SETUP

Charging the Device

Before first use, fully charge the device. The Evolved Pretty in Pink vibrator is equipped with a rechargeable Lithium-Ion battery.

1. Locate the charging port, typically found at the base of the device and sealed with a small, discreet cover.
2. Insert the provided charging cable into the port.
3. Connect the other end of the charging cable to a compatible USB power source (e.g., computer USB port, USB wall adapter).
4. Allow the device to charge until the indicator light (if present) signals a full charge. Charging time may vary.
5. Once fully charged, disconnect the cable and ensure the charging port cover is securely sealed to maintain water resistance.

OPERATING INSTRUCTIONS

Power On/Off and Mode Selection

The device features a single-button control for all functions.

1. **To Power On:** Press and hold the control button for approximately 2-3 seconds until the device activates.
2. **To Change Vibration Modes:** Once powered on, short press the control button to cycle through the 7 distinct vibration patterns.
3. **To Power Off:** Press and hold the control button for approximately 2-3 seconds until the device deactivates.

Note: If the device does not respond, ensure it is fully charged.

MAINTENANCE

Cleaning and Storage

Proper cleaning and storage are essential for hygiene and product longevity.

1. **Cleaning:** After each use, clean the device thoroughly. It is recommended to use an Evolved Toy Cleaner or a mild soap with warm water. Rinse thoroughly with warm water.
2. **Drying:** Pat the device dry with a lint-free cloth. Ensure it is completely dry before storage.
3. **Storage:** Store the device in a clean, dry place away from direct sunlight and extreme temperatures. Keep it separate from other toys made of different materials to prevent material degradation.

Important: Ensure the charging port cover is securely sealed before cleaning or exposing the device to water.

TROUBLESHOOTING

If you encounter issues with your Evolved Pretty in Pink vibrator, refer to the following common solutions:

Problem	Possible Cause	Solution
Device does not turn on.	Low battery or not charged.	Charge the device fully using the provided USB cable. Ensure the charging cable is properly connected to both the device and a power source.
Device turns on but vibrations are weak.	Low battery.	Recharge the device.
Cannot change vibration modes.	Incorrect button press.	Ensure you are short-pressing the control button to cycle modes, not holding it down.
Device does not turn off.	Incorrect button press.	Press and hold the control button for approximately 2-3 seconds to power off. If unresponsive, allow the battery to drain completely and then recharge.
