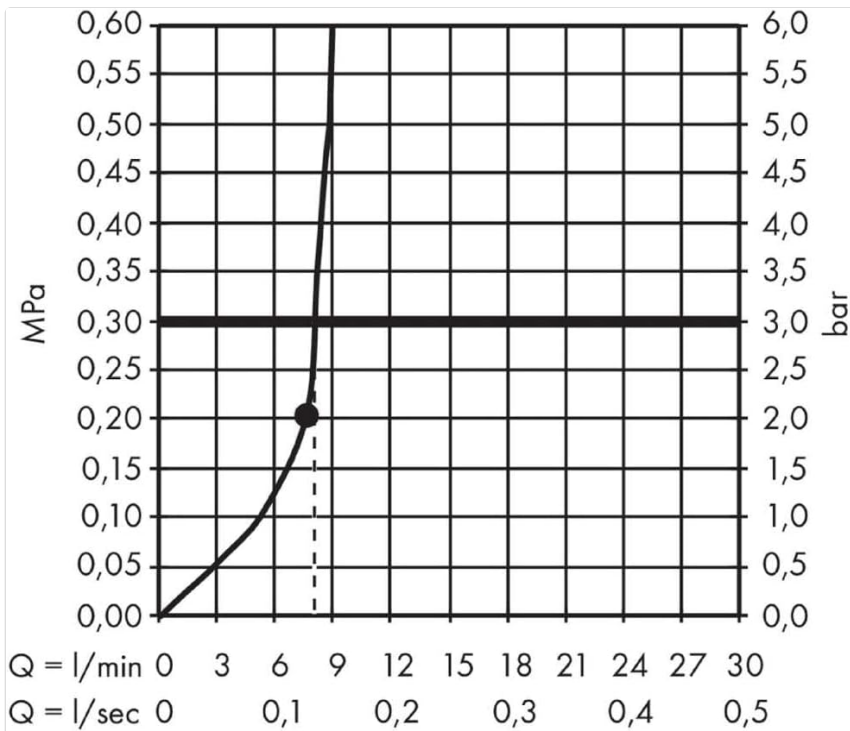

- **Extra-Large Shower Head:** Features a 280 mm metal shower head for extensive water coverage.
- **Rain Air Spray Pattern:** Water is enriched with air for a soft, voluminous, and pleasant shower experience.
- **Water-Saving Design:** Optimized flow rate of 9 liters per minute at 3 bar.
- **QuickClean Technology:** Flexible silicone nozzles allow for easy removal of limescale deposits by simply rubbing them.
- **Durable Construction:** Fully chrome-plated metal spray face ensures durability and a sleek appearance.
- **Flexible Installation:** Suitable for both ceiling and wall mounting.
- **High-Pressure Compatibility:** Designed for water systems with an operating pressure of 1.0 bar or higher.

## INSTALLATION GUIDELINES

The hansgrohe Croma 280 Air Overhead Shower can be installed on either the ceiling or a wall, depending on your bathroom design and existing plumbing. Before beginning installation, ensure that your water supply system provides an operating pressure of at least 1 bar to ensure optimal performance. The maximum operating pressure should not exceed 6 bar.

It is highly recommended to have this product installed by a qualified professional plumber to ensure correct setup and to prevent any damage or leaks. Refer to the detailed technical drawing in the specifications section for precise measurements and connection details (G 1/2 connection).

## OPERATION

The Croma 280 Air Overhead Shower delivers a single, consistent Rain Air spray pattern. This innovative spray enriches the water with air, creating larger, softer droplets that feel gentle on the skin and provide a luxurious, full-bodied shower. To activate the shower, use your existing shower mixer or thermostat to turn on the water flow and adjust the temperature to your preference.

## CARE AND MAINTENANCE

---

To ensure the longevity and optimal performance of your hansgrohe Cromo 280 Air Overhead Shower, regular cleaning is essential. The shower head is equipped with QuickClean technology, which simplifies the removal of limescale deposits.

### Cleaning Instructions:

- **Limescale Removal:** Simply rub the flexible silicone nozzles on the spray face with your finger to dislodge and remove any accumulated limescale.
- **General Cleaning:** Use a soft cloth and a mild, non-abrasive cleaning agent to wipe down the chrome surfaces. Avoid using cleaners containing harsh chemicals, acids, or abrasive particles, as these can damage the finish.
- **Rinsing:** After cleaning, thoroughly rinse the shower head with clean water to remove any cleaning agent residue.

## TROUBLESHOOTING

---

If you encounter any issues with your hansgrohe Croma 280 Air Overhead Shower, please refer to the following common solutions:

- **Low Water Flow:**
  - Check your household water pressure to ensure it meets the minimum requirement of 1 bar.
  - Inspect the water supply lines and any inline filters for blockages or debris.
- **Uneven Spray Pattern:**
  - Limescale buildup in the nozzles can cause an uneven spray. Use the QuickClean feature by rubbing the silicone nozzles to clear them.
- **Leaks from Connections:**
  - Ensure all plumbing connections are securely tightened.
  - Check that all washers and seals are correctly seated and not damaged. Replace if necessary.

If the problem persists after attempting these solutions, it is advisable to contact a qualified plumber or hansgrohe customer support for further assistance.

## WARRANTY INFORMATION

---

This hansgrohe product is covered by a manufacturer's warranty. The warranty period and terms may vary by region and product type. For detailed information regarding your product's warranty, including coverage, duration, and how to make a claim, please refer to the official hansgrohe website or the warranty documentation included with your purchase.
